Jim,

I take it you are using the sub-receiver of the Orion for SWLing, as the main receiver covers just the ham  bands and MARS frequency extensions +/- 10 kHz.

The sub-receiver has poorer SSB sensitivity than the main receiver (.35 uV versus .18 uV) and poorer third-order intercept point (+5 dB versus +25dB at 20 kHz spacing). Have you found this a drawback for DXing, or is your main receive-only use of the Orion for general SWLing (not DXing)? I'm interested in your further comments on this.

Also, I note that both of the Orion's receivers offer just two bandwidths for AM mode. Is this a drawback, or do you like to tune an AM signal in SSB ("ECSS"), taking advantage of the many DSP filter choices in SSB?

I know the Orion is top-notch for ham band use, and its selectable roofing filters for the ham bands help out immensely in this regard. For tuning the SWBC bands, though, the sub-receiver of the Orion appears to be a step down in performance (but maybe I'm missing something in the specs... :^)

From a quietness standpoint, do you find the main & sub-receivers to be
equal, given equal bandwidths, AGC, etc.?

Dear JShorr,

I cannot help you with your question about the Uniden Sportcat as I am unfamiliar with that radio. If you can post the frequencies it receives, perhaps then I can answer your question, or others may know and will help you. Certainly hold onto it for now.

I can make recommendations for books and websites. Buy the 2005 WORLD RADIO TV HANDBOOK. PASSPORT and WRTH complement each other; there is some overlap, but little real duplication. PASSPORT is very strong in equipment reviews; WRTH is strongest in station listings.

(WRTH also has a good website:

http://www.wrth.com

and the January 2005 updates to the B04 schedules published in the book are on the site available for free download.)

I buy both books every year. As far as I am concerned, both are essential.

Probably my favorite radio website is:  http://www.radiointel.com

I also like this one:  http://www.rwonline.com/

There are many others and you will undoubtedly find a lot of sites as you inquire. Make sure you check out Universal's, AES's, Grove's, and C. Crane's sites. Also MFJ's site is very interesting. (These company's sites are primarily for ordering from them, but there is a wealth of interesting information about the various radios and accessories they sell.) You can find their URLs by looking them up on Google.)

Do you subscribe to POPULAR COMMUNICATIONS and MONITORING TIMES? They're not cheap, but they ARE definitely worth every cent they charge.

You'll surely want to join this Yahoo! group:

http://groups.yahoo.com/group/7600GR/

Note: you must have a Yahoo! e-mail address but that is free. Then, with it, you can join any Yahoo! radio group you like. (The most active one I know is the Grundig Satellit 800 group which has lots of useful information not all of which is specific to the Grundig. It is at:

http://groups.yahoo.com/group/Satellit800/  )

I wish you the very best of luck with your new radio. I know you will be extremely pleased. Don't forget, there is a learning curve. This

takes time and there is no substitute for time. That aside, you should find this radio very easy to use and very satisfying in operation.
I firmly believe that it is the best small portable made.

Best,

Joe

Dear JShorr,

There is no real comparison. The dual-conversion Sony will greatly outperform the single-conversion E10 and/or E100.

I thought I had this saved on my computer, but I had to search Google groups to find this from when I had posted it years ago. I need to add it to my website.

## How to align the Sony 2010

The Sony 2010 is a great portable receiver. However, it does tend to get slightly out of alignment ever so often. With 100 Herz tuning steps, it does become quite noticable when listening to SSB stations. One step is just a little too low while the next is just a little too high. This can be fixed by simply turning a small pot inside the radio. Tweaking the pot itself is simple, getting to it is kind of tricky.

When I first bought my 2010 years ago, I found that the display was about .1 kHz off. Here are the procedures to align the frequency of the 2010. You may lose the memories as the AA batteries for the radios computer tend to fall out during this procedure. Proceed at your own risk, I take no responsibility for you working on your own radio.

First, place the unit on its face. You may want to place it on a towel or something so you don't scratch the face. Remove the batteries, and then the six screws on the back of the radio and the one inside the battery chamber. Once you have done this, the back of the radio pops off and you can set it aside. You will be looking at a circuit board and the rear of the speaker. Remove the three screws from the circuit board (identified with this symbol: \||/ ). Once you have done that, carefully remove the circuit board by undoing the clips that are holding it in place. There are two on the bottom, one at top left, and one on the left. Very carefully lift the circuit board. There will still be numerous wires attatched, be careful not to pull any off. Turn the radio around and look at the component side of the board. You will see a metal box on the right side, and a blue pot right next to it, on the left side, in among a few electrolytic capacitors. This is the pot you want to tweak. Attatch the power cord to the radio and an external antenna. Tune the radio to WWV in either upper or lower sideband. Using a plastic tuning tool, turn the pot slowly left or right. You should hear the frequency change. You don't have to turn it very much. Switch between upper & lower sideband as needed until you hear the same sound in either mode. When WWV's tones sound the same in both sideands and AM, it will be right on frequency. Once you have tweaked it to your satisfaction, power off the radio & disconnect the power & antenna.

This is the tricky part. Make sure the flat plastic ribbon cables haven't pulled loose from thier connectors. Turn the radio back around so you are looking at the back, right side up. You have to make sure the volume control and RF gain slide pots fit into the slide buttons. On the front of the radio, slide the volume control all the way down. Do the same for the RF gain. There is also a slide switch on the side marked TONE that you must also make sure is set in right. After you snap the circuit board in place, move the slide switches up & down to make sure they are working properly. Replace the three screws that hold the board in place. At this point you may want to power up the radio to make sure it is working properly . If so,

replace the back cover, taking care that the blue & black wires at the
bottom of the circuit board underneath don't get pinched.  Replace the
screws and you're done.

Dear Sir,

I should also like to add one more item to my list posted previously:
all memories and the firmware should be non-volatile. Should battery
and AC power be disconnected, all information should be retained
permanently (until changed by the user).
All my best wishes for the success of this forthcoming receiver.

Joe

I'd hazard a guess that the digital circuitry in one radi does not exist in the other and that circuitry is causing some noise in the other receiver. On the other hand, maybe the sensitivity of one receiver is different than the other. was the gain on both receivers set the same ?

> Before leaving the topic of noise and quiet receivers, I have a question. Tonight I was listening to a couple of Spanish language stations on 6185 and 6125 khz. On the Drake R8B, there was a background noise behind these signals and in fact behind most of the signals on this particular band. (It sounds like atmospheric noise--a vague, hissy sound that fades in and out a bit, just as the signal fades in and out). On the other hand, when I listened to these two stations on the Lowe HF-150, there was almost no trace of the noise. Both receivers were connected to the same antenna. I experimented with different power sources. Powering the R8B from it's internal power supply vs. an external power supply didn't have any effect on what I heard.
>
> This noise isn't always there, although I've heard it before. What puzzles me is the Lowe receiver's failure to be affected by it. Why was it interfering with the Drake, but not the Lowe? The receivers were sitting right next to each other (I tried separating them, just for the heck of it, but it made no difference.)

Dear Jerry,

If you've read some of my previous posts, you know I own a Lafayette
Model HE-10 receiver, along with its associated speaker, the HE-11. I
bought these in April 1962. At that time I also bought a pair of
Clevite "Brush" BA-200 headphones. I still have all of these and they
still work as well as they did when new. (The only "service" the radio
has required is a few tube replacementts.)

This was my main short wave radio for 38(!) years until I bought a
Grundig Satellit 800 in 2000. Last year I bought what I consider to be
the finest short wave radio ever made, the AOR AR7030 Plus.

I have never owned (or even seen) a radio that performs like the
AR7030. But I will always have a "soft spot" in my heart for that old
Lafayette. Every couple of months, I turn it on, wait a half-hour for
it to "settle down," and then search out signals, just like in the old
days. Even with the same antenna as on the AOR, there is no comparison
in sensitivity or selectivity, but there is (and always will be for me)
something "magical" about that old radio!

Best,

Joe

Three stand out from the pack for us:

Classic radio: Collins R-392, the watertight "little brother" to the R-390/A. (this was the only radio I ever owned that I could squirt with a garden hose in the backyard on a 95� F Summer day, while it was still turned on, and it kept right on playing !!)

Modern radio(s): Drake SW-8 and the Yaesu-Musen FRG-7.
(..the Drake SW-8 was rather quirky in it's control pad layout but

it was great to put in a few D-Cell batteries and take it camping)

The VECs have pretty much settled on the following standard for code
testing:

Character speed:  15wpm
Word speed:  5wpm
Tone: 750 Hz

So the 15wpm minimum Farnsworth that you are finding is what you need.

i do notice that youre willing to hold clinton responsible for cia performance
while he was president and for the eight months after he left

but nobody holds shrub responsible for the cia in anyway at all
but rather it is the congress that is blamed for not managing the cia properly

when the fuck did the congress get managerial control over an executive agency?

From what I've seen of Universal's used prices I kind of doubt that Martyn
could make any money and might even lose money selling.

Double conversion, triple conversion, quadruple conversion, sets that sell for $50.00, sets that sell for 10,000.00! Antennas 3 inches long, 100 feet long, 3 inches high, or 3 miles high! For a beginner, none of it really matters. What DOES matter? EXPERIENCE. That is all.

There is no substitute for time and experience and there is no "short-cut," either. And that applies to ANYTHING worth doing!

If a beginner is truly interested in the hobby, he or she should just do a little research, perhaps on this group, or, better, in PASSPORT and WRTH, and make a reasonable choice in radios and antennas. It isn't too hard. Most of them out there are pretty good. I, as does everyone else here, have my opinions, but, in the end, for a beginner, it just doesn't matter, within reason.

Then, as he/she becomes EXPERIENCED with the radio they have, REGARDLESS of what it is, and with short wave listening in general, why any future equipment "upgrades" will take care of themselves.
Just my thoughts.

Best,

Joe

He cited *plenty* of creditable sources, none of which you seem capable of refuting.

Let's see how many answers *you* have -- what, specifically, do you think Clinton should have done that he didn't?

HINT: "Stop 9/11" is *not* specific.

Which particular one of Collins receivers? What was the actual
specified noise floor in figures? Frankly, I doubt you can get much
lower than the WinRadio G313i -138 dBm.

Read also this:

"If I had to choose between a Collins 95S-1 and the WR-G303i (ignoring
the obvious fact that the 95S-1 tunes to 2 GHz), I would take the
WR-G303i."

John Wilson, ShortWave Magazine
(more details on http://www.winradio.com/pdf/g303i-review-swm.pdf )

And this in fact refers to the *predecessor" of the WR-G313i, which is a much better radio still - 5 stars by WRTH.

My WR-G313i does indeed have the advertized -138dBm noise floor, and even the S-meter reliably measures down to that level - with 1dB accuracy.

Not speaking of the ultra-sharp continuously variable IF filters down to 1Hz bandwith.

Now *that's* what I'd call winning the contest hands down. ;-)

Like the drunk looking under the lamp post for something he lost across the street, because the light is better.  Bush is looking for Bin Laden in Iraq. Just read 'there's oil there' for 'light is better'.

Yep, Yahoo put Sears 'n Rarebacks name badge on the venerable Frog-7.
You see them fs / fa quite often (relatively speaking).

The guy with the Drake 1a at Dayton - he was using it to demonstrate
some other hardware he was trying to sell.  It was nice to see a minty
1a at the hamfest, even if it wasn't for sale.

As far as who'll be at Dayton this time ..
Count me in .. reservations are made .. all systems are GO ..

Thank you, picked one up and had it shipped to Canada.  Total cost was about $25 Canadian, but it's not available locally.

The unit I got had a slightly different antenna, it cannot pivot, just pull straight up and down.  I replaced it with about a 2.25 foot antenna, and I can almost cover my whole house (as opposed ot just one room).  Going to crank it up to 3 volts now.

By the way:
http://groups.google.ca/groups?q=sound+feeder&hl=en&lr=&group=rec.radio.shortwave&selm=994645492.921906%40sj-nntpcache-5&rnum=5

Apparently the FM transmitter chip it uses can only take about 4 volts before it fries.

I've had 4 1A's pass through here and they all wound up overseas. Interesting design to them, that's for sure.

My 515 is the one receiver I've had that I will never sell. The rest
could go without too much discomfort on my part. Yeah, the audio isn't
great, but for utilities, who cares? Besides, with the right speaker
(definitely not the one that matches it!) or the JRC headphones, it's
not bad at all.

The last Drake radio I have ever wanted is the R7a, not much of an
R8/A/B fan at all.

The minute the search stopped for WMD and it was confirmed that Iraq
didn't have them we should have packed up and left.

That's pretty simple 'tard boys.  Even the old, fat one would agree

Is this analog audio filter any good for swl?  I have an r1000 which
has no adjustable audio filtering (except for a weak tone control).
Any suggestions please.

Yeah, but my feelings are that buying an elcheapo portable, or even a fairly decent one, is a mistake. They don't work very well, don't hold up all that great for the most part, and lose their value pretty rapidly.

There are tons of arrox. $300 used R71A's, Kenwood R5000's and others that are good enough to keep for a while, and can be sold for basically what you pay for them anytime. I have a R71A that I bought for a really cheap price. It had a problem in the PS section that seemed to confound several techs at a couple of places that tried to fix it. It was a very easy fix (an hour total time) and I will get 2-3 times what I paid when I sell it one of these days..if I do sell it..

A friend wanted to try SW a while back, and he bought a very nice NRD-525 off Ebay for about 400 bucks. After a year or so, he wanted out, and made 20 bucks profit when he put it on Ebay. Get paid to listen, not a bad deal..

According an article, one possible use of HAARP is to create advertising in the sky!
Or light up cities at night.
Or ....?

See:
http://www.livescience.com/technology/050202_light_show.html

Is Clear Channel behind this too? They're in broadcasting and billboards.  :-)

Geoff:
We are talking about the legendary R-390 receiver that Collins designed fo the US military. These were manufactured by Collins and other companies and cost many thousands each. Their ability to hear weak signals remains unmatched to this day. It's a vacuum tube based receiver and extremely quiet.

I haven't heard Cuba since mid January, and I've heard the BBC only intermittently in the last month. Tuesday morning (world day) was the first time in three weeks that I've heard the BBC on 9525 at 0300 UTC! I haven't even bothered to check Australia's 15 Mhz freqs. The only freq I can hear the BBC on at 0300 (when they broadcast The World Today) is

5975, and even that is practically unlistenable most of the time! Are sunspot lows always like this? Has there been some big long lasting solar disturbance over the past month? My Degen has become practically useless for casual listening, and my Yaesu isn't doing too well either. What's going on? Is this the end of the world? (Hell, it's as good an explanation as any other.)

Got that collision from Naval procurement office guys (they said steel but I
mistyped).  They talked at length about the easy access to titanium for the
soviets since they sit on huge ore reserves, and they mentioned several
collisions where the russians came out in better shape due the hull
strength.

Geoff:

-143 dB was the noise floor of the R-390A, according to web info.
Otherwise, of course, it was an old tube (32 of them!) boatanchor with
mechanical tuning, weighed a ton, and had none of the amenities that modern
digital radios provide.  But it WAS quiet!

I'm getting quite a bit on 75 m, 60 m, and 49 m so far.  Some
frequencies have multiple stations audible on them.

The year was 1973 - the receiver: DX150B
Eventually I added a homebrew preselector... some IF Transfilters...
a frame-loop antenna..
The absolute pinnacle: Picking up Germany and USSR on 872 Khz on
subsequent evenings in the fall of 1976..
from the West Coast of Canada..
As I look over my shoulder, I see the DX150B, its dial lights still
glowing, its sound as sweet....

I use a garden variety (Radio Shack) 12V power supply. It does make a significant improvement in lowering the case temperature but it's hard to say if this will extend the componant life over the long run. I tend to think it will, so that's why I do it. There is one down side to the external DC supply though. When the internal supply is used, the clock is sync'd to the AC 60-HZ frequency which makes it more accurate than with the DC supply.

There's also the possibility of cat hair getting inside and interfering
with the air circulation.

Depends what it's used for I guess...I always liked transoceanics
for casual MW use...I still have a 58 model under the table, but
don't use it as the caps were starting to flake out a bit. Back in
the early 70's when I really started listening alot, I used only a
small philco portable, http://web.wt.net/~nm5k/r6.jpg ,but heard a
half zillion stations. Got my moneys worth, thats for sure...
Back in those days, "I was in jr.hi", something like a drake 2c,
which a friend of mine had, was like a cadillac... I didn't own a 2c
until the early 80's...Anyway, as far as my shortwave BC, that philco
probably heard the most stations. After that, and even now, I'm not
really that interested in SW BC...More ham, and utility, etc...I'll
listen to a SW-BC station once in a blue moon these days.
My most fun radio these days? The IC-706mk2g hands down. It does nearly
*everything* in a box the size of car stereo...Of course, it's a
transceiver, so it talks, but it's also wide coverage rcve...Longwave
to 200 mhz straight line, and then from 400-470 mhz. All modes on all
bands...It's quite good on MW-SW, but is also a killer scanner for
VHF/UHF.
Better receiver than most "scanners", and has 4 scan modes. I could
sell every piece of gear in this shack, and leave just that 706, and
still do everything I normally do...Home, mobile, portable. For it's
real dinky size, it's a killer radio...It's no contest rig, but it's
way more versatile than most contest rigs being it covers VHF/UHF also.
These days, the chance of me buying a stand alone receiver are pretty
low. I'd almost always buy a transceiver, so I can really get my moneys
worth...I spent $900 on the 706 in 2001...It's less than that now.
Maybe
$750 plus or minus...So far, not a lick of trouble, and it's on 24/7.

Knock on wood...:/  MK

Many thanks for all the advice.  I was looking at this all wrong after reading your posts.  The static charge will take the easiest path to GROUND, so there's now reason why it would bleed through the reciever.

I've done a fair amount of research on this lately.  The Gizmoe box looks interesting, and most of the circuits are fairly similar.  I agree that the neon light probably isn't very effective unless the bleed resister fails.  By the time it fires, though, it's probably too late.

What I would like to do is build the circuit in an aluminum project enclosure.  The circuit will be similar to most of the ones you folks talked about.  One circuit I found interesting is in an excellent article:  ttp://www.qsl.net/wd8das/2010.html  The problem is that I cannot read the component values because the image is all blurry.  Can anyone tell me what they are?  I would like to add the .05 uF cap inline with the center wiper of the pot. The only thing I'm not sure about is how all this will affect my mfg reciever antenna tuner.  Will the resistance and capacitance cause problems with the tuner?

Rather than use any type of switch, I'll simply unplug the antenna and place it outside the window it runs through when I'm not using it. A value of 10k for the bleed resistor sounds pretty low. I've heard people talk of values as high as 100k or even 1meg!

Thanks again to everyone. I feel like my protector box is honing in nicely and should have it put together in another day or two. If someone can tell me what the component values are in the WD8DAS schematic, I would really appreciate it.

I'd like (besides the other specifications) some other things (really cool for european dxers):

FM 64-76 extension (for OIRT dx)
RDS (really nice to have FM listening) with PI CODE reception
3 IF FM filters frontend (like Satellit 500 or 700 ... cool for FM dxers -)
and two kind of FM selectivity (like 280 and 80 khz Murata filters)

it could be really cool mp3 recording and two antenna connector one for FM Antenna and SW and another one for MW antenna to disable internal ferrite. internal ferrite could be switch off besides like in Sangean ATS 909 with a stereo minijack)

other suggestions made from other dxers are cool too.

Anyone who would purchase anything
from either Radio Mart or Universal is
a fool.

Your not wrong.

Short-wave radio is the "Dollar Store" of broadcast media. As such, only the greatest of kooks and paranoids, who would never be carried by mainstream media and could never afford airtime on the same are on short-wave. To be fair however this is more of a USA phenomena. Foreign short-wave is still for the most part a good source of news. Domestic USA short-wave however is nothing but a vast wasteland of every conceivable religious nut, racists and misfit goof ball which can be imagined. (they are also very amusing as most of em believe their own BS) Think of it as the point where roller derby and the tamborine-bangin fundie church on the corner on the other-side-of-the tracks across town gather behind a microphone. ; )

EMI interference is also a big problem in CHINA, especially in SW low band and MW, some  home appliance has not passed the EMI test will generate a lot of interference, the only way to got the better reception is use a loop antenna or a out door dipole.
another problem confused the listener  is the powerful jamming signal, Chinese folk music all over the whole SW band, sigh!

If cheap is the main consideration and you can do without the Digital Readout ...here are two Oldies but goodies that at times can be found on Ebay at under $100.

First is the Realistic DX-160 . Its solid state and doesn't take a lot of shelf space and is more sensitive than most portables out there. It also has a BFO which can be used for SSB and CW reception. While not the most selective, it beats the cheap portables.

Another radio is of the Boat Anchor variety. Its bigger and bulky and uses TUBES. Its a National NC-183D. It is both selective and very sensitive below 20 MHz or so. Its a real radio for AM Broadcast Band reception too. Wish I still had mine.

If you mean folks who are critical of the war, you're probably right.

I don't count on the election turn out getting all the insurgents to give up, but it's got to hurt their morale, and more importantly it'll be good for the morale of the people of Iraq.

People who voted "stood up to bullies", and they're feeling good about it.

It's just another step on the path to freedom for them, but almost 3/4 of them were willing to face uncertain risks to take it.  That's encouraging.

Well, I never dropped my R-392 on purpose, but the solid
aluminum "crate case" it was supplied with could likely
take a beating. (mine also had the original S-meter in it)

Sold it at a hamfest in 1983 for $75.00 - biggest mistake I ever made.
I even had the case re-painted in OD powder coat paint by a custom
paint shop via a friend who worked there and owed me a favor.
Someplace somewhere in some basement someone has a near-mint
R-392 that I have yet to see on e-Bay.....(grin - sort of)

I still have the SW-8. (No longer have the FRG-7)
Gave the FRG-7 to a local 11 year old who wanted
to get his ham licence.  Never used batteries in the
FRG-7.

Still have the SW-8 which I consider a very under-rated radio.
I am very happy with this Drake and will never sell or part with it.
Rather quirky controls and button layout, one needs the manual
to get use it properly, but it's been a very solid performer and
is great for evening SWL'ing in the pop-up camper at the campground
in the Spring / Summer.  Toss up a 25' length of wire and it hears
everything.
Put 8 Eveready classic carbon-zinc "four for a dollar" type D-Cell
batteries
in it and it plays for about 9 hours batt life.

3 or 4 times every year, I do.  Expect decent battery life
with headphones on and dial lights off.  I think a gel cell
might be the way to go, though, or NiMH batteries, and
am looking into this.

The battery boxes on the FRG7s you might see for sale
nowadays are getting more rare.  Folks tended to leave
batteries in the battery box, and they would leak, destroying
the assembly.

I think the FRG7 is the most fun receiver I've ever used,
and to tie in with another thread, it's really very quiet.

Overall, it's a wonderful radio for everyday use - my other
radios rarely are used.

73,

Steve

Mike, what exactly does the R8B do that the R75 falls short on? Overall, the
reviews seem to indicate that the popular tabletops available are very close
in capability.

Hi.

I forgot to mention PrimeTimeShortwave which is indeed one of the most useful websites. In addition to schedules, there are links to many other useful short wave sites. All in all, this site is about all you need to add to your "Links" in your browser. The rest you can just add to "Favorites" or "Bookmarks."

Best,

Joe

Yes I know.  Electronic appliances, computers, controlled lights, etc.,
here in the U.S. are supposed to meet standards for radiation.  The
amount of noise is such that I think the rules are not enforced.

The only way to get away from all the electronic noise is to go out
into the country and power the radio with a battery.

Great combination - you will have no overlap and wide coverage. I did the same thing with a Sony ICF2010 and Radio Shack 2006 scanner for several years.

Depending on your location check out either the Police Call or Scanner Master books on the scammermaster.com website for frequencies. In my experience Scanner Master was more up to date.

Dear Sir,

At the risk of posting too much, may I say that I understand that Degen is one of China's leading radio manufacturers. As such, I hope that the design of this radio is a "no-holds-barred" short wave receiver of absolute top quality. Ergonomics especially should be user-friendly. Menu-driven radios are perfectly acceptable IF the owner's manual is comprehensive and complete. (I own an AOR AR7030 Plus, the best performing radio I have ever owned, which I find very easy to use due in part to its superb owner's manual. Though menu-driven, its ergonomics are superb.) NO "FRILLS" (such as a "fake" analog dial) should be on this radio; everything incorporated should be there for a distinct purpose: the best possible reception of the signals desired.

I sincerely hope you will take into consideration my suggestion to incorporate the various new terrestrial digital reception modes. It is not necessary (nor, in my opinion, desirable) to incorporate XM or Sirius satellite "pay" reception into this forthcoming radio. Satellite radio can better be served by another separate receiver.

As I stated above, ABSOLUTE TOP QUALITY in DESIGN, COMPONENTS, and CONSTRUCTION QUALITY are of PARAMOUNT importance.

Degen should market this radio in the USA under its own name. If the radio is a great one, this will give impetus to awareness of the Degen name in the United States.

I believe that, if any company can design and market a near-perfect short wave radio, Degen is that company.

Best,

Joe

Thanks, Joe, for spec'ing out an excellent radio - I'd like one of those!

now for one additional nit...

Regarding the clocks, I suggest making it possible for the user to disable
the automatic time-setting based on the radio time signal.

Every once in a long while, radio-controlled clocks can mis-read the signal.
I had a radio-controlled clock radio misread the DST information, and it was
exactly 1 hour off for the next day!  If you're relying on the radio to wake
you up in the morning, this could be a problem (not likely, I'll admit, but
I've seen it happen).   Alternatively, design the radio controlled clock
logic so that it makes a couple attempts to read the signal, and only update
the clock if the results are consistent.

My question is: What relationship does DEGEN have to the PLA (People's Liberation Army)?

If the HF-150 were my only or my primary receiver, then I'd spring for
a preselector, though probably not the PR-150. There are cheaper
preselectors that, I'm told, work fine with the 150. Same goes for the
speaker. Unless I wanted to put together a matching set for 'collector'
purposes, I'd look elsewehre.

My two cents...

Take a look at auction number 5748673688. One concern I'd have about this auction is that the receiver in the photo in this ad does NOT appear to be an HF-150 Europa. The Europa had "Europa" written at the bottom of its face place, as seen in this photo: http://www.rys.nl/hf150e.html. What's pictured in this ad is a standard, black case HF-150...not a Europa. Now, maybe the seller has a Europa, but pulled an image off a website without looking at it too closely. Either way, I'd certainly get clear about this before bidding. In fact, yet another complicating factor here is that some of the standard HF-150's have a backlight option installed. This makes them harder to distinguish from Europas.

A lowly Realistic DX-120, a Xmas gift from the folks, will always have a warm spot in this hipster's memory. Even designed a regen mod, which boosted signal reception. After garnering a QSL from ORF Vienna, Austria, one of those grizzled tech sarge's said that pup didn't have enuff guts to snag a signal that weak. He swore(literally) that I'd used another sarge's Hammarlund. That 120 didn't survive time's ravages as well as its' replacement DX-160(still goin' strong, but replaced by a Yaesu FRG-7). But that 120 was as seminal in cultivatin' an interest in shortwave as a tubed Fisher professional amp was in germinatin'  a hi-fi addiction!  B.T.W. pismoclam, had some of that legendary Pismo Beach clam chowder in breaded bowl a few years' back enroute to Santa Barbara. ' Twas da B-O-M-B Bubba!!!

More to the point, what does your question have to do with Degen radios and shortwave listening. I am impressed that the designer of the DE1103 has given us some insight into that radio and more importantly has asked the SWL community for suggestions on how to design a new radio. That is a first for me.

I think we should focus this discussion on Degen and their shortwave radios. And I'm sure you agree.

It was a legitimate question regarding DEGEN radios. (And other Chinese sets as well)

You may not like being reminded that by your purchase you help fund the PLA and help promote slave labour?

Got a problem with that, 'tard boy?

Go back and read the question I asked again, 'tard.

Read it 3 or 4 times if you have to.

Boggling, just how many damn 'tards there are in this hobby.

Sheesh...

A couple of points.  To make such a statement you apparently have intimate knowlege of their financial condition and ownership.  Perhaps you would care to share it.  What are the percentage of ownership of the major stockholders and are dividends paid to all classes of shareholder.  Please give us details of any cross ownership between this company and other commercial companies and development banks. What are the wages at this company.  Does the company transfer funds to its owners by management fees in addition to dividends?

You indicate a concern about buying products from non north american countries.  Have you noticed that most of the clothing, appliances, cars and indeed almost all consumer goods are not from the U.S.  To not have noticed you must have had your head firmly planted in the sand for several decades now.  To not buy from developing countries would be all but impossible from an individual standpoint and pretty foolish for the U.S. as a global economic force.

Ok then

I passed up on a PR-150 and Sp-150 that were on Ebay. They both had a Buy it
Now price of $250 which I thought was too much anyway. The SP-150 looks good
though and has the notch and s-meter.

50,000 uF.  Probably about the size of small can of V8 juice, given the
voltage rating you'd use in a car (16 or 25 volts?).  The newer they are,
the smaller they get, so I might be showing my age.

Man, I just dug out an older EEM (Electronics Engineers Master catalog)
and it's a MESS.  Even in 1993, some outfits were still using MFD for
microfarads.

Millifarads are probably an artifact of Globalization (ie. of the outfits
that used MFD for uF in 1993 are probably now empty factories in the
US midwest after all their equipment got auctioned off to somebody
from Canton).  Likewise nanofarads are pretty much of an indicator the
your capacitor was made by a European based manufacturer.

I'd only expect to see millifarads on big "Computer Electrolytics",
those beer can size (or bigger) with screw terminals.

The bottom line for project building hobbyists is that you need to take
into account when and where the magazine article or book was written.
There's a lot of stuff out there that's old enough to be really confusing.
(Several years back, I had an e-mail converstation with a guy who was
trying to find parts for a transistorized VLF reciever, and the writeup

included how to use it for detecting atmospheric atomic bomb tests,
which quit before 1963).

One idea would be to make it a "hang on the wall" shortwave.  Desk space
is problem for a lot of us, and I think a radio with a form factor like
a flat panel TV would be neat.  (My 2 cents worth.  $.02 is probably asking
too much).

I've read the standard 150 is better then this one even though it has the
backlit option.
Is that true?

The first power supply I built, in the early seventies, I bought at a hamfest a 10,000uF capacitor with about a 16v rating.  Big stuff at the time.  It's the size of a Coke can, and has those screw terminals. "Computer grade" was what similar capacitors in the surplus store ads were called.

Pretty useless these days, given that you can get bigger capacitance and a higher voltage rating in a much smaller package.

Well put. It's good to keep it simple! Some re-emphasis:

RF GROUND is at the transmitter-side, where avoidance of 1/4 wave length prevents monster impedance that is not felt as ground at all.  A short path to multiple ground rods connected in parallel completely avoids this 1/4 wave effect no matter what frequency you xmit on. XMTR RF GROUND has no effect on receiving at all,  *if * the static grounding and radials (below) are used.

STATIC/LIGHTNING GROUND is grounding the coax-shield at several points, beginning right outside the shack, at the base of a wire antenna or tower, mid-point, and top of tower.

RADIALS are for reflecting transmitted energy from the antenna that would otherwise be lost (absorbed) by the earth. They have a much smaller but measurable benefit to the receiving aspect of any antenna. They can be above ground (right under an elevated vertical, where very short lengths work), along the surface of the ground on a ground-based vertical, or buried in a large pattern around a vertical, center-fed inverted-L, or in some cases, random wires or inverted-L's. A 1/2 wave horizontal dipole is a "complete" antenna and has no benefit from radials, but it must be elevated sufficiently to avoid ground losses. The coax-shield of feedline to a dipole should still be grounded per above para.

--

WARNING: That ground screw on the back of your receiver set could get you in more trouble than it's worth. First, the receiver-case is already grounded via your home's electrical system. Noise and static on the coax-shield should be shorted to ground outside from coax-shield grounding. If you connect your receiver to a separate outside ground, you have major lightning issues if you leave that receiver-ground connected during storms. This is true even if *everything* else is disconnected. If any tree or structure within up to several hundred feet of your property is struck by lightning, your ground system will be a sink for some of that energy, and draw it right into the radio via ground connections. Of course the antennas would add to this problem, but most people remember to disconnect them before a storm. Putting disconnected antenna feedlines in a mason-jar is an embarrassing practice that I got away with for about ten years, and I'm sure many hobbyists play the same odds. Better than nothing (which is the glass-jar trick) would be to short the antennas to an RF-ground, if you have one.

If you decide that a separate receiver-ground is important, you should consider what you will do with that "hot-wire" before lightning occurs anywhere in a wide-area around your property.

I think this will be supported if the main customer target is the government. however consumer support will be questionable.

Ten-Tec is very government driven at this time. and they will bend over backwards for them. they don't seem to care much for "regular people" however. that is the problem with the 350, if the 350 was a Government item, there would have been updates last year.

My faithful Sony ICF7600, which I bought in 1990 and have kept more for sentimental reasons than performance, has just gone to sleep, more or less. Clock still works but power switch, light, controls are unresponsive either on batteries or power supply. For several years I've used it only as a clock and alarm, mostly.

I have plenty of other SW radios for listening and DXing, and for travelling I've tended to prefer my Kaito 1102, so I'm looking to replace the Sony with something that has reasonable audio for a radio of similar size, decent SW/MW/FM, not too expensive, just for bedside and wake-up use.

Does anyone have any favorites? If there's something that works nicely as a travel radio it might become an alternate choice for trips.

The Sony 7600GR looks nice but it might be more radio than I need and it would be good to keep costs down.

Suggestions welcomed, thanks.

Quite honestly, most folks knew years ago that TEN-TEC provided poor customer support for radios that were supposedly 'upgradeable'.

Maybe one 'upgrade' and that was it.

Buy a good radio, buy Drake.

My own 2 cents.

By Rush Limbaugh:
.

I think the vast differences in compensation between victims of the September 11 casualty and those who die serving our country in Uniform are profound. No one is really talking about it either, because you just don't criticize anything having to do with September 11. Well, I can't let the numbers pass by because it says something really disturbing about the
entitlement mentality of this country. If you lost a family member in the September 11 attack, you're going to get an average of $1,185,000. The range is a minimum guarantee of $250,000, all the way up to $4.7 million.

.

If you are a surviving family member of an American soldier killed in action, the first check you get is a $6,000 direct death benefit, half of which is taxable.

.

Next, you get $1,750 for burial costs. If you are the surviving spouse, you get $833 a month until you remarry. And there's a payment of $211 per month for each child under 18. When the child hits 18, those payments come to a screeching halt.

.

Keep in mind that some of the people who are getting an average of $1.185 million up to $4.7 million are complaining that it's not enough. Their deaths were tragic, but for most, they were simply in the wrong place at the wrong time. Soldiers put themselves in harms way FOR ALL OF US, and they and their families know the dangers.

.

We also learned over the weekend that some of the victims from the Oklahoma City bombing have started an organization asking for the same deal that the September 11 families are getting. In addition to that, some of the families of those bombed in the embassies are now asking for compensation as well.

.

You see where this is going, don't you? Folks, this is part and parcel of over 50 years of entitlement politics in this country. It's just really sad. Every time a pay raise comes up for the military, they usually receive next to nothing of a raise. Now the green machine is in combat in the Middle East while their families have to survive on food stamps and live in low-rent housing. Make sense?

.

However, our own U.S. Congress voted themselves a raise. Many of you don't know that they only have to be in Congress one time to receive a pension that is more than $15,000 per month. And most are now equal to being millionaires plus. They do not receive Social Security on retirement because they didn't have to pay into the system.

.

If some of the military people stay in for 20 years and get out as an E-7, they may receive a pension of $1,000 per month, and the very people who placed them in harm's way receives a pension of $15,000 per month.

.

I would like to see our elected officials pick up a weapon and join ranks before they start cutting out benefits and lowering pay for our sons and daughters who are now fighting.

The Kaito KA-1101. No sideband, 3.00 to 26.11 mhz. It has good shortwave, excellent MW and FM, and you can wake up to a beeping noise or the radio. $75 from most places, $50 at surpluscomputers.net. Search for "radio" in the search box there.

The previous seller apparently didn't bother to check what they normally close for, and put it up with a low "Buy it now".

On the difference between the Europa and the regular HF-150, I'd take the Europa.  The input filtering is likely to be more useful than any loss in sensitivity.

Single side band selectable AM synch. (AN ABSOLUTE MUST IF YOU WANT TO BEAT THE 7600gr)

Large comfortable to use tuning knob along with push button tuning knob.

Noise Blanker to deal with electronic noise.

Well though out selectable filter settings.  Four widths for SW would be ideal.

Internal battery charger.

Illuminated buttons like on the DE-1102.  A great idea that if refined could be a tremendous feature.  If you could see the label or number of each button light up from inside of the radio so you could use it in the dark, it would be great.  You were on the right track with the DE-1102.  Just refine it.

Two selectable backlight colors.  Amber or Blue.  Not really needed but it would be such a neet feature, I'd buy one just for that.

A well designed and functional whip antenna that isn't too loose or too tight.

A carry case that does not stink like old tires mixed with formaldehyde.  I had to leave the carry case I got with my DE-1101 outside for a week to fumigate it before I could breath around it without wanting to vomit.

A more elaborate external antenna then the standard wire that comes with the 1101 or 1102.  Having it come with a capable external antenna would be a great selling point.  Maybe have a wire with a coil or some kind of a load in it.

My first radio was an analog Panasonic portable which my brother gave me due to his lack of interest in shortwave- it must have been almost completely deaf, although I didn't know any better either. I remember listening to the BBC.

I bought my 7600 at a Sharper Image store while I was stationed in Hawaii in 1988. I served me ok until about two years ago when I finally replaced it with the 7600GR. That's when my interest in SWL really took hold. I didn't really know much about SW or proper antennas when I bought that first Sony- I used to listen for awhile and then put it aside for several months, or even a year. I'd say that this would certainly not be too much radio for you, but simply does everything better than the 7600 did. It is so much more enjoyable to use that I listen everyday now. Last summer I upgraded again to an Icom IC-R75; but the 7600GR is never far from me- especially since I do a lot of hiking and camping. You can't go wrong with this one, even if it does cost more than many portables.

Brian

And that site, even if you can read German, doesn't have much info on the
RF-2600.

Can you control the volume? Hell yeah! Mute also.You can also adjust the PBT. It has features the radio doesn't have like PBT IF shift, both PBT in the same direction with the press of one button.

PBT in opposite directions with one button.
NR, ANF, etc..everything.

Read:
Features
  a.. Turn receiver on and off.
  b.. Set a sleep time.
  c.. Control receiver volume with VOL+/-.
  d.. Mute receiver/return to previous volume.
  e.. Enter frequency directly to 1Hz in the range of 30kHz to 60MHz.
  f.. Increase or decrease frequency using CH +/- in steps of 1Hz, 10Hz, 100Hz, 1kHz, 5kHz, 9kHz, 10kHz, 100kHz, and 1MHz in the range of 30kHz to 60MHz.
  g.. Set up to five (5) User Tuning Steps.  Useful for detuning frequencies by one half of filter bandwidth or use a very small frequency step to quickly zero-beat in SSB mode.
  h.. Recall last directly entered frequency.
  i.. Directly select memory channels.
  j.. Move up and down through memory channels using CH +/-.

k.. Start and Stop programmed and memory scans.

l.. Move memory frequency and mode to VFO.

m.. Write VFO frequency and mode to currently selected memory.

n.. Toggle between AM, S-AM, LSB, USB, FM (configurable), or CW (configurable).

o.. Select VFO or Memory mode.

p.. Control of RF gain and SQL.

q.. Control of Inner and Outer PBT independently and together. Both PBT controls can be moved together in the same direction as an IF bandpass shift, or in opposite directions to adjust IF bandwidth. This only works with certain IF filter combinations.

r.. Enable NR and directly set the level. Only works with DSP (UT-106) option installed.

s.. Enable NR and move up and down through the levels. Only works with DSP (UT-106) option installed.

t.. Move RF Gain, SQL, and PBT to full CW, CCW, and default settings independently.

u.. Set up to six (6) User Definable settings each for RF Gain, Squelch, Inner PBT, Outer PBT, and Both PBTs.

v.. Select Fast AGC, Slow AGC, or AGC off (configurable).

w.. Select Normal, Wide, or Narrow filter.

x.. Select Preamp 1, 2, or none.

y.. Select ANT 1 or 2.

z.. Toggle RF Attenuation on or off.

aa.. Toggle ANF on or off. Only works with DSP (UT-106) option installed.

ab.. Toggle NB on or off.

ac.. Toggle Memory Label display on and off in memory mode.

ad.. Announce with speech synthesis. Only works with Speech Synthesis (UT-102) option installed.

ae.. Adjust LCD Backlight brightness.

af.. Settable parameters:

- a.. CI-V address.
- b.. Radio baud rate (1200, 4800, 9600, or 19200).
- c.. Enable/Disable FM and CW modes in mode selections.
- d.. Enable/Disable AGC off in mode selections.
- e.. Frequency pacing. You can control the pacing of frequency up and down. This is how fast the frequency changes when you hold the CH+/- keys.
- f.. Define up to five User Tuning Steps.

ag.. Status LED that shows communications status, center position of RF/SQL and PBT controls, settable parameter entry, and clear key operation.

Good advice.  Also don't be afraid to by used modern radios.  A used modern
digital radio should perform as well as a new one.  It's a great way to get
'more radio for the money'.

You'd be a theist regardless of whether I'd even heard of you or not. How I
see you has nothing to do with it.

Ah, what you get during the daytime in
North America.
Try higher frequencies and check some
schedules for the correct time and freqs.

Try again at morning and evening, there is
more variety.

Also get your antenna up and away.

The state religion of the USA is atheism, as established by the courts.

The Swedish-language Web page of SAQ (www.alexander.n.se) seems to say
something about 1700 Swedish time (1600 UTC) on 2 February. Will the station
be on the air then?

Arbetskv�llar
Arbetskv�llarna har helgledigt nu! N�sta arbetskv�ll blir onsdagen den 2
februari kl. 18.00.

http://www.alexander.n.se/

In 1895 the Italian physicist and later Nobel Prize winner Guglielmo Marconi
(1874-1937) had realised wireless telegraphy, i.e. the possibility of

transmitting information with the help of radio waves.

The communication across the Atlantic did not function well during World War I and the need of telegram traffic with America was great. The Swedish Parliament therefore decided in 1920 that a Swedish long wave transmitting station and a receiving station should be built under the direction of the "Telegrafverket".

Important for the location of the establishment was that the wave propagation path was run across open waters - south of Norway and north of Denmark and Scotland. In Grimeton, east of Varberg, the open landscape gave free way for the radio waves out towards the Western Sea and besides, the name was easy to pronounce for Americans.

The Great Radio Station was built during the years 1922-1924.

The transmitter, the heart of which is an alternating- current generator (alternator), was developed by the Swedish engineer Ernst Alexanderson, pioneer in radio, employed at General Electric in Schenectady and chief engineer at Radio Corporation of America (RCA).

In the autumn of 1923 the establishment was ready except for the six 127 meters high antenna towers, which were delayed one year because of strikes at the ironworks. The towers are placed at intervals of 380 meters with the 46 meters long cross-arms on top carrying the eight copper wires, which make up antenna capacitance and feed energy to the six vertical radiating elements.

A little village with dwelling houses for seven families was built for the employees.

On December 1, 1924, the great radio station Grimeton went into traffic with the call signal SAQ on 16.1 kHz (wavelength 18.6 kilometres) soon enough changed to 17.2 kHz (wavelength 17.4 kilometres).

On July 2, 1925, the establishment was formally inaugurated. King Gustaf V arrived by car from the Varberg railway station in company with among others the constructor Ernst Alexanderson.

During the station's now more than 75 years of history much has happened. 1938 short-wave tests were made. World War II accelerated the development and the number of short-wave transmitters increased rapidly and there are still some twenty transmitters at work. FM- and TV-transmitters were placed here and base stations for different mobile services were also established gradually.

"But make no mistake -- as I said earlier -- we have high confidence that they have weapons of mass destruction. That is what this war was about and it is about. And we have high confidence it will be found."

Ari Fleischer, Press Secretary
Press Briefing
4/10/2003

--------
It doesn't get any more succinct than that.

Before March 2003 , do You think Bush could have gotten the backup from the american Sheeple
to Invade a country, that did Nothing to the America ,if He said "We want to give Iraq Freedom"
and Never mentioned the terrorizing phrases: "WMD WMD WMD x1000!,Imminent threat! , smoking gun in the form of a mushroom cloud"?

yea , that's the ticket .200 Billion and Zero WMD's to show for it.
And remember this , Cheney was the First VP to ever go to the CIA offices,
Every other president or VP gets daily PDB's and never had the need to visit.
Do Bushbots really care that the "fucking raghead heathens,nuke the middle east" Iraqis can vote?

And remember who installed Saddam, and sold him Chemicals to gas Iranian
troops.(what American cared about those WMD's back then?)
And Who overthrew the the elected,secular government leader of Iran, an
replaced him with
the Shah of Iran?
Remember, it was Ronnie Reagan who funded Osama and Called him a "Freedom
Fighter"

And lest us not forget Clinton, that also armed our enemies the Red
Chinese by giving them
secret nuclear weapon designs.

From the Most Hated Nation on Earth,

Dunno...But for low band use, like most it would probably be one of
old tube radios. IE: drake 2c, drake 4 line, etc...I still have all
those, although I hardly use them anymore...They sit across the room,
and collect dust...My old drake R4 is pretty quiet I suppose..It's
serial 0058, and is *all* tube. It has a mellow sound, and being the
sensitivity is "medium", it's not overly prone to low band noise
syndrome, like some of the newer solid state rigs. The new radios
are almost too sensitive...But one thing...The ability for a signal
to come through noise is mainly bandpass oriented. The shape of the
filters, and freq range can have a great effect. Even between say two
japanese radios..On the low bands, my old kenwood TS-830 "sounds"
better than either one of my icoms. It's not a difference in
sensitivity,
it's the shape of the filters. The icoms have quite a bit of high end,
and being they are super sensitive overall, they tend to bring out the

noise. That makes the desired signal, seem kind of flat sounding.
But if you try the 830, the speech sounds a good bit richer, and the
noise "seems" less a nuisance. It's still there of course, and even
reads on the S meter, but the shape of the filters bring out the
speech,
and null the noise better than the filters in the icoms. Actually,
when I say the icoms have a lot of high end, according to my spectrum
analyser, the filter in the icom is very flat across the bandpass.
Quite even from say 200 hz to 2700 hz with no dips, peaks, etc on
ssb...
Now my kenwood has a bit of a midrange peak, with maybe a tad less
on the high end. Just this small change in filters makes a good bit
of difference in the tone and readability. All the radios can turn the
rf gain down to lower the noise, but it's still not the same...
Now, my drakes sound a lot different than any of my S/S radios.
I'd guess a bit more mellow, and ear pleasing overall, but I think
part of that is due to the tube audio ouput on the R4...I've never
looked at it on the scope, but in general, it's bandpass is also
easier to listen to than the icoms...My 2c has s/s audio out...
With my kenwood or icoms, the audio sounds pretty good, but it's
obvious you are listening to a radio.
If you listen to the old R4, the audio almost sounds realistic, if

you have the noise cut back with the rf gain. I'm talking, it's
almost like the person is in the room, instead of listening to a
radio...:) It's a totally different sound. Really mellow compared
to an icom...I'm sure all the collins, etc old radios are about the
same..Heck, one of the best radios I've ever listened to was a collins
general coverage HF rig in a learjet. It had that smooth quiet sound
you hear on say an old tube rig...You had speakers and a mike for
each pilot. The speakers were in the ceiling, and sounded *real* good.
But I that was a $ 17,000 radio, if I remember right...Maybe more...
But also the antenna used makes a lot of difference...IE: MW...
My indoor loops cut a lot of QRN compared to the wires on MW...
Now, it may seem I'm badmouthing the icoms, but not really. The
icoms sound real good overall, but yes, they are prone to making
noise mask/color the desired signals...And the only reasons I can think
as the reasons, are the overly hot front ends, that can hear a knat
fart at 100 miles, and the shape of the bandpass filtering.
It's not an issue of sensitivity overall, as all my radios are
pretty sensitive as far as HF is concerned. The 706 is the most
sensitive out of the bunch though...
I'm listening to my icom 706mk2g right now on 3.792...EU has been
booming in...And even sounds fine on the icom...lol... I gave them a
call a while ago...Blasted right on through with my brute force 100w,
and 40 ft dipole...One was in Ireland, one in England..Both were 5-9
here...
Heard some others too... Sweden, ect... The guy in Ireland is still
hammering in here, as I type...

Years ago I had a single conversion Radio Shack shortwave all bander. It was ok until I put a wire on the antenna terminal. Like magic, I got a lot of the local am radio stations repeating over the dial.

I'd say getting a double conversion set should be the very minimum requirement. If money and choice allow, get a triple conversion.

Some have said that the more conversion stages you go through, the more noise you get, but I haven't played around with enough different sets to be able to form a valid opinion on that.

Bruce, their retorts are generic & unimaginative! Most even revel in their ignorance! To paraphrase Bill of Stratford, they "signify nothing"! ...  As for your B.B.C. drownout, do you have overhead power lines which also carry cable delivery? Digital cable harmonics might be your enemy. Back in Jan. of  ' 01, when tuning into Ticket 1050 for the Raiders/Ravens A.F.C. Championship game(seems ages ago), got an intermittant piercing buzz on 1.050mhz(& harmonic multiples). Trying to switch sidebands on the Sony 2010 did't cure that interference. Complained to the local cable company to no avail. For whatever reason, it finally ceased in early '03!  If that rfi was a portent of what powerline-delivered broadband will curse us with, God help swls all! Have noticed, though, that B.B.C. Africa Service on 6.005mhz from Ascencion Island gets a similar buzz-out to what you're refering to here in Sactown.

Did he say he landed at San Francisco? I can't recall. Or did he just say that he 'saw' San Fransisco.

A while back I decided to run my R8B off an external power supply. I can't say my decision to do this was based on any very sound reasoning. I'd read some old posts in rrr about how keeping heat out of the case would promote the long term health of the receiver and, being a little paranoid about protecting my investment, I decided to go with an external supply (despite the fact that the R8B really doesn't get very warm when running off its own internal supply). My guess is that that there's no real need to use an external supply and that my desire to protect my investment made me a sucker... In any case, I've tried a couple of external power supplies, most recently a 13.8 VDC / 3amp supply from Radio Shack, and both of them introduced at least some kind of noise or hash into my reception. It was often very subtle, but enough to be a real problem when it comes to weak signals. When the R8B is running off its own internal supply, it's much quieter. It seems to like it's own, internal supply.

So my question is, should just I forget about using an external supply?
Thanks in advance!

Steve

I've never run my R8 or R8B off of an external supply (at least here at home). I do run the R7 off of one due to one earlier occasion of blowing some diodes in the internal supply, so just for the heck of it I run my current one off of a 12 volt supply.

The R8 and R8B never run very hot.

A bit late, but I'm just finding this.

D, since no one's answered what I think you're really asking here, you'll
have to tune in at 5:30 a.m. Wednesday and Friday mornings, then �it's
repeated every five hours two or three more times during the day.

Alternatively,  and IMO preferably, you can hear it in stere�o and EARLIER!

It's on BBC's radio 4 on Tuesday and Thursday evenings at 9:�30 PM your
time at this link:

www.bbc.co.uk/radio4/

The BBC7 episodes others refer to are older shows from 1999. They're on
four days a week on BBC7.

...
and if you care to join a low-traffic discussion list, p�lease find us
at:

Westwayfans-subscribe yahoogroups.com

Hope this all helps! Nice to see another listener--I'm in th�e states, too.

I highly recommend the Degen 1103. It is the best overall  SW portable I
have used. Does about everything well.
Very sensitive off the whip. It takes rechargables, which is great. No
regrets buying it, and plan to keep it for many years.

Mark I think we are talking / arguing with people that aren't wiling or
understand taking risk when it comes to acquiring freedom. To them it's not
worth the sacrifice.

i just started listening to shortwave again after being away from it
for aobut 10 years. I seem to notice that the short wave bands are
totally dominated by nothing but religious subjects and shows. Am I
just listening at the wroing time or wrong bands or does anyone agree

with this observation?

I disagree. I'm hearing BBC right now on 6195 kHz.
Later I'll listen to Radio Bulgaria on 7400. And Havana on 9550.

Democracy is two wolves and a sheep voting on what's for dinner.
Liberty is a well armed sheep protesting the vote.

My first SW radio, an unkwon Zentih.
Then My Heathkit GR64., with a Q-multiplier no less.
The excitment of discovering SSB and CW.
Then the Friday my first R2000 arrived.
My wife and I took off work, took her VW transporter
(a bigger version of the MicroBus) to the Red River
Gorge for a mini-DXepiditon.
I was hooked on the R2000. Smooth tuning, great sound.
Well thought out controls for the user. It is still my favorite
SW radio. So much so that I bought another when the
opertunity arrose.
For the mini-DX events we now use a set of DX398s,
good, small radios, but not a R2000. My wife insisted

on a SW of her own when I bought the first DX398
on closeout at radio shack.

Parts for the 2800/2900 are long out of stock, so buying a parts radio
is probably the best you can do. Maybe you can share the cost with

someone that needs parts for their 2800 too. If I were you though, I
would buy a 2900 which has more features than your 2800. The antennas
should be the same. Good luck.

Thanks for that great tip. If only I could remember my German from high

Welcome to the world of shortwave broadcast.  Yes, there are way too many religious broadcasters on shortwave nowadays, most of them from the US beaming programs to primarily US audiences even though the FCC says it's illegal to broadcast to US audiences on shortwave.

However, there are many other english-language programs from other stations out there, you just have to search through and find them.  When you find them, the programming can be entertaining.  7415 evenings has WBCQ from Maine with various types of programs, even though they also carry religious programming.

The reason there is so much religious programming on shortwave is because the only groups that can reliably raise the money needed to air such programs on shortwave stations are religious groups, not to mention the ambition of spreading their message to a worldwide audience.

So you can either search for the non-religious programs to listen to, or else listen to utility stations like I do.  All the religious programming is probably one reason I never really got into SWBC listening and just stuck with the utes.

Parts are plentiful- however, due to insurance reasons, Lowe no longer ships
to the U.S. You would have to find an intermediary in EU. I stocked up on
displays, mixer and CPU's some time back.

There is nothing I could say without a long dissertation about China and the
CCP that could ever possibly make your little itty bitty brain understand.

Maybe you would care to explain how you inferred from my comments about
good radios being made in China that I'm promoting communism.  While
you are at it be sure to note which kind.

You likely have made the trouble makers list: Radio-Mart also reserves the right to ban/remove ANY bid(s) from ANY individual for ANY reason. We do keep a Blocked Bidders list for ALL non paying bidders as well as trouble makers.

I wonder if Radio-Mart would honor the ability of a buyer to cancel his purchase after the completion of the auction? Probably not. Can buyers publish rules for sellers? If you haven't cancelled a bid or reneged on paying in a timely manner for an auction, I don't see why the seller can cancel your bid simply because you questioned his veracity.

And this: **All items you see pictured are pictures of the ACTUAL item being sold and are copyright of Radio Mart Inc.

I am sure that Universal Radio would be astounded by that statement.

There's always a lot of talk about what radio is better or best or which radio should I buy. I have a hard time giving advice on the subject because there are just too damn many variables and allot of new hobbyist get the idea that if they shell out big $ and buy the latest state of the art radio that all their troubles will be over and they can finally collect that elusive QSL. Hey don't get me wrong, I'm all for buying the most radio you can but lets face it most  peoples reception problems have little to do with the radio and there are plenty of good radios to choose from and the differences of one good radio compared to the other is hard to define unless you got some experience and a good ant/grd etc... The reason I'm saying all this has to do with these comparisons like the R-75 with Kiwa mods compared to the R-8B etc... Yea the R-8B has the edge but not by such a margin that a new listener should rule out the R-75 or other good rigs. Yes I know you seasoned vets are going " Brian we know all this but what's your point?" My point is there are a lot of new SW listeners lurking around here and I want them to know that there are a lot of good results being obtained with a lot of older gear and good antennas. I've been DXing for a long time and all I use is an old R-5000 with a very good ant system and a few audio mods and I'll run with the best of them. Moral is- Buy as much radio as you can afford but $s don't garentee results, that takes experimenting , research and work to get the weak ones.

Steve,

If you are picking up noise off the printer and have no additional
AC outlets. Try getting a Notebook Surge Station and Noise Filter
from Radio Shack, part nbr 61-2327. They can cut alot of the AC noise.

Can you control the volume with the remote?

That's a good start. The radials make the signal stronger and a good RF ground makes it quieter. Both add to the intelligibility of the signal.

Brian, over the past thirty years, I have used : an old tubed RCA, a
Realistic dx-160, a Sony 2210, a Sony 7600gr, and my Kenwood ts-50 to listen
to shortwave dx. I agree that if you enjoy the hobby, then buy "all the
radio that you can afford", but even the best rig is useless without a
decent antenna. If a listener does not have access to a place where he can
string up some wire, then a small portable with whip antenna will be all the
radio needed.

I have a little revelation for you.  Chinese profits from foreign companys
manufacturing
products in China is a very small fraction of the foreign company profits.
Miniscule in fact.
The reason the Communist government encourages this is because there are
more people
unemployed in China then there are employed in the U.S.  The Communist Party
would
be facing more social unrest if unemployment gets any worse.

What you need to avoid are Chinese products made by and sold by Chinese
companys.
I.E. Companys owned by the Chinese Communist Party = Degen!

We all now see what your motives are here.  Your knowledge of international
politics
and global economics is nil.

Seems to be a good night for medium wave..

As usual the following are booming in.

1100 WTAM Cleveland, OH

1100 WBT Charlotte, NC

1140 WRVA Richmond, VA

1180 WHAM, Rochester, NY

1500 WTOP, DC

Im also getting a few of the 50 killowatt stations that I dont normally hear so well.

750 WSB in Atlanta made it through tonight

I also heard 760 WJR in Detroit clearly

670 WSCR in Chicago was weak but made it through...

1120 KMOX, MO... very messy and lots of QRM but it made it.

The ssb selectable AM sync on the Sony 7600gr makes ALL the differance for MW DX'ing.

If you want an older portable that has good reviews. And don't want
to spent alot. Try a Sangean ATS-803A/RS DX-440. Usually can pick
one up even on ebay for less than $75. And they are not the battery
hogs some newer set are.

Of course not!  You and your "friends" would be arrested and sent to prison
for reform
if your political discussion displeased the Communist Party.  Your CCP
membership (your job)
would be in jeopardy.  Your life would be at stake:

You have a point about the fire hazard. At 10 watts, there was little to no
risk. I wouldn't turn the power up though.

Mark,

it says in this comparison between the 150 and the 150E, though there was less images on the 150E,  increased noise appeared on those frequencies. The 150E is surely less sensitive too. What do you think now?

Steve,

He won't or can't answer your question.  Every Chinese company has
"connections" with the Communist Party:
In this link are some interesting comments from a corrupt CCP businessman:

He says:
"Incorporating these RF bandpass filters should theoretically reduce
spurious responses and noise. I compared the '150E to my early model '150.
When the original '150 was connected to my 90/60 meter parallel dipole,
there were several frequencies below 3 MHz which had images of local
broadcasters. With the '150E , there were no audible images present, but
there was increased noise on the same frequencies".

and

 "I found that the original HF-150 was about 0.5 microvolts more sensitive
across the HF spectrum, however, the HF-150E was within specification of
less than two microvolts throughout the HF spectrum, and was typically in
the range of one microvolt. I think that the higher sensitivity of the
original may not be a virtue, given the radio's susceptibility for
overloading. I don't think that this difference is significant, and
switching in the pre-amp on the HF-150E improved the sensitivity to the

level of the '150 without pre-amp"

So basically he had to switch on the pre amp to bring it up to the 150's sensitivity. If you don't live in areas with strong stations, I'd rather have the sensitivity.

Plus, I didn't know the backlight option can't be turned off in the E. So, it will drain your batteries if you ever use it as a portable.

Thanks Mark!  I got my noise filter today and will get it hooked up
this weekend.  I'm hopeful that it resolves the alternator whine by
iteself, but I expect it will take a cap to totally fix it.

I use an Astron SS-18, which is a switching supply (so it runs fairly cool), and is not too noisy birdie-wise.  I tried a MFJ switching supply first (birdies all over) and an Astron non-switching supply (quiet but hot).

It keeps the R8B much cooler, and you can stack other stuff on it because it no longer needs airflow.

I much prefer it on the external supply, but the real reason for getting it was to run a couple dozen 12v accessories like active antennas and ANC-4's and DSP's as well, without having a rats' nest of wall warts.

I have the SS-18 in a discarded refrigerator in the basement, far from portables lying around that might hear its birdies, and the R8B is on an external antenna so doesn't hear it in any case.

Be sure to inline-fuse the power from an external supply for the cable you're using, amp-wise.   Those things can burn up wire well before they reach their rated capacity, and most wire won't handle 18 amps.  Slo-blo fuses run very hot, incidentally; use fast-blow fuses.

Heat is an enemy of all electronics, and even though the R8B does run cooler

than any other receiver I own, it could improve frequency stability to run
it even cooler from a DC pwr supply.

Btw I also use a RS 3a regulated pwr supply (to run an ATU) and except for
the spike of turning it on/off, have never noticed any hash on receivers
from it.

I thought you would get a kick out of the mason-jar trick! Live and learn.

What are your Alpha-Delta Antenna Switches "grounded" to when in the center position? Where are they mounted?

Some of you will remember I operate a USCG Auxiliary communications station, and when on duty, do not secure for wx. That required a complete lightning protection system which cost about $4500 in electrical design, labor and materials (surge suppression), plus another several hundred in materials (external ground system and bonding) which I installed. That does not include the standby power (generator) btw.  I researched the grounding, bonding and surge suppression issues for over two years before embarking on that plan. Also studied the damages that occurred to stations (amateur, broadcast and government) who had lightning protection systems, and those that did not. I still follow every published story of lightning damage to US communication stations, and have a current library of (US) NEC and NFPA codes.

My system's baptism by fire came the same afternoon the contractors were cleaning up to leave in July 2004. Over 1,000 strikes in a 10 mile area, about 300 in my immediate area, and perhaps a dozen almost on top of me. Trees in my yard and on both sides of my HF antennas were struck, and the power spiked relentlessly, eventually calling for the generator due to electrical noise and high voltages.  Dozens of electrical storms later, the system continues to perform as expected.

When I give advice to SWL hobbyists about lightning safety, it's because I went through years of worry and learning curves of what works, what doesn't, and the safest ways to operate (or isolate) from various stages of hobby listening, to nearly full-time service for the USCG.

Although the antenna systems have changed somewhat from the schematics on the website, the basic system is described at http://members.cox.net/pc-usa/station/ground0.htm

This is the time btw, to commence any plans some of you may have had to install or upgrade lightning protection systems, not in the Spring or Summer when thunderstorms can occur without warning! O.K. Steve in Detroit you will have to wait until the ground thaws, lol.

This reminds me...I read a story today (don't have a link, sorry),
where a lot of 50kW night AM stations in the US are complaining about
Spanish stations interfering with their signals. The signals are
apparently coming from Cuba, but the FCC hasn't determined this
officially yet. Anyone heard of or experienced this lately? I haven't
done much MW DXing lately, so I wouldn't know.

I'd be interested in hearing more about the "increased noise" in the
Europa - the reviewer didn't say anything other than he noticed it.  Who
knows if it's significant?

I bring plenty of power for recharging battery packs when I'm camping.
I'd gladly trade the convenience of a backlight for a little battery

drain.

Unless you've taken heroic measures or live in the woods, odds are the noise floor for your antenna will be higher than 2 microvolts.

My primary home antenna is 225 feet away from the house, with underground coax, and according to my Harris, the noise floor is right around the limit of the Europa.

If you were using the radio to chase DX in the woods, you could use an outboard preamp or an active antenna.

When I was looking for a HF-150e or a 7030+ my primary concern was finding a good radio for use when camping, and for when I'm hanging out by the pool or fishing for snook on the other side of Alligator Alley.

The HF-150e had the edge on size and would probably have cost less, the 7030+ had the edge on performance, and availability.

Both radios were designed by the same person.

Reminds me of a funny incident back in the 1950s, when US AM broadcast stations were still required to devote a certain amount of air time to public service.  They met the requirement by broadcasting church services on Sunday mornings.

One Sunday morning I was introduced to a young Italian student who had just arrived in town the night before. The first thing he said was, "What is this with radio in your country? All I hear are priests!"

Gee,thanks for your "nice comments". The Airplane I went to Vietnam in the first week of 1964 was a Pan American Airplane.We took off from San Francisco Airport at around 11:00 PM that night and we stopped at Anchorage Airport for breakfast and so the Airplane could refuel,I remember seeing a big stuffed Polar Bear in the lounge area at Anchorage Airport.From Anchorage we stopped at Hong Kong Airport for about half an hour and then on our way to Tan Son Nhut Airport a few miles North of Saigon.The next morning we were on our way to Can Tho to have our paperwork filed there.We spent the night at Can Tho and then to Shannon Wright Compound near Ving Long.I spent one year in Vietnam www.114thaviationcompany.com  and on our way back to America,we came back to San Francisco Airport in a U.S.Air Force Airplane,(Pan American Aircraft had been banned by then because of Vietcong attacks) we spent the night at Yokota,U.S.Air Force Base in Japan.I spent four days and nights at Oakland Army Terminal,Oakland,California waiting on going to Vietnam.I was at Shannon Wright Compound for about three months and I got transfered to Tan Son Nhut,same Company.   www.tsna.org

The same year,my brother (he was eight years older than I am) was a Helicopter Mechanic at Vung Tau,his second Tour Of Duty in Vietnam following a year in Germany.I did not get Drafted,I joined the U.S.Army on October 28,1962.I did my three years in the U.S.Army and I went back to civilian life.

In our area -- VE exam tests are sent at 14 to 15 wpm with the spacing
adjusted to 5 wpm overall.
Check with your local VE

I don't think you will find much difference between 10 wpm and 15 wpm
Farnsworth

Or you can download a Morse program and computer practice

For Morse programs -- See URL:

> This reminds me...I read a story today (don't have a link, sorry), where a lot of 50kW night AM stations in the US are complaining about Spanish stations interfering with their signals. The signals are apparently coming from Cuba, but the FCC hasn't determined this officially yet. Anyone heard of or experienced this lately? I haven't done much MW DXing lately, so I wouldn't know.

There's been a fair amount of auroral propagation recently. This causes increased absorption at higher latitudes - "daytime" conditions, where AM stations don't cover the vast distances they cover at night, have extended into the nighttime hours, but more so for stations further from the equator.

This tends to make the signals of northern stations weaker, while not affecting southern (i.e., Latin American) stations as much. In a place where you might ordinarily hear WGN Chicago, you may hear Jamaica or Cuba instead.

The general consesus is that there haven't been any significant AM power increases in Cuba lately.

There have also been a few problems with interference from

Spanish-language stations *based in the U.S.*. One Miami station got busted a couple of years back for operating from an unauthorized site, with an unauthorized non-directional antenna pattern, and at an unauthorized power. Amazingly, they didn't lose their license. Another station here in Tennessee has been busted twice for using 5,000 watts at night instead of their legal six-watt signal. They're not the only two.

I have found the first comment made by Exit Poll Coordinator, Mitofsky, since the damning report by USCountVotes.org refuting his conclusions that Kerry supporters were over-sampled in the 2004 exit poll. It's a beauty!!!

My R8 ran "warm" on the built in power supply, and this made the top of the radio a favorite snoozing spot for our cats. Having a cat snoozing on top makes it run warmer.

Without the snoozing cats problem, I'd consider an external power supply to be a belt and suspenders kind of thing. You don't need to do it, but it may prolong the life of components.

Besides heat, the other problem with cats snoozing on your radios is eventually, they decide the tuning knob must be a toy since you seem to enjoy turning it.

I've pretty much decided to sell my Applied Communications (Norlin) SR-2150 wideband because one of the cats is afraid of the cooling fan, and another thinks turning the tuning knob is a game.

Yesterday a lady in the Great Republic of Texas sent me an email.It was

sort of a joke thingy about HitleryBITCH Klintoon.It seems there is a new stamp that has HitleryBITCH Klintoon's face on the stamp and the stamp wouldn't stick to any envelopes.They started bitching to the U.S.Post Office about it.U.S.Post Office did some test and it came back there wasen't anything wrong with the glue on the stamps.They were spitting on the face on the stamps!

In the latest round of auctions by radio-mart on ebay, he states that:

".... we only picture the "Actual" items listed. No trick photography, just excellent equipment offered!! "

Check out his auction for a Yaesu FRG-7700 and some of the 7700 accessories. The close-up photo's show links to Universal Radio's website.....these are not actual close-up pics of his 7700.  Click on the pics such as "s-meter", "back panel", etc.

Get a piece of cardboard or a piece of thin wood paneling and push a lot of long thumbtacks into the cardboard or panel and set the panel on top of your radio(s) tv sets or whatever with the points of the thumbtacks pointing up.That should keep the cats off.

I wouldn't be so sure, Laughing Boy. Somehow I doubt you have the st�ones to read it all, but if you're going to respond t�o this at all, you'd better at least read until you get to this:

> Today, some Republicans claim President Clinton "did noth�ing" to combat terrorism. Back then - when they might have preven�ted the 9/11 attacks - Republicans blocked or stalled all of the �anti-terrorism proposals above.

Pick a paragraph and choke on it:

=======================

## Republicans Sabotaged Clinton's Anti-Terror Efforts

By Mike Hersh

President Clinton took the oath of office January 20, 1993. �February, 26 - barely a month later - terrorists detonated more than 1,00�0 pounds of explosives under the World Trade Center, killing six and inj�uring about a thousand people. Bill Clinton and the Democrats never dreame�d of trying to blame the outgoing George Herbert Walker Bush Administration.

They just began working to keep us safe from terrorism.

As reported by the "debunking" website, snopes2.com: Within �a year, law enforcement officials hunted down four of the "blind cleric"� Sheik Omar Abdel Rahman's disciples, then prosecuted and convicted them for t�he bombing and sentenced them to 240 years in prison in March 1994.

Officials captured the prime suspect Ramzi Ahmed Yousef in 1�995. A court convicted him in November 1997 and sentenced him to 240 year�s in prison as well. An additional suspect fled.

"In August 1998, President Clinton ordered missile strikes a�gainst targets in Afghanistan in an effort to hit Osama bin Laden, who had bee�n linked to the embassy bombings in Africa (and was later connected to the a�ttack on the USS Cole). The missiles reportedly missed bin Laden by a few hou�rs, and Clinton was widely criticized by many who claimed he had ordered the str�ikes primarily to draw attention away from the Monica Lewinsky scandal. As Joh�n F. Harris wrote in The Washington Post:

In August 1998, when [Clinton] ordered missile strikes in an� effort to kill Osama bin Laden, there was widespread speculation - from suc�h people as Sen. Arlen Specter (R-Pa.) - that he was acting precipitously to �draw attention away from the Monica S. Lewinsky scandal, then at full boil. Some� said he was mistaken for personalizing the terrorism struggle so much ar�ound bin Laden. And when he ordered the closing of Pennsylvania Avenue in front �of the White House after domestic terrorism in Oklahoma City, some Republicans �accused him of hysteria.

See: "Claim: The Clinton administration failed to track down� the perpetrators of several terrorist attacks against Americans. Status: False." http://www.snopes2.com/rumors/clinton.htm. Also see: Lauria, Joe. "U.S. Embassy Bombers Get Life Sentences." The Ottawa Citizen. 19 �October 2001 (p. A5). As well as Randolph, Eleanor. "4 Guilty in Bombing of W�orld Trade Center," The Washington Post: 5 March 1994 (p. A1) and "Trade Center �Bombers Given 240 Years Each," The Washington Post: 25 May1994 (p. A1).

Republicans typically couldn't decide whether President Clin�ton was too blas� or too "hysterical." In reality, his response was appropriately� focused on bin Laden and al Qaeda according to top anti-terror officials of� the Reagan and Bush I administrations. What did Bill Clinton do?

Issued January 23, 1995 his Executive Order 12947 "Prohibiti�ng Transactions With Terrorists Who Threaten To Disrupt the Middle East Peace Pro�cess," provided for prevention and punishment of efforts to fund terrorism and a�uthorized the FBI and Treasury Department to investigate and prevent financial� support of terrorism. It read in part:

"By the authority vested in me as President by the Constitut�ion and the laws of the United States of America ... I, William J. Clinton, Pres�ident of the United States of America, find that grave acts of violence committe�d by foreign terrorists that disrupt the Middle East peace process consti�tute an unusual and extraordinary threat to the national security, foreign polic�y, and economy of the United States, and hereby declare a national emergency t�o deal with that threat."

This executive order provided for prohibition and punishment� of transactions to support terrorism including transfer of "property and intere�sts in property of ... the persons [found] to have committed, or to pose a sign�ificant risk of committing, acts of violence that have the purpose or effect� of disrupting the Middle East peace process, or ... to assist in, sponsor, or �provide financial, material, or technological support for, or services in suppo�rt of, such acts of violence...."

This order held that "any transaction or dealing by United S�tates persons or within the United States in property or interests in propert�y of the persons designated in or pursuant to this order is prohibited, inclu�ding the making or receiving of any contribution of funds, goods, or services t�o or for the benefit of such persons [and] any transaction by any United States p�erson or within the United States that evades or avoids, or has the purpose of e�vading or avoiding, or attempts to violate, any of the prohibitions set forth in� this order, is prohibited."

Clinton ordered the prohibition of donations "by United Stat�es persons to persons [which] would seriously impair [his] ability to deal� with the nationalemergency declared in this order, [and determined th�at any] investigation emanating from a possible violation of this or�der ... shall first be coordinated with the Federal Bureau of Invest�igation (FBI), and any matter involving evidence of a criminal violation shall �be referred to the FBI for further investigation...."

See: Executive Order 12947 of January 23, 1995, Federal Regi�ster, Vol.60, No. 16,

http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=1995_regist..., President Clinton expanded that Order, explaining to the Spe�aker of the House: "On January 23, 1995, in light of the threat posed by� grave acts of violence committed by foreign terrorists that disrupt the Mi�ddle East peace process, using my authority under, inter alia, the Internati�onal Emergency Economic Powers Act ... I declared a national emergency and �issued Executive Order 12947. Because such terrorist activities continue to p�ose an unusual and extraordinary threat to the national security, foreign polic�y, and economy of the United States, I have renewed the national emergency dec�lared in Executive Order 12947 annually, most recently on January 21, 1998."

He added, "I hereby report to the Congress that I have exerc�ised my statutory authority to issue an Executive Order that amends Executive �Order 12947 in order more effectively to respond to the worldwide threat posed by� foreign terrorists [to add] Usama bin Muhammad bin Awad bin Ladin (a.k.a. Usama� bin Ladin), Islamic Army, Abu Hafs al-Masri, and Rifa'i Ahmad Taha Musa to the l�ist of terrorists that are subject to the prohibitions contained in the Execut�ive Order." See: "Clinton's Letter to Congress on Freezing of bin Ladin Asset�s," August 22, 1998

http://www.ict.org.il/documents/documentdet.cfm?docid=22

President Clinton also ordered a "terrorism threat assessmen�t of every federal facility in the country," which had "already begun" when, in� February 1995, the Clinton Administration introduced a counter-terrorism bill i�n the Senate (S. 390) and the House of Representatives (H.R. 896).

Note: this was before the Alfred P. Murrah Federal Building �Oklahoma City bombing on April 19 that year.

President Clinton's proposals would have expanded pre-trial �detention and allowed more federal wiretaps of terrorism suspects, eased d�eportation of foreigners convicted of crimes, allowed the detention of ali�ens convicted or suspected of crimes, let the President criminalize fund-rais�ing for terrorism, and revived visa denial provisions to keep dangerous people �out of the US.

Unfortunately, Republicans sabotaged Clinton's efforts to ke�ep us safe.

If in force before April 19, 1995 federal officials might ha�ve detected and prevented the Murrah Building plot. 9/11/01. If the Republic�ans had passed Clinton's proposals before September 11, 2001 we might have �blocked the al Qaeda terrorist plot that killed 3000 Americans. We all know what �happened eight months into the illegitimate Bush/Cheney reign of error.

Republican Congressional leaders shot down Clinton's proposa�ls, tried to impeach him on trumped up grounds, and dragged their feet when it ca�me to national security. They did this even after the Murrah Building bombi�ng. Clinton's "Omnibus Counter Terrorism Act of 1995" would have:

"[P]rovided clear Federal criminal jurisdiction for any inte�rnational terrorist attack that might occur in the United States [including] Fed�eral criminal jurisdiction over terrorists who use the United States as th�e place from which to plan terrorist attacks overseas." Allowed deportation of �"alien terrorists without risking the disclosure of national security informat�ion or techniques."

It would have "prevent[ed] fundraising in the United States �that supports international terrorist activities overseas," implemented "a�n international treaty requiring the insertion of a chemical agent into plas�tic explosives when manufactured to make them detectable," and granted "more too�ls to federal law enforcement agencies fighting terrorism."

These proposed "tools" would have included: Providing for "d�isclosures by consumer reporting agencies to the FBI for counterintelligen�ce and counterterrorism purposes." Also "relaxed standard[s] for ob�taining 'pen registers' and 'trap and trace' device orders which already �exists in routine criminal cases, to national security cases."

Note: a "'pen register' is a device which records the number� dialed on a telephone" and a "'trap and trace' device is similar to 'Cal�ler ID,' providing law enforcement with the telephone number from whi�ch a call originates. [This] would not permit law enforcement to monit�or actual conversations being conducted."

Clinton's proposals "would require hotel/motel and common ca�rriers such as airlines and bus companies to provide records to the FBI pur�suant to authorized national security requests just as they must do now for virt�ually all state and local law enforcement. [This because] FBI has found that, wh�ile some of these entities voluntarily provide such information, an increasing� number refuse, absent a court order, a subpoena, or other legal protection.

Clinton also sought to "fund costs associated cases which ar�ise in connection with terrorism crises, including logistics and other support�" and he wanted to "Create an interagency Domestic Counterterr�orism Center headed by the FBI" to "establish a partnership effort between the J�ustice Department, including the FBI, and other federal and state law enforceme�nt authorities to coordinate [ant-terror] efforts within the United States."

President Clinton "directed the Attorney General to conduct �this assessment and report her recommendations in 60 days. The assessment has al�ready begun" and directed "the FBI Director, the Attorney General, and the Na�tional Security Adviser to prepare a presidential decision directive authori�zing any and all further steps necessary to combat foreign and domestic terro�rism.

The Clinton Administration also submitted "New Legislative P�roposals" which called for investigations and hiring "approximately 10�00 new agents, prosecutors, and other federal law enforcement and support p�ersonnel to investigate, deter, and prosecute terrorist activity," and w�ould have made it more difficult for terrorists to commit - and easier for law� enforcement officers to detect, prevent and investigate - terrorist acts�.

It would have required "the inclusion of microscopic particl�es in certain raw materials, thereby permitting law enforcement to trace the s�ource of the explosive even after a device has been detonated" and "permi�tted military participation in crime-fighting involving weapons of mass de�struction ... to permit military participation in criminal cases involving ch�emical, biological, and other weapons of mass destruction; areas in which the mi�litary has specialized expertise."

Today, some Republicans claim President Clinton "did nothing�" to combat terrorism. Back then - when they might have prevented the 9/�11 attacks - Republicans blocked or stalled all of the anti-terrorism pro�posals above. First, they stone-walled for months despite Clinton Administration �warnings. Then, the GOP watered-down key provisions.

Finally the Republican Congress passed S.735 "A bill to prev�ent and punish acts of terrorism, and for other purposes." It became Public Law No: 104-132 when President Clinton signed it, despite his an�d others' concerns that the Republicans watered down the bill too much�.

As CNN reported: "Congress on Thursday passed a compromise b�ill ... a watered-down version of the White House's proposal. The Clin�ton administration has been critical of the bill, calling it too weak. The orig�inal House bill, passed last month, had deleted many of the Senate's anti-ter�rorism provisions...." See: "Congress passes anti-terrorism bill," �CNN April 18, 1996:

http://www.cnn.com/US/9604/18/anti.terror.bill/index.html

Republicans weakened and blocked anti-terror legislation sev�eral times, sabotaging Clinton Administration efforts to keep us safe. P�resident Clinton and his administration never stopped working to combat terrorism� and kept pushing the Republicans for adequate anti-terror laws.

Other Clinton Administration anti-terrorism legislative prop�osals include: The Comprehensive Antiterrorism Act of 1995, The Co�unter Terrorism Technology Research Act of 1995, The Antiterrorism Amendment�s Act of 1995, The Effective Death Penalty and Antiterrorism Act of 1995, and t�he Senate and House versions of The Omnibus Counter Terrorism Act of 1995.

According to CNN, Republicans refused to cooperate with Pres�ident Clinton's efforts to protect us from terrorist attacks: "July 30, 1996� President Clinton urged Congress Tuesday to act swiftly in developing anti-ter�rorism legislation before its August recess. But while the president pushed for� quick legislation, Republican lawmakers hardened their stance against some of t�he proposed anti-terrorism measures.

"Senate Majority Leader Trent Lott, R-Mississippi, doubted t�hat the Senate would rush to action before they recess this weekend. The Senate n�eeds to study all the options, he said, and trying to get it done in the next �three days would be tough. One key GOP senator was more critical, calling a prop�osed study of chemical markers in explosives 'a phony issue.'" See: "Presi�dent wants Senate to hurry with new anti-terrorism laws," CNN July 30, 1996:

http://www.cnn.com/US/9607/30/clinton.terrorism/

Despite President Clinton's extensive efforts to combat terr�orism - and their own refusal to help, even eagerness to hinder those efforts �- Republicans shamelessly blame Bill Clinton. The Washington Post

reported: "The Sept. 11 terrorist attacks had been over for �a few hours when Rep. Dana Rohrabacher (R-Calif.) announced his conclusion ab�out the root of the problem. 'We had Bill Clinton backing off, letting the Talib�an go, over and over again,' the conservative from Orange County declared at a ne�ws conference."

"On the editorial page of the Wall Street Journal [October 5�, 2001] Rush Limbaugh penned a column on how 'Mr. Clinton can be held cul�pable for not doing enough when he was commander in chief to combat the terroris�ts who wound up attacking the World Trade Center and Pentagon.'" See:

Harris, John F. "Conservatives Sound Refrain: It's Clinton's� Fault." The Washington Post: 7 October 2001 (p. A15).

http://www.washingtonpost.com/ac2/wp-dyn?pagename=article&node=&conte...
does all this prove? That besides lacking any sense of honor�, honesty or decency, top Republicans don't know the first thing about na�tional security. They didn't care enough about the Atlanta Olympics bombing, �the first WTC bombing, or even the Murrah Building bombing to do anything �to prevent the next terrorist attack. Republicans remained soft on terror when t�hey might have made it harder for terrorists to kill Americans. Again, we all kn�ow what happened eight months into the illegitimate Bush/Cheney reign of erro�r.

Even though President Clinton knew about the al Qaeda threat� and took action to kill bin Laden, and to punish and thwart terrorists and thei�r plots. The Clinton Administration warned the Republicans about terrorism more t�han six and a half years before 9/11/01 and then again as the illegitimate Bush� Occupation stole into office. Still, the GOP did nothing or actually blocked �most efforts to keep us alive!

Here's more from President Clinton's Letter to Congress on F�reezing of bin Ladin Assets: "Usama bin Ladin and his organizations and associate�s have repeatedly called upon their supporters to perform acts of violence. Bi�n Ladin has declared that killing Americans and their allies 'is an individual du�ty for every Muslim... in order to liberate the Al-Aqsa Mosque and the Holy Mos�que.' These threats are clearly intended to violently disrupt the Middle East pe�ace process."

He stressed, "I have authorized these actions in view of the� danger posed to the national security, foreign policy, and economy of the United� States by the activities of Usama bin Muhammad bin Awad bin Ladin (a.k.a. �Usama bin Ladin), Islamic Army, Abu Hafs al-Masri, and Rifa'i Ahmad Taha Musa �that disrupt the Middle East peace process. I am enclosing a copy of the Exec�utive Order that I have issued exercising my emergency authorities."

The Republicans ignored these warnings "from President Clint�on to the leaders of Congress explaining why he ordered the freezing of all asset�s controlled by or affiliated with terrorist chieftain Usama bin Ladin."

See: Clinton's Letter, August 22, 1998:

http://www.ict.org.il/documents/documentdet.cfm?docid=22

Under Bush and Cheney, their anti-terror task force never me�t until it was too late. Their top defense officials, Rumsfeld and Rice, tried �to slash anti-terror funding and claimed terrorism wasn't their responsibility re�spectively. It took the horrible attacks on the World Trade Center and the Penta�gon before the Republicans woke up and recognized the serious terrorist thr�eat.

The next time a Republican tries to blame President Clinton �for their refusal to cooperate with his efforts to keep us safe, don't get angry.

When Bush, Cheney, Rumsfeld, Rice or any right winger claims� only Republicans can protect us from terrorism - despite their failure to do �anything in response to the specific warnings about the looming al Qaeda threat -� don't just decry their hypocrisy and lies. Make a big donation to anti-right �wing efforts like this website, or the Democratic National Committee.

Also, vote against any and every Republican running for any �office. Your life and your family's lives depend on it. Never forget, Republic�ans are soft on terror and soft in reason. All they can do is blame others f�or their mistakes. They can't keep us safe.

Yes who knows how significant the noise was but if he noticed it, it must of stood out enough. Still, you can't really be sure it can be reproduced on all the E models unless you had at least 3 to test it on at the very same time.

But as they said it was produced mainly for the Euro market where conditions are different then where we live. With that gothic gold "Europa" label across the radio it kinda reminds of me of a mini Dracula's coffin :)

Mark you don't mean Alligator Alley in Florida do you? Nah they got alligators in alley's in most states nowadays...

no
shrub chased out the inspectors because they couldnt find any evidence
and they were  on the verge of proving there was nothing to find

He jailed all of the '93 WTC bombers.

And convicted McVeigh and Nichols.

And dealt with christian terrorists, Paul Hill and David Koresh.

Did 'everyone' ignore the other intelligence to launch a war based on lies?

No - only Bush.

Failure for all of history.

There are double conv sets that do as well as the triple. Its a matter of design but yes at least a double conversion type circuit is the norm or starting point of serious modern superhet design. The Icom R-71s are quadruple conversion and were/are a favorite for utility dxers like myself.

Sometimes three or four IFs are problematic with intermod I've heard but I've never had any bad experiences.

Is the 2010 that good for MW just on its internal antenna ???  For me, I
dont like the 7600gr for its sensitivity on MW, I value it because it is
fairly quiet as far as noise goes and MOST of all the ssb selectable AM sync
really makes a huge difference.  Without it, in a lot of cases, you get all
kinds of QRM from neighboring stations when you try to DX MW.  Then, just
switch on the sync and pick the ssb setting on the other side of the QRM.
Viola !!!  A good clean clear signal.  I absolutely LOVE it.  I have GE SR
III with that huge internal ferrite bar that was designed for MW DX.  It is
more sensitive then the 7600gr and more quite.   Still, I prefer the 7600gr
just because of the sync and digital tuning.

I had a 515 briefly, but I was never a fan of Japan Radio. I didn't like the audio.

Boy does this thread bring back memories.  I was in high school in Bangor, Maine, ca. 1960, when I got a shirt-pocket Silvertone 6 transistor radio from Sears for Christmas.  My favorite stations for rock music were WKBW, Buffalo, WPTR, Albany I think, WABC, New York, and, of course, WMEX (?), Boston, with "Arnie Ginsberg and the Night Train Show".  It was a couple years later that we moved to Florida and I traveled to New Orleans to march in the Mardi Gras parade with my high school band.  I was half asleep one night when I was startled by a weird howling noise coming over my radio through the little earplug.  Some strange dude named Wolfman Jack!

Not true at all. All you need to do is get those meds squared away and it'll be all right.

Shia candidates lead Iraqi poll

Officials say about 60% of Iraqis voted in Sunday's election
Latest partial results show Iraq's main Shia Muslim coalition has maintained a strong lead in the country's landmark elections, officials say.
The results are based on 35% of the ballots cast last weekend.

The United Alliance list, backed by Shia cleric Grand Ayatollah Ali Sistani, has polled 2.2 million votes out of the 3.3 million counted so far.

The Shia coalition is also ahead in votes cast by Iraqis overseas, according to preliminary results.

The International Organization for Migration (IOM), which supervised the absentee ballot, said the United Alliance list had received 36.15% of 263,685 ballots cast overseas.

The Kurdish Alliance list came second, with 78,062 votes, or 29.6% of the expatriate vote and the list of candidates led by interim Prime Minister Iyad Allawi came third, with 9.15%.

Complaints investigated

The partial results come from 10 of Iraq's 18 provinces - all 10 have large Shia populations.

The first results, released on Thursday after 1.6 million votes were counted, placed the United Alliance list in the lead with one million votes.

Full results are not expected for several days, the Iraqi election commission says.

Threats of violence did not deter large numbers of electors voting on 30 January, but there were complaints about polling stations running short ballot papers in several provinces.

After the first partial results were released on Thursday, officials said they had sent a team to the northern city of Mosul to look into allegations of irregularities in Sunday's election.

"We received some complaints and the legal department in our commission is studying these complaints thoroughly," said election commission official Safwat Rashid.

Sunni Arabs in particularly complained about being denied the right to vote around Mosul.

On Wednesday, the main Sunni religious organisation, the Associations of Muslim Scholars, said the election had been illegitimate as so many Sunni Muslims had not taken part in the vote.

Looks like a good price, the 110-450  looks just like the ones Radio Shack
wants about 7 or 8 bucks a pair for and the same ones I purchased from Radio
Shack
5 or 6 years ago at three for about $5.00. Yes they do work, I have them on
both ends of all the cables in and out of my RX320 and computer. On small
audio cables I looped through them twice. RM~

PS, Digikey has good prices on them also but a tad higher than 95 cents ea.

Dear Kelly,

May I make a suggestion that willl at first appear "simple-minded" or
"flip" but it is not meant to be; it comes from long experience with
this sort of thing:

"If it ain't broke, don't fix it!"

You've been happy with your radio. Why take a chance on doing something which, though it might offer some nebulous "improvement," also has the potential to cause possible damage to it?

Best,

Joe

The R5000 I had wasn't 'broke' when I got it, but a better 6 khz filter 'fixed' it!

Re-reading my first post I noticed two silly errors I made: the slew buttons on FM should offer 100 kHz tuning (not MHz)- and possibly 50 kHz tuning also - and the internal ferrite antenna for MW and LW should be 260 mm minimum length (not 130). An auxiliary external removeable MW/LW antenna, which could plug into a receptical on the top of the radio, and be rotated would be extremely nice; only the antenna would have to be rotated for best MW/LW reception, not the whole radio.

By the way, really "tight" (multiple) filters for FM reception would be a plus.

One other suggestion: make the radio BIG - more on the order of the Grundig Satellit 800. Smaller radios involve too much compromise in my opinion. There are certainly enough smaller compromised radios on the market already but very few "great" ones. (The Satellit 800 is close, but the improvements suggested here on this post would result, I believe, in one of the all-time great radios.)

Sorry about the errors. Senility ...

Best,

Joe

My Icom R71A audio improved immensely by the use of one of the add-on computer speakers that has really great low frequency response. That coupled with the outboard JPS NIR-10 Noise/Interference Reduction unit
makes it a real joy to operate.

The speaker is a  about a 3x5 inches with a heavy magnet and a tuned port at the bottom for some reason. I an no audiophile for sure.  It just sounds great.

You'd better tell Barbara Boxer and Teddy Kennedy it's time to drop out of the
'march'.

They need meds as much as you do, 'tard boy!

Well, I listen to US domestic SW.  Sure, Alex Jones and Brother Stair may
also be found on local broadcast outlets.  But there are plenty of very
enteraining members of the "hidden knowledge" group found exclusively on SW.

Huh?  Other countries use SW broadcasts to demise us from those on the
inside?  Does this have something to do with HAARP?

What's your point?  US SW broadcasters broadcast to a domestic audience 24
hours a day, wheather it's technically illegal or not.

If these laws exist, they aren't being enforced.

Are you suggesting US domestic SW radio is some sort of illusion?

"Nuts" is such a harsh description.  I prefer the term "hidden knowledge crowd".

Not that I'm disagreeing with the term "nuts", however.

I just got this unit at the ABQ swap and started looking for a a manual with Google and found that unit is differnt from the ones I've found pictured. It has 3 Collins mechanical filters. At the top upper left it has a Squelch control and next to it is a Noise Silencer control. The mode swtich is labeled AM and SSB/CW. The lettering looks factory done. The filters have been added on a sub chassis and I'm not sure it is a factory mod or homebrew but it has been nicely done. The S meter was made by Texas Instruments. It has some problems including lots of nosie, hetrodynes, etc.. I've only seen one of these in the past and can recall which version it was, they must be scarce? Anyone have any info?

Look at any integrated circuits for a date code.  ICs, at least in the DIP package, usually have a YYWW (year, week) number as part of their label.

The law does exist and is being enforced loosely. Domestic shortwave stations are required to have directional antennas and there beam heading has to be outside the US. It is easily gotten around by using antennas that are directional, but not very, and targeting the main lobe to a part of the world that would ensure that secondary lobes cover the US. The law also states that commercial advertising is not permitted unless it is of a nature that would appeal to an international audience. This is being blatentenly ignored. No, the FCC is not doing it's job.

Appears to be the Mil version of the SX-73 at any rate, also similar to the
SP600. Seems to be Hallicrafters?

Hank,

The Hallicrafters didn't come with mechanical filters. The R-274 series
actually had receivers built by both Hallicrafters and Hammarlund. The
Hallicrafters were designated R-274/URR, R-274D/URR and SX-73. The
Hammarlund SP-600's that had the R-274 designation were listed as
R-274A/URR, R-274B/URR and R-274C/URR. The full list can be seen at:
http://www.hammarlund.info/sp600.html

How about a photo of what you got?

That sounds probable. My Passport is a year old now and there have been a
lot changes. I saw a listing for Czech Republic aroundt hat time.

The clock circuit uses DC for the active componants but there is a
connection through a capacitor to the AC line to a pin on the clock chip
to sync' it.

Is the ban of domestic programming from US private broadcasters a law or a FCC regulation?  I suppose I should have done my homework on this question, but I haven't.

Anyway, I think the FCC is allowed much more latitude in deciding if it will enforce it's own regulations or not.  There's little practical difference between the FCC deciding to not enforce a regulation and the FCC overturning their own regulation.

Ok. Yea that would have been a rare one allright. It's either a SP-600 or a SX-73. The collins R-390, 388s etc used the URR designation and other radios but I've never heard of a R-274 under that. I'm just going on memory so I could be wrong.

SD,
 .
REMEMBER : You Can NOT Solve All RFI/EMF Noise Problems . . .
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/2133
 .
INTERNAL HOUSEHOLD NOISE SOURCES VIA HOUSE WIRING:
Buy a bunch of Clamp-On/Snap-On Ferrite Cores and go
around placing one on each Electrical Appliance very
close to where the Power Cord comes out of the Appliance.
As you do this to each Appliance {one-at-a-time} use your
Radio(s) to check for any resulting aparent RFI-EMF Noise Reduction.
- - - Start First by "Placing" Clamp-On Ferrite Cores on
the AC Power Cords of Every Piece of Equipment in the
Room that you have your Radios in: Your Shack.
HELLO - I Will Repeat Myself : Every Piece of Equipment
in Your Shack.  For both my Grundig Satellit 800 and Icom
IC-R75; which use External Power Supplies.  I use a
Clamp-On Ferrite Cores on the AC [Input] Power Cords about
6" from the AC Power Plug.  Then I also use a "Donut"
Shaped Ceramic Magnet on the DC [Output] Cord about 6"
from the DC Power Plug.
NOTE - These Donut Magnets can be bought at RadioShack
and 'look like' a 1"x1/2"x1/4" Ferrite Toroidal Core; but
they are Ceramic Magnets.  aka: Refrigerator Magnets
TIP - If you buy/use the big Clamp-On Ferrite Cores;
after the First 'pass-thru' you may find that you can
Loop the Power Cord around for a Second 'pass-thru'.
Keep this Loop small and close to the Body of the Ferrite
Core.
Use a Plasitc Cable-Tie if need to hold everything together.
 .
EXTERNAL POWER LINE AS A NOISE SOURCE:
If you are having a problem with Noise getting into your
Radio Equipment 'via' the Power Lines.  You can "Isolate"
the One Circuit that feeds your Equipment and 'install'
individual Feritte Cores on each Leg of the service (all
three wires).  NOTE - This can be done inside the Outlets
Electrical Box and/or at the Branch Line to that Outlet
at the Main Power Panel by a Licensed {Qualified}
Electrician.  This depends on many things.  Your House
and its Wiring. Your 'ability' to do your own Electrical
Wiring to Code; or your need to have it done by a Licensed
Electrician.
How To - Basically, If you have all your Radio Receivers
in one Room and the Electrical "OutLets" in that Room
are on One Circuit.  Then you go back to the Main Circuit
Breaker Box and 'follow' that "Circuit" out to a point

where you can install a Metal Electrical Box.  You place
your Ferrite Cores in this box.  One on each of the Wires:
Black, White and Green.   Please Note:  This can be a lot
of work.

.

.

Don't Forget Your Telephone Lines and RFI/EMF Noise
http://groups-beta.google.com/group/rec.radio.shortwave/msg/5012ca0a5999d04c

.

Use Clamp-On Ferrite Cores on your Coax Cable Feed-in-Line.
http://groups-beta.google.com/group/rec.radio.shortwave/msg/03552b915a33481c

Where your Antenna Wire connects to your Coax Cable;
Or where your Coax Cable Connects to the Matching
Transformer Balun/UnUn/MLB install a Clamp-On Ferrite.

.

.

REMEMBER:  You Can NOT Solve All RFI/EMF Noise Problems . . .
But You Can Eleminate The Big Ones - And That's A Start :o)

.

.

THE [HIDDEN] FERRITE CORE IN YOUR ANTENNA,
GROUND AND COAX CABLE FEED-IN-LINE SYSTEM.
At the Heart of your Matching Transformer : Balun / UnUn
/ MLB is a Ferrite Core that can help solve many of your
RFI EMF Man Made Noise Problems.  Taking a 'second look'
at the Antenna Wire to Coax Cable "Connection".

.

IMHO - The best was to make the Antenna Wire to Coax
Cable Connection is to use a Matching Transformer Balun
UnUn or what is called a Magnetic LongWire Balun.
+  These devices make the Electrical-Mechanical (Joints)
Connections between the Antenna Wire Element; the
Ground Wire; and the Coax Cable Feed-in-Line.
+  These devices also help to 'match' the "Impedance" of
the Antenna Wire Element to the Coax Cable Feed-in-Line.
+  These devices provide a "Direct-DC-Ground-Path" for
any Electrical Discharge pasted through the Antenna Wire
Element to earthen ground.

Henry -

This is definitely the "Hallicrafters" SX-73 version of the R-274. I've had a couple of these pass through my hands and have one right now. But yours seems highly modified. Also, I have never seen the front panel painted with the color yours is - Does it appear original? The two additional knobs in the upper left hand corner are new - On "normal" SX-73 models, there is nothing but a channel tag there. Also, I notice one of the toggle switches is labeled, "calibrate" when on the standard SX-73, it's a switch for the Automatic Noise Blanker. Finally, I notice there is a "notch" adjustment in the middle on the lower rows of knobs - on the standard SX-73, this is a Crystal Phasing adjustment.

Yours is quite a rare find, indeed - I have never seen one like this. The scope of modifications would suggest these were not home brew modifications - if I'm wrong, whoever did it was highly motivated!

Now, would you be interested in parting with this unit :-)?

Enjoy your find!

Most of them Mil (Military) Radios are different.I know an old guy who goes around and buys things to resell to help keep the wolf away from the door,so to speak.A few years ago,he had a Russian Ship Radio and a England Radio for sale.He was asking $50.00 for the Roosky Radio and $30.00 for the Limeyland Radio.Why I passed on both of them Radios,I have no idea.I think I am fixin to phone that auld fart over there at Southwood Apartments on Elton Road and see if he (Charles McKeithen) has something I need to buy from him.

Those are pretty nice as workbenches.

What about radio consoles?  With the ability to rack mount radios and video
displays?  Something like what you may see at a commercial HF utility
station or like NASA's Houston Control.  An ergonomically angled rack mount
vertical panel surface and a flat desk workspace in front of the panel?

First, they weren't in a concentration camp.  Those were for people who the nazis didn't like. They were in a prisoner of war camp, which at least had the benefit of being run under the rules of the Geneva convention.

Since it was an exaggeration of the situation, there is no limit on what would be in the radio.  It's been years since I saw the show, but I remember no indication that they were working with primitive equipment.

In reality, POW camps were not restricted to crystal radios.  I gather that even before the war began, the British started preparing officers for capture, and the Red Cross packages were designed to help them escape.  Luxury items were chosen to bribe the guards, that scene in The Great Escape has truth to it, and items were sent in the package that could be remade into other things.  Plus, useful items for radios were outright smuggled into the camps in the packages.

Yes, most had nothing more than a crystal radio.  But some camps had full

```
blown receivers.  And one POW camp had a complete transmitter, which was
never used but ready in case it.

Given that the camp in Hogan's Heroes was practically a spy ring, I would
expect that arrangement would have been made to bring them a proper radio
and other supplies.

  Michael

My wife never had to work for my hobby.  Before we married we discussed it.  I had been a ham for years before we met.  I told her that I was an Amateur Radio Operator for years before we met and I would be one long after she's gone.  If she couldn't accept that, she would have to move on.   Likewise, I never tried to discourage or change things about my wife.  Those things a person likes and dislikes, or their hobbies, etc, are part of what makes them the persons they are.  I believe that if we take those things from a person, there will be a hole in their life and they will no longer be the person we met and fell in love with.  Of course, it is different if that person changes hobbies, etc. on their own, but it is not good to take it from them.

To include in their budget, support for each other's hobbies is not a bad thing, but to break their budget over any one hobby is not a good thing.  My wife never went hungry because I bought a radio.

To answer my own question, the diodes are 1N914 or 1N4148.  I emailed the author of the article and he was kind enough to write back and give me a detailed explanation.  I believe he's using a 2K pot.  I'll probably put a 10k pot in series with a 1k resistor and take it from there.  I appreciate your advice.  Now I have a pretty clear picture on how my "Gizmoe Box" will work.

GO PATRIOTS!

Hey...I thought that earlier this year he was outed as your father. Or, if he prefers, you were outed as his son. Or your mom was outed as a whore. I don't really remember. But the relationship definitely was of a different sort.

Look at that! Beerbarrel says "ding dong", and a ding dong shows up. I
wonder who would have turned up if he'd said something like, oh, "Fuckwit"?

Probably the same guy.

Boy is Bush good.  In his second invasion he is in the business of helping
create a whole new crop of terrorists that'll keep his kind in business for

many years.  And the oil flowing.  He brought freeDumb to everyone, 'course
it took 40K dead civilians to do it, but that's just the price you gotta
pay.  Gas up that SUV! And don't forget to execute a few mentally retarded
criminals and children back home.  And tell 'em all God is on your side.
As if.

Yeah, but half of them come in umop 3p!sdn and you end up reporting
8986 as 9868.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept

Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

Wyle used to manufacture these, BUD makes them also though I have't
seen the style you are speaking of.  Find some aerospace company that
is having a surplus sale and you're likely to acquire one.

I'm not sure, but I'm guessing it'd have to come from beerbarrel. Sort of
like mating calls, they have to come from the same species. Most likely Homo
erectus in this case.

If you look on my web page, you see the same diode protection circuit below the neon bulb one. Same diode recommendations. The attenuator in the wd8das circuit is the same also. They are just shown, in this case, separately. The pot he (wd8was) has on his schematic is specified as 1 to 10K. Anything in this range will work. The higher value will give you finer control. The 10K pot in series with a 1K resistor will not work well. It will just limit your attenuation range one way or the other, depending on what side you put it on. If you were to put them in parallel, you would simply be reducing a 10K pot to a 909 ohm pot. The neon bulb circuit does have advantages. The bleeder resistor constantly bleeds static keeping at a low level as opposed to the diodes that have to reach a certain level before they conduct. The neon bulb fires more often than you might imagine. Build it with the bulb

exposed and watch. You could, of course, do a variation. Build the wd8was
circuit and put a bleeder resistor before it. None of this stuff is new. You
can see that there are variations. You are not stuck with one design.
Whatever you do though, make sure it is of sound design.

TITLE: "Jesus Jr. - The Country Western Christ"
ARTIST: The Cab City Combo

(What can be said about a bunch of old puds that continue to mock classic rock and roll and anything else that occurs to them? Are they WHAT AMERICA NEEDS NOW? Are they THE NEXT BIG THING? Or are they fooling themselves and just wasting everybody's time. You decide!)

Free MP3 download of this song IS HERE!

Lyrics

Jesus Jr! His grandpa is the Lord
Jesus Jr! He drives a big white ford
Jesus Jr! He takes his dad's advice
Jesus Jr! The Country Western Christ

Well he was born in Tennessee
Not somewhere out in Galilee
His dad got his at Calvary
And his mom works at the grocery

Jesus Jr! His grandpa is the Lord
Jesus Jr! He drives a big white ford
Jesus Jr! His grandma Mary's joy
Father, Son and the Holy good old boy

Well Junior takes his name in vain
When folks abuse the passing lane
And at his favorite bar on Main
The only thing he'll raise is cain

Jesus Jr! His grandpa is the Lord
Jesus Jr! He drives a big white ford
Jesus Jr! At least he's not a jew
10-4 Satan, his rig is passin you

Now if his wheels get stuck in mud
He'll part that shoulder like the flood
And when he drives on Easter, bud
His left-hand signal's dripping blood...

Jesus Jr! His grandpa is the Lord
Jesus Jr! got mudguards on his big white ford
Jesus Jr! He takes his dad's advice
Jesus Jr! The Country Western Christ
Jesus Jr! The Country Western Christ

No, it's probably right.  Just remember, figure's don't lie -- but liars will figure.

Think about it -- There are plenty of ways to quantify "fastest growing." For instance, when they went from 10 stations to 11, that was a 10% increase.  So now, when they go from 40 to 41 that's still a 2 1/2% increase.

Meanwhile, if Rush goes from his current 600 stations to 601, that's only .16 of a percent of increase.  OH MY GOD!

Aren't statistics fun!

The funniest thing about this is that "Air America" could be broadcast 24/7 on 1000 antennas and it still wouldn't have the ratings of Limbaugh's show. It's all about ratings, and Air America's are dismal.

How do you expect to be taken seriously on the group with a reply like that? Did it ever occur to you that many here won't bother to help you or answer one of your questions because of rants like that? Just wondering if you ever consider the consequences. I know, you don't care.

Hand cranked generators were common during WWII for powering portable transmitters/receivers. They were similar to an aircraft magneto generator.

The station that you probably heard might have been Radio France Intl from 1600-1730 GMT in English at 500kw beaming to the Middle East areas.

One other thing I forgot to mention............three point tracking of the
RF/Mixer/LO stages. This was done on some of the older higher end portables
that had the metal frame tuning capicators vs the newer miniature plastic
tuning caps. These older style caps had the outer plates in the tuning gangs
split in three or four parts (I don't remember exactly how many). This was
good, because instead of being limited to using the trimmer caps at the high
end of the band and the adjustment coils at the low end of the band, the
middle of the band could be compensated by bending those outer plates to
adjust this section.
Ulrich Rohde discusses three point tracking in his receiver design book.

> Synchronous-selectable sideband reception is a MUST.

I forgot this in my original post. Yup, a low-distortion AM detector of some kind is virtually a must. Notoriously distorted diode detection just doesn't cut it for serious listening. (Besides, the Sat 700 already had synch detection.)

> Should be designed
> at least as well as that on the Grundig Satellit 800.

Quite tricky, given the folks at DEGEN have no experience building synch detectors so far.

> Full passband

Sure, but I've never seen that in a portable.

> Lock must be held as well as on AR7030
> model

That would be great. It virtually never unlocks (and even if it does, you don't notice much since the receiver is still using the very low-distortion product detector). BTW, if synch audio quality were anything close to that on the AR7030 this would be great. I was amazed by how good AM can sound that way. (It's just that the AR7030 doesn't match my usage pattern very well and usually resides in its box. Seems silly, but maybe I'll be able to put up a decent antenna one day, and then I'd be sorry to have sold the thing. It's unlikely to lose much in value anyway.)

> and must automatically turn off when tuning and then re-lock when station is selected.

That would be the standard way of implementing it, I think.

> A good notch filter (with at least 50 dB depth) with range of 0.1 - 5 kHz.

That sure would be nice, but did any other portable ever have one?

> At least 3 IF filters (bandwidths) (preferably 4) of 2.2 kHz, 4 kHz, 6 kHz (and possibly 1 kHz for data/CW);

I don't know whether that's realistic in a portable. Still, a 2.2/4/6 kHz combo would work well.

> operation of these filters should be cascaded so that inexpensive ceramic filters will give much better performance than usual.

However, you can't cascade indefinitely. Passband ripple will mess up things at some point. The AR7030, BTW, uses a 4-element 12 kHz tail filter along with some 6-element ceramics and a high-quality SSB filter (Murata CFJ). If a good SSB filter is not within the budget, cascading the 6 and 4 kHz filters might also work (which would give a caascade of the 12, 6 and 4 kHz filters overall). The 12 kHz might also be useful for DRM or really indisturbed AM reception. BTW, with good filtering present, low oscillator phase noise is of high importance. That's one of the reasons why the AR7030 achieves such good selectivity.

> All shape factors should be less than 1:2.

Actually that's true even of the 6-element Muratas like the one used in the 7600GR.

> Dial illumination via LEDs, perhaps color-switchable (Red, Blue, Green).

Now that would be nifty.

> Dial light scheme similar to Grundig Satellit 800. (Always on or always off with AC power, on for 15 seconds with any button push when using battery power, or always off with batteries, as desired by user.)

This concept does not seem so uncommon, our Sony ICF-M60SRDS also uses it.

Shouldn't be that much of a problem, decent-quality opamps like 5532s
aren't expensive these days, and decent-quality electrolytics aren't
that much of a problem either.

ACK.

That seems reasonable. Now the question is, what norm would the FM ant
input conform to?

I'd consider DRM as a world-wide standard to be more important than DAB.

> Clocks should be RADIO-CONTROLLED

Good idea, but by which time signal station? Making this variable
requires considerably more efforts. (Typically a narrow-band LC tuned
front-end filter is used, which has to be laid out or at least adjusted
differently for the various frequencies, e.g. MSF 60 kHz for UK folks,
DCF77 77.5 kHz etc.)

Very reasonable suggestions.

I guess most people would already be happy with a *useful* meter that
doesn't read full strength 95% of the time, yet also catches fairly weak
signals and has a pretty wide range.

I don't know whether a metal case would do the sound aspect any good.
Plastic is more realistic anyway.

Isn't that asking a bit too much?

> Excellent sensitivity; a 3 or 4 step attenuator (or adjustable RF-gain

A 2-step attenuator would most likely also do. RF gain was more
necessary in the old days to get SSB demodulation with fairly lousy
detectors right. A switchable AGP time constant/behavior, however, would
be a nice touch.

> All other specifications to be of Drake R8B/AOR AR7030 caliber,

I guess the receiver will be priced at around ~500USD/EUR, so not all of
this will be possible.

> Excellent sensitivity (a 3 or 4 step
> attenuator would be of help).

Depending on how sensitive the thing becomes, either a pre-amp for the
whip (as done in the Sat 700) or a pre-attenuated ext ant input (we
don't want anything to blow on large antennas) seems like the more
likely solution.

Seems like a good idea, though this kind of rig will never be as
portable as a DE105. (BTW, I sure would like to get my hands on a
DE1105. The '105 isn't bad for what it is, but doesn't perform as well
as I'd like. And since the '1105 isn't a lot bigger, this seems like the
perfect model to upgrade to.)

That would be great indeed. At the very least there should be some way
of obtaining service docs at all.

Henry,
be extremely careful when cleaning or working around the finger contacts on

get mashed pretty easily.

Please reply with your comments about the movie.

This video hosted by Dr. Maurice Rawlings,
a noted cardiologist, investigates life after
death and his experiences with patients
that actually saw 'the other side!'

Good point.  I like SR5 even better and it's now free:
 http://www.ar5.ndo.co.uk/ ...........

I tried that one out...Not bad... One neat feature is
the "draw a filter" capabilities. You can draw a
passband filter with your mouse, up on the top
filter bar, and it adjusts in real time as you shape
it. "not counting the slight delay most all puter DSP's
have from the input... Pretty kewl...
IE: Wanna midrange peak, just draw it, and you can hear
the filter change as you draw it.
Wanna CW filter with 400 hz width? You can draw it in a
flash, and it's instant on....Another worthy entry to
my DSP collection...:)The only thing about the puter DSP's
I don't like is the slight delay..It's no problem for just
listening, but it's a royal PIA if you are working CW, and
need to hear your sidetone in real time. So to use the dsp,
I have to either cut it off when sending, or use a stand
alone sidetone for the keyer...  MK

I read what the liberals are saying these days and I'm sorry but it is all about them getting back power even if they have to take positions against people gaining their freedom.

Liberals do not appear to support free speech either these days unless it is calling the people that died in the world trade center nazis.

<http://story.news.yahoo.com/news?tmpl=story&cid=533&ncid=533&e=7&u=/ap/20050206/ap_on_re_us/speaker_protest>

Liberalism is insanity these days. This guy is typical of left wing thinking.

I liked the 'UT-106' DSP-option from the Pcr-1000 for its automatic
multi-notch only. This unit also works in the Icom 706 TRX-series

That *is* the icom DSP that is in the 706..
Some other icoms too...
That was an option on the 706mk2, and standard
on the 706mk2g.   MK

No, I would much rather keep an eye on the enemy rather than ignore them.

Trolls will not stick around if ignored. You are and others that respond
keep him around.

Ok, so it's not a Sony 7600. But it's a pretty good performer for $50
(the Degen version sold on ebay, Kaito charges twice that, which isn't
worth it). But conditions are so poor that my 1102 is pretty much
useless for the moment, just sitting on top of my Yaesu tabletop while I
try to hear BBC through all the QRN using LSB. :(

That's very true. The problem is- somebody always responds. If we can all
agree and stick to it, I'll go along.

Why is it that no matter which side of the political spectrum you're on,
everything that someone on the other side says has to automatically be
dismissed as tripe, lies, or whatever?  Wake up folks.. there's both
bullshit and truth on both sides. It behooves us to listen and learn. Assess
and categorize, don't just toss everything that doesn't go along with what
you think you know at the present. If everyone did that, we'd still be back
in the stone age. I'm saying this equally to liberal and conservative.

The ONLY reason that free, over the air TV and radio is being phased out for pay services is that subscription TV/radio is more profitable for the NAB, which runs the FCC. Once again, the regulators get caught in bed with the people they're supposed to be regulating. Of course, conspiracists will note that subscription services are easier to control for government propaganda purposes, but I still suspect that the main factor is MONEY. Who WOULDN'T want to force one's customers to subscribe (BIG $$$) to a service which could previously be picked up free with an inexpensive receiver? Apparently advertising dollars aren't enough for the media services, they want hefty subscription fees too.

I agree and I don't think anyone with a brain is completely liberal or
conservative but when it comes down to the war or abortion etc, etc,etc...
some things just get you labeled one or the other.

There's a LESSON here you hams and radio freaks.
What happened to this baseball collector can happen to a
radio collector also....and I know SEVERAL xyl's who'd
just LOVE an opportunity to trash or sell off all of her
hubby's "ham radio junk" just to have him pay her more attention..... ; )

---- cut ---

Ex-Wife Auctions Man's $200,000 Baseball Collection
From the News Section of: http://www.voyeurweb.com/main/Main.html

TUSCON, Arizona -- A woman whose husband spent $200,000 on baseball memorabilia took revenge - by divorcing him and selling it on eBay.

The husband, 42, told his wife, 45, they couldn't afford kids or a house, and even took money from her bank account to add (baseball items) to his collection.

The divorce judge ruled she can have the rare baseball cards and caps, and she is auctioning them online, according to news media reports.

The couple had been married for 17 years.
When asked about the auction, the wife said: "I'm giggling."

-- Holy Strike Out, Voyeurwebbers! It sounds like this guy got caught looking at an inside fastball and never even swung at it, hehehe! Meanwhile, his wife managed to knock one out of the ball park. It wasn't just a grand slam, either, it was a 200-grand slam, hehehe! There's also an important lesson in this story, Voyeurwebbers: ***If you're hobby becomes your life ... it's definitely time to get a new hobby***. -- Igor

To tell you truth, I'm not sure I want to know.

No, scratch that. I'm sure I want to not know. Unzipping his pants, sitting down on Blueberry. The voyeurism gets to me as well. He knows as well as anyone that when you tell people not to look, they're going to look. So his last line tells me that he wants us to watch him doing whatever it is that he's doing. Is he in Mississippi or Missouri, the Show Me state? Either way, I'm predicting that his next post will show him to be in a state of denial.

I'm just hoping that the dickies link went to the pants company, and not his favorite porn site. And of course, the visual of his big old double beer belly...urgh.

I drink milk.

And tequila.

But never blended.

Remember how Laverne of Laverne and Shirley used to drink Pepsi and milk? I
never had the nerve to try that. Hey, if we're going to off-topic, why not
go all the way?

And this is one way that spammers get around email filters, by intentionally misspelling key words.

Well lets not read too much into it. Old Cuhooglin's a good old boy. He's
probably just partying it up little. We got room here for everyone.

I'm betting he wrote that stone cold sober. What I shame that when I read

I don't see anyone spouting extreme right wing nut case theories being
paid to speak on collage campuses. Did you check out that link I posted.
This guy is being paid by academia to speak.

Even if the beam is to Canada, and the ads are intended to appeal to
Canadians at least in part, then no law is being broken.

Now I don't want to listen to lunatic religious rants (except for a laugh, maybe during a party after everyone's tired of dancing) any more than you do -- but still it must be admitted that the law itself is absurd.

There's no rational reason why domestic shortwave broadcasting shouldn't be allowed. In fact, it should be encouraged.

Low-power stations operating during the daytime in the 6 and 9 MHz bands would have wide North American coverage (N.B. the almost micropower Canadian stations on 49 meters) and cause little or no interference overseas. These stations could be low-expense operations, too (because they would be low-power and with simple high-angle antennas), which would mean that they wouldn't have to sell their souls to mammon (or gold- or quack cure-hawkers). They could be operated by ordinary folks for a very small investment.

The real reason for the original law (they gave a few spurious reasons, of course) was a desire on the part of large media corporations to protect their big investments in mediumwave networks from competition from lower-expense shortwave upstarts, who could easily have covered the nation with a couple of 50,000-Watt transmitters. Can't have that!

It's the same sort of protect-our-millions mentality that has set terrestrial digital broadcasting back by quite a few years (and maybe killed it), and saddled us with the kludged and dirty IBOC turkey. Can't have scalable almost-unlimited channels! Can't have the 250-Watt daytimer or student station upgrade overnight to an equal signal with WABC! That would be terrible, wouldn't it?

With all good wishes,

Kevin.

This thread is confusing for me.

The only posters that I see are as follows:

1. John, the individual that made the offer.
2. Soliloquy, the individual asking for more info on the Yaesu 857.
3. Ron.

John makes the original post, expressing an intent to trade.

I ask for more information about the Yaesu 857 and what is desired concerning a "very good receiver"

Ron posts nothing, other than a response with the quoted text from John's original post, and nothing more. Being that Ron posts with his e-mail address evident, without the usual "remove so and so before replying", perhaps Ron is simply offering his e-mail address to John so that John may contact him. But Ron also has another e-mail address at Yahoo. Ron has sold some tires in 2003, off an SUV, something about clearance into the garage. Ron is a busy person, and is also selling a Yaesu FRG-100 for $300 (Feb 5th 2005 post). You would not wish to meet Ron in a dark alley, as Ron is a big guy at 6ft 3in at about 285 Pounds.

On the other hand, John has offered the following:
FS new used in box Kenwood MC-57DM MIC

John was looking to purchase the following: Dec 8 2004, 2:31 pm Anyone out there have an 857 they want to sell at a decent price?  Thanks

Also: Please look at my very clean Kenwood 520S, no reserve. Dec 13 2004

The only other thing of not that I can find is that it is evident that John's keyboard has a key that sticks, as he is rather fond of saying:
QUAAAAAAAAAAAAAAAAAAAAAAAK

He should get that fixed ;-)

No Such Thing, ahem, as privacy, or damn little of it.

The Uniden-2021/Radio Shack DX-400 was the only triple conversion
*portable* receiver ever made, AFAIK.

The 4245 would be a real gem with the Sherwood SE-3 sync' detector added
to it.

They might work if you put the ferrite core over the antenna. :-)

There's a guy in Atherton (NorCal) on Ebay who has several auctions for
these cheap little Sonys. Its the SONY ICF-S10MK2, AM/FM. I bought one
and darned if it wasn't easily the most sensitve pocket sized AM radio
of a dozen or so models I've tried. Now the Giants baseball station
comes in loud and clear anywhere around town, amazing.

The FM band was crap, distortion, no stereo, but AM performance highly
exceptional, as the auction shows it's kinda large, but it fits a shirt
pocket OK.

Propagation has been terrible to erratic on many occasions but there have also been many days with very good propagation, so I wouldn't necessarily right off the past six months.

It depends on what bands you use. At solar minimum the lower shortwave bands can be very good while propagation on the higher ones tends to be poor to nonexistant. The downside of this effect is band crowding. The broadcasters have less spectrum to use and must therefore use more of the lower bands.

I think we've reached the point where a good sync' detector is not exactly rocket science anymore. However the problem is designing one that doesn't infringe on someone elses design. That could be a big problem.

Navy survival kits used to (maybe still do) include a handcrank radio,
plus a key, so shipwrecked sailors could send out SOS messages.  I

wouldn't be surprised in B17 crews had similar things.

Shows what YOU know!

**I** turn mine a FULL 360 degrees, so I can get TWICE the number of
stations you get. It's simple really!

Well, I can't say I haven't been thinking of joining it myself, but as the Ace has started sending me flowers, chocolates and frilly underwear, I feel a certain sense of obligation and commitment. I'm sure it's not just a rebound fling after I got dumped by beerbrain.

The Ace has promised me he will be going public with our relationship in a few days. He says he's relieved to have shed the cloak of deception and is happy to be finally out of the closet.

Steve is using tard?

See? That's the beauty of giving YOURSELF a nickname. You get the jump on everyone else! Mind you, if I were him, I'd have picked something a bit less demeaning. Then again, in his case, it probably *IS* a lot less demeaning than the other options.

Yeah, I'm single and that's one of the many reasons why. Marriage is for
suckers IMHO. It used to mean somethng many, many years ago but womens
mind set have changed to much it isn't worth it now. I've seen FAR too
many marriages go down the toilet for my money.

I found out what was going on here.
There are quite a few variables that happen when tuning the radio.

1] Tuning rate changes with speed of dial rotation

2] Tuning rate changes yet again for some other modes

3]  Lock can get lost or shift when changing even in other AS modes.

So at first it looked to me like something was wrong. After using it for a
while you see the pattern. All in all I think it's a nifty little radio.
A real novelty item for sure too.

BTW

I remember I asked how much an original Lowe keypad for this radio went for.
Well take a look. Almost $71. I really feel I got a good deal on mine for
$500 since it included the keypad, USA power supply and batteries/orig
manual. The last 150 sold for $465 with no US power supply and no keypad.

A guy walks into a bar, sits down. Tells the batrender "A round of drinks on me!"

After getting hs drink, the fellow next to him asks "What's the occasion Pal?"

"I'm getting married tomorrow! Now I'll be able to get laid any time I want!!"

The other fellow says "Funny, but that was the reason I got divorced!"

thanks everyone who responded.  the phrase "nebulous improvement"  that Joe used to describe the benefit the modifications would have seems entirely accurate.  Another correspondent in a private message described the noticeable benefit accruing only to those with "golden ears."  Often we fail to recognize the simplest solutions, which is what I did here.  An external speaker did not occur to me until I read the replies.  This is an easy and inexpensive improvement that will offer quite tangible results.  This is certainly something I will do.  I am also exploring the AM filter issue and will likely replace it.  Thanks for all the help and sharing of experiences. As one of the posters said "if it ain't broke, don't fix it." applies here too.

Radio Finder was a vintage/ boatanchor dealer by the name of Joel Thurtell.
He had a website for several years and now it's gone.

I use a Icom SP-20 speaker with my R-5000. It has audio filters that can be

As Cinch turns the crank, there is a 'slider' moving inside of coil (probably a primitive crystal set for receive only).  You would expect that being in a concentration camp, their radio would be make-shift at best.

Are you talking about Thurtell????

I think he's on ebay now selling 16-pill amps and echo boxes.

Seriously.....think about it.  Before ebay, he was almost a "sole source" for clean, collectable boatanchors.  eBay most likely did him in.....ebay empowered the average joe to present his own equipment to the world rather than succumbing to selling to a "reseller" that had all the appropriate connections unavailable to the the average person.

The person who spent $71 on the keypad got a lousy deal if you ask me--unless of course the point was simply to have have it as a 'collectable'. For $79.95 he could have purchased a remote control for the 150 that has way more functionality than the original keypad:

http://www.swl-remotes.com/pages/22/index.htm

I bought one of these things for my Drake a while back and have been loving it. I'm one of the few people around I guess who doesn't like having their receiver hooked directly to a computer. At the same time, I don't like having to sit right in front of my receiver all the time in order to tune around. The remote is very liberating.

Steve Quayle, doomsayer extraordinaire. Sooner or later, one of his "prophesies" will come true. Not bad, 1 out of 10000 (maybe). I was especially amused when he began predicting global problems with earthquakes, problem is that he waited until after the Tsunami. Go figure. He still advocates buying gold, (he just happens to sell it) despite the general cadence of the show indicating that the world is coming to an end shortly.

I can actually listen to some of his shows. He periodically has an earthquake expert on the show. The guy seems somewhat reasonable. I was impressed when the expert had been on the show, and the question had arisen about the water in some listeners toilet that the listener claimed was spiraling in the wrong direction after the Tsunami had affected the earth. The expert correctly stated that toilets are not affected by the Coriolis force, rather the water rotation is a factor of design.

http://www.usatoday.com/weather/resources/basics/coriolis-understanding.htm

On the issue of toilets, have you ever seen the American Standard Toilet where they flush an abundance of golf balls (they don't offer the golf ball video that he saw, but they do flush other items), and other non-fecal matter to demonstrate its effectiveness?

http://www.americanstandard-us.com/plandesign/performance/BestFlush/best_flush.asp

Apparently his daughter is famous for clogging the toilet by the usual product that one expects to discharge into the toilet, fecal products and toilet paper.

Anyway, he came across the toilet series listed above and viola, no more problems. He says that it completely flushes in about 3 seconds.

Now don't give me any shit about this being an "awful topic post".

wbai.org streams on the net.

Also hear old Shep shows at Max Schmid's web site.

http://www.flicklives.com/Mass_Back/mass_back.htm

I see there is a link to order Bergman's book  on that page.

(now financial relationship to Shep, Max. or Bergam.)

Thanks, I'll be extra careful..
I uploaded several more pix to abpr showing the mfg date, label, filters,
filter subassembly and view of the chassis from below.  The bottom cover
plate has 27!! screws.  Any other info appreciated.

I can get it clearly, too- but I am hearing Morse letters H H G repeated over and over - or is that something else? (I admit to almost zero knowledge of beacons).  It is clearer on 419 here.

I've been watching Hogan's Heroes reruns and in the beginning they show
Kinch operating some sort of radio. He's shown turning a crank looks like.
What sort of radio could that be?

If it's secret, how do you know about it, and why are you subjecting
yourself to possible prosecution for treason by posting it on the internet?

Oh my God.

If it's Scotch, it's distilled in Scotland. Why we would we pay extra to have it imported to the states through Cuba when we already have it imported here directly?

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed

to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

## Jew Boy Johnny and the anti-Semites

- or -

## "The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching.  I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community.  She told me that she would likely, none the less, have to let me go to appease the sole complainant, for what if a lawsuit should result?  I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good.  She told me she was very busy, and said goodbye.  Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast.  I said sure, said it would be a great challenge, and proceeded immediately to do just that.  The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it.  It wasn't the apology the station was looking for, and my show was now officially terminated.  I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast.  She said she would try to get the letter to him, but that the show was over.  Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns.  Who has the money or the time for a frivolous lawsuit?  Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right?  Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton?  Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know?  Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach.  If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

Greg Felton :  "The fear is necessary for two reasons.  And the principle reason has nothing to do with Iraq.  it has to do with the government itself. The bush government is criminal.  [...] The problem is:  how do you keep people from paying attention to this?  You keep them focused on an external enemy.  [..] so they forment this fascistic hatred of a definable group of people.  So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave:  an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st.  (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview.  Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast.  So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance.  I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others.  But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means.

Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder.  End of story.  That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise.  Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others.  Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries.  That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith.  To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening.  I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names.  Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example.  Or, are you too, a convinced denier of that which is fully documented?  (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy,

or for justice regarding the People of Iraq to be served in our true interests as legitimate. More than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the "forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer.
Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence

to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior.  All according to his official publicly documented plan.  And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even.  Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of.  Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter.

Because the unjustified criminal war actions of George W.  Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence.  So, now who's fault is that?  We live in difficult times.  To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other.  Hillel was asked:  Rabbi, who is a Jew truly?  Hillel answered, "What is hateful to you do not do to your neighbor.  That is the whole Torah.  The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith.  (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly.  After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought.  And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say.  While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities.  Who are you I truly ask?  How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara?  The Jews of Fallujah?  The torturing of completely innocent People to death, as in Guantanamo?  Or still unaddressed publicly:  the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq?  (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law?  [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world.  Or, if you prefer, you can do a solo written piece, or a recorded statement for the station.  I look forward to finding common ground with your concerns.  I hope I have got you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really.  In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

John.

## The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America to the last bush supporter praised if need be. I fight the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N.. Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to negotiate with anyone, (because as so was openly confessed, Sattler had no evidence that Zaqari was in Fallujah) then leveled the city to kill all it's inhabitants, estimated at that time near 300,000 people. Using a napalm type WMD, cluster dud land mine munitions, and as reported, nine two thousand pound bombs in a city 3 1/2 km by 4 km. Serving for a military not strong enough collectively to prosecute such lawless criminal barbarity, is serving for a military not principled in the American virtues of freedom and democracy. In truth, serving for such ungodly criminal command is a cowardly act of treason. George W. Bush is an enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

Kind of like how WBCQ is located in Maine and is ostesibly beaming its

You missed my point- they are no more useful at preventing brain cancer than
is the "antenna enhancer" card for extending cell phone range.

Hi John A.

1. Define "Very Good Receiver"
2. Please describe the condition of your unit, listing: age, scratches, malfunctions, missing parts (Microphone, Instructions, etc.)
3. How did you come to possess it. (i.e., bought new, bought used, result of a trade)

http://www.eham.net/reviews/detail/3046

Apparently there are 11 pages of reviews of this radio on E-Ham. Although many people hold it in high acclaim, others describe problems and confusion with the use and operation of the unit. The reviews include the Yaesu 857 and 857D. The information in any particular review may not be applicable to this model.

112 max seems a bit tight to me. Even with frequencies up to 15 kHz
only, the maximum should be the equivalent of ~200 kbps ABR/VBR from a
CD (around 160 or so?). Noone has to use that, but the recording from a
high-quality station at maximum quality should be indistiguishable from
the original even using good headphones.

> -max 20 kbps for AM

A selection of 16, 24 and 32 kbps seems reasonable.

> It can be useful if common flash (removable) memories will be used

Yup. Since size is not an issue, I'd look at CF. Stuff in a big
Microdrive or similar and record forever and a day, plus potential
incompatibilities are minimal since CF cards have their own controllers.

> What about adding VHFII band? ( 150 -180 MHZ )

Hmm, what's that used for? It would most likely require a separate
frontend since you can't expand FM band coverage indefinitely.

That sounds like the voice of experience. So...when you drink a lot of
Scotch, do you start hugging other men? I guess I'll have to stick with

Now that would be fairly huge. Sure sound could be very good, but portability really suffers. I'd even have trouble fitting such a beast on my desk or nightstand. It would, BTW, be advisable to use the largest speaker that fits the case (unlike the '800, which only uses a 10 cm speaker, a joke given the size of the thing).

It might be aeronautical traffic on that frequency; listen for their ID, if they are broadcasting weather conditions they may ID themselves as "New York Radio". If they are managing air traffic, you may hear them ID themselves the same way, and be directing aircraft to change direction or altitude, taking check-ins from flights or giving approach control frequencies or giving other SW frequencies to use to communicate with other air traffic

control centers. I don't have my radio on at the moment because I have the
computer on, but a quick check did not show anything at the moment.

I heard some good reviews on here from people, then I got one and it
stinks. I thought I got a bad one so I sent it to the manufacturer
(kaito usa) and they said there was nothing wrong with it. Enough
said.

A few things............either a broad band or tuned RF amp ahead of the
1st mixer. A tuned RF amp affords better image rejection, especially with
single conversion receivers that have only a 455kHz I.F. amplifier. I.F

coils and antenna coils wound with Litz wire are also helpful. A selective I.F. strip, using either Litz wire wound coils or ceramic filters are good. FETs in the input stage are good for cross-modulation rejection. Good audio amplifier etc, etc, etc.
I hope this helps.

Stooopid. I am looking for an Amish family to adopt me. America is being flushed down the shit tubes, elections are rigged, jobs flow overseas faster than the water from Lake Erie over the Niagara Falls, moronic "reality" shows dominate the television, and we continue with the asinine skits such as this one. I would have thought that it was funny at one time, but endless laughter is indicative of a deranged mind.

We, as Americans, continue laughing, even though 1400 dead American soldiers in Iraq have stopped laughing, Tens of thousands of Iraqis have stopped laughing, 150,000+ Tsunami victims have stopped laughing, but we go on and on laughing like some kind of idiotic stuck record. We are laughing ourselves into oblivion, under the influence of some amorphous and undefined societal nitrous oxide. As Americans, we worry about the important things, like whether Ford or GM trucks are better, or who will win the Super Bowl, or whether the officiating during a particular game was fair. We take pride in the deprived products and creations that ensue from American minds, the latest in modified Sawzall sex toys, or the newest show that is supposed to outdo the vulgarity of South Park.

I realized the other day that we, as have the Native Americans, have been bought out by golden trinkets. We have gleefully given up our dignity and rights in exchange for easily obtainable internet porn, cheap DVD players, SUVs, TVs, etc. But the Amish, in shedding any significant contact with the Government, have seemed to at least held their own. Simple lives, perhaps, but why not? They have kept their allegiance with God, Family, Friends. Sure, they seem backward to us, shunning those of their own kind that deviate too far from the "norm". Believe it or not, some of the sects are more liberal than others, so the norm does vary from area to area, but overall I think that they have done a better job holding their society together than we.

Soliloquy.

I should have known you jump on that one. Well, you've got a better shot at
that than seeing me erectus than seeing me homo. Not much better, mind you.

BTW...how do you know I'm not some overweight, loathsome, hirsute slob?

Or do you love me for my mind?

Actually the water rushing over Niagara Falls is from the Niagara
River,  fed by Lake Ontario, and flowing into Lake Erie.

So actually, he's right. Jobs -are- flowing overseas faster than water from
Lake Erie is going over the Niagara Falls. ;)

I gather a lot of spy equipment was battery operated, or ran off the
AC line.

The real puzzle about the equipment in Hogan's POW camp  should be
how they weren't tracked down every time they transmitted.  Since it
was a fixed location, it would be much easier to direction find them than
if they moved each time they transmitted.  If the germans didn't catch
them one time, they'd have the generally area and each subsequent
transmission would help to pin down the location.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!
Internet Evangelist R.L. Grossi

Howard, you can't be this stupid, can you? The problem with so many people on this NG is that they won't even take a minute to research the details before they write. Just as I have said, we essentially are all becoming morons. When a large percentage of American kids can't even find the U.S. on a globe, we are indeed in trouble. Everybody, including myself, such as my original post, has opinions, but many people offer blatantly incorrect information without making even the slightest attempt to verify it.

Here Howard, I have made it easy for you to see the dynamics of the water flow. You have proven just how stupid people can be. Kindly explain to me how the water jumps up in the air from Lake Ontario to enter Lake Erie.
Putz.

For all you know I was agreeing with you. No matter how you look at what you

said, it could be argued that your statement was correct. If the water flows
as you said, then your point stands although it can be debated. But if the
water flows as Howard said, you're absolutely in the right. And -I'm- the
stupid one?

Of course, the two have nothing to do with each other. But being called fat by netizens that have never seen me has about as much effect on me as being called queer. IOW, none. Especially since I'm neither. And I'm thinking neither are you.

Alright! A competition between you and Mrs. Honus. No matter what happens, the -real- winner will be...ME!

Unless it were a medical condition, yes I could too help it.

(LOL) Laugh out loud, how ironic. Did you intend to be ironic, or was it just the same affliction of which I wrote?

If Canadians had any brains, they would preclude Americans from moving to Canada. Unfortunately, since Americans don't have brains, we allow any sick, diseased, indigent person to migrate unchecked from Mexico into this country.

I trust that you are proud of the degeneracy that has run rife throughout this country? Do you extol freedom of speech when it comes to pornography yet support the non-existent separation of church and state? Is it "just" (as in fair) to say that any artistic expression, regardless how vile, is protected under the 1st Amendment, but that a high school graduating class cannot say the word God during commencement?

Did you know that "Separation of Church and state" are not even in the Constitution? Probably not.

Go ahead, laugh away. Laugh your rights away, laugh your freedoms away, laugh your dignity away. Try your damndest to get amused responses from other posters to this NG, no doubt it will be easy. But what will you really have gained? A nit wit entertaining nit wits.

First off, relax a bit. As to why my statement, I have been there and seen the falls and also checked the map: the Niagara River shows to run between Lake Ontario and Lake Erie and the falls are between the two lakes.  Well, it seems I remembered the direction of water travel backward and I made a public mistake. Had you not been so irate in your response you would have received a public apology.  Perhaps your calling me a putz made you feel better, from the level of vitriole in your posts today sounds like you need a little relief and thankfully I was here to provide it for you.

The auction just ended. Gottahaveit1995 had dropped out at the bidding,
but came back at the very end, hoping to 'snipe' all the other bidders.
However, his final bid wasn't high enough and the 7030 went to someone
else.

I noticed that you simply left your reply as a premise, offering you a way out either way. Take a side, don't leave it dangle. If you feel that it could be debated, it sways the issue to indicate that you actually didn't agree with my post anyway, leaving it open to the distinct possibility that you were unaware of the flow direction. At least DXAce replied (Huh?) under Howard's assertion that the flow was reversed. DXAce goes on to counsel me on a move to Canada.

Major apologies if your post was in agreement with mine. I suspect that it wasn't though, and that you are fishing for a way out of your ignorance.

Did you see "The Princess Bride"?

http://www.imdb.com/title/tt0093779/quotes

Look at this quote from the movie, depicting a dizzying series of logic reversals.

You would have to see the movie to appreciate the following. It concerned a sequence with a supposedly intellectual man. The gist was that one goblet of wine was to be poisoned, the other not. The intelligent man would be offered his choice of goblet, not knowing which one contained the poison.

"Vizzini: Now, a clever man would put the poison into his own goblet, because he would know that only a great fool would reach for what he was given. I am not a great fool, so I can clearly not choose the wine in front of you. But you must have known I was not a great fool, you would have counted on it, so I can clearly not choose the wine in front of me.

Vizzini: You only think I guessed wrong - that's what's so funny. I switched glasses when your back was turned. Ha-ha, you fool. You fell victim to one of the classic blunders, the most famous of which is "Never get involved in a land war in Asia", but only slightly less well known is this: "Never go in against a Sicilian, when *death* is on the line.". Hahahahahah.

[Vizzini falls over dead] "

And look, we are back to laughing again. How ironic.

This is MCW- modulated CW, so you are likely listening to the tone sideband

Hey Howard, no problem buddy. Oddly enough, while watching Sherlock
Holmes the other day, they used the word "vitriol". I knew of its use in
language, but it was thrown onto a man's face for revenge of a similar
crime from years before. (hell hath no wrath like a woman scorned, and it
applied in the Sherlock Holmes episode). Anyway, a quick look to the
Webster's Online Dictionary revealed the following.

Main Entry: oil of vitriol
: concentrated sulfuric acid

You learn something new every day.

KAS,

.
I would have to agree with you that the FCC Shortwave
Broadcasting Regulations are Artificial; and designed
to protect the AM/MW and FM Radio Station Licensees.
.
I would be my preference that FCC require each Clear Channel
AM/MW Broadcaster had to carry non-syndicated 'original'
On-the-Air-Talent / Programming from 8PM to 4AM local time
each night.
http://www.fortunecity.com/tinpan/bluenote/706/namrp/amradio.htm
http://www.fortunecity.com/tinpan/bluenote/706/namrp/freq.htm
.
I would like to see the FCC require that One (1) Clear Channel
AM/MW Broadcaster in each of the 25 Largest Metro Urban
Areas of the USA be required to have a Night Time Programming
SIMUCASTED on a specified Shortwave Radio Band using 5KW
of power and Digital Radio Mondiale [DRM]. They could use their
existing AM/MW Antenna as a simple multi-wavelength vertical
Antenna; or set-up a separate single element Vertical SW Antenna.
.
Designate the 41 Meter Shortwave Band as the USA Nation Wide
{HomeLand Security} Broadcasting Band : 7100 kHz - 7600 kHz
Require all 'new' AM/FM Radios (Home and Auto) to have full
DRM Coverage of the 41 Meter Shortwave Band.
.
It's simple a matter of Public Policy in the National Interest.

Absolutely right - but then you wouldn't have had a hit TV show. Televison/movie/theatre require that you "suspend you belief" as a basic premise most of the itme.  Like Gilligan's Island - as the old joke runs: If the professor was smart enough to make a radio out of a coconut, why couldn't he fix a hole in a boat? :>)

It's all about making money for the stations carrying your

And AAR programming is getting respectable ratings as well,
considering how young they are, and the poor quality of signals they

Talk radio ratings take time to grow.  And AAR is growing them in

Firstly, I happen to know the meaning of the word you use for a handle; I didn't want to intrude. ;) Of course, your speech -was- made in public, so I'll fall back on "secondly", which is this:

I very rarely take sides, especially in such off-topic political pissing matches. Anyone who's been paying attention, however, would note that I -do- make "attaboy" posts whenever I see someone (most recently Brenda) pointing out that there are idiots and well-meaning people on both sides of the aisle. However, if it'll make you feel better, I'll take a position on all of the topics in your first paragraph. Time doesn't allow for further comment. Here we go:

> Stooopid.

Yes, it was. But it made me laugh, at least a little. Pies in the face are stupid, but they sometimes make me laugh as well. Lighten up. You'll live longer.

> I am looking for an Amish family to adopt me.

Now -that- is stupid. That, by the way, is how it's spelled. Spelling it as you did makes you look like an idjit. Get it? ;)

> America is being
> flushed down the shit tubes,

I disagree. We're flushing ourselves down the shit tubes. I believe that's an important distinction. We're responsible.

> elections are rigged,

I agree. I live in Seattle, and I'm living through it as we speak.

> jobs flow overseas
> faster than the water from Lake Erie over the Niagara Falls,

That depends. How do you quantify the two in comparable terms? One gallon per minute of flow equals one job lost? Or one gallon per hour? Or am I at liberty to take this as a figure of speech? In that case, I would tend to agree although I really don't know for sure. I do hear quite a bit on the news about it, but you know how that goes.

> moronic
> "reality" shows dominate the television,

That's one of the reasons that I very rarely watch TV. So, I agree.

> and we continue with the asinine
> skits such as this one.

It was a prank call from a radio station that got you overly wound up. It did lean towards asinine, but so what? I'm about to watch an old silent Keyston Kops movie with my little girl. Bite me if you disapprove.

> I would have thought that it was funny at one
> time, but endless laughter is indicative of a deranged mind.

I'm pretty sure that the recipient of that call isn't laughing anymore, and so I'm not worried about his state of mental health. Sometimes things strike me as funny, and I laugh harder on those days than I would on others. BFD.

There you go. Are you happy now, or are you that desperate for some more "support" that you want me to go through your entire post? You'll have to wait...I'm going out for dinner. Mexican food, too. Hmmmm.

> If you feel that
> it could be debated, it sways the issue to indicate that you actually

Oh, I absolutely had and still have no idea where the water that goes over the falls comes from. It's part of the Great Lakes system; that's all I know. My comment was a joke, and it was meant to be taken exactly as I explained it to you. Either way you cut it, based on what the two of you said, you could still be correct. Even though he was correcting you, he wasn't necessarily correcting you. It was an excercise in irony. And for his edification, I wasn't busting his chops. It was a joke.

> At least DXAce
> replied (Huh?) under Howard's assertion that the flow was reversed. DXAce

Don't lump me in with him. You've already called me an asshole, which was wholly unwarranted. Don't compound your offenses.

Well. I hope my position is clearer now. I gleefully admit my ignorance on this point of geography; it's peripheral to my point.

> Did you see "The Princess Bride"?

Watch it all the time. It's one of my wife's favorite movies.

> http://www.imdb.com/title/tt0093779/quotes

<snip of one of my favorite parts>

I really liked the part where Inigo finally meets up with the man who killed his father. The Count Rugen's reaction to Inigo's challenge busts my family up everytime. And of course, the repartee between Andre the Giant and Inigo throughout the movie is priceless. It'd be an -awesome- movie if they had a hotter chick in it playing Buttercup, and if they'd used some other actor for the role of Wesley. Everytime I see that guy, I get this unreasonable urge to just bitch slap him. I don't know why.

> And look, we are back to laughing again. How ironic.

Which brings us right back to the skit...some people think it's funny, some don't. I think that for all of your points, you read too much into the phone call. If it was just an excuse to vent about some things, as I suspect, you didn't need it. Just vent. Everyone else around here does.

Glad you used the term buddy, was beginning to think my erroneous
response ignited "Usenet War MCVIII".  I shouldn't have relied on a
long ago memory and a map, or at least looked at a topo map which
would've given me the right answer.    Anyway, it's off to see at
least some of the Superbowl so the Committe of Un-American Behavior
doesn't start chasing after me.  Heard part of an interview with "Sir"
Paul McCartney the other day during which he indicated we need not
worry about any "wardrobe malfunctions" during his half-time
performance 8-}

See ya in future posts,
Howard

Snip!

Dickheadtionary Definition:
```

GODERRHEA (noun)

A mental venereal disease characterized by a dickhead oozing his/her religious dogma in endless dribbles on Usenet. As with the clap being cured with a good shot of penicillin, so can "the Crap" be cured with a good shot of a .357 magnum, directly to the dickhead's head. Repeat as necessary. If sysmtoms persist, shoot again in the morning.

You are certainly an exception and up to about 20 years ago marriages
usually worked. But you folks know as well as I do how many shit the bed
in the past 20 years. You all know PLENTY of them.

I hope it lasts 20 more.

Thanks. I understand your attitude. Don't give up though. It really is cool
when you find the right one. If you do get lucky, make sure you /she or
somebody can cook. The first thing to f--k up a home is bad food!! ;)

Yes, but it doesn't work too well compared to other brands like Drake

No, it isn't.

Yes, there is.

Can't have that!

You know that is BS. That law is older than both of us. It was put in place long before any "large media". The sole purpose was to PREVENT large media from controlling the airwaves. It was thought that it would be far more beneficial to have small, reasonably local stations that would reflect the view of local communities and provide a voice for differing points of view. It is the same reason that you need federal approval to buy a media outlet such as radio stations, TV stations and newspapers. It was thought, and they were correct, that diversity of views was a good thing and having a few giant companies controlling the media would be counterproductive. You are right in that the FCC seems to be more and more attracted to the money but that is a relatively recent thing, counter to the old rules under discussion.

Not sure about your situation, but I know we get hit for the same sort of stuff when it comes the other way via courier. I got hit once and since then make a point of checking the shipping method. Post Office seems OK with a $5 (at least that's what it was last time) flat fee.

Couriers add a variety of charges just for crossing the border. They don't seem to advertise it, but if you ask they are quite willing to list the charges which seem to be based on a percentage of the value of the shipment in my experience.

I have an HP computer which HP US is quite prepared to service, but absolutely will not have anything to do with shipping it across the border southbound; so I assume it is common practice.

Feel free to forward this post for publication consideration.

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

would you stand tall and strong? Or would you turn and walk
away?"

## Jew Boy Johnny and the anti-Semites

- or -

"The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

John.

-----------------

http://radio.indymedia.org/uploads/big-package.mp3

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means. Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter. Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

John.

## The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America to the last bush supporter praised if need be. I fight the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N.. Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond

recognition. American soldiers were put in harms
way to be sacrificed for no better good, but for to
allow as has happened, the misappropriation, or as
some have alleged, the criminal theft of Iraqi
resources, including monies of the Iraqi Development
Funds through Presidential decree 13303. Which
include the unappropriated, desperately needed,
humanitarian aid provisions still denied innocent
Iraqis, such as potable drinking water and food
stuffs. Democratic principles are DENIED the
Iraqis by the neo-con military forces, such as holding
all individuals equally accountable to a rule of law.
The outlawing of torture, or the outlawing of false
imprisonment has not been professed as the action of
the neo-con "liberating" force. Mercenaries are not
obliged to obey any laws for example. And, "Dr.
Germ", and "Dr. Anthrax" are held solely for the
fact that they know of the scientific hazards of
depleted uranium, and may have warned the
uninformed sacrificing American GI, if not held
illegally against their wills by the enemy.
Commanders such as irrational war criminal
Sattler, forbade all men and boys between 15 to 50
from leaving the city of Fallujah, while refusing to
negotiate with anyone, (because as so was openly
confessed, Sattler had no evidence that Zaqari was
in Fallujah) then leveled the city to kill all it's
inhabitants, estimated at that time near 300,000
people. Using a napalm type WMD, cluster dud
land mine munitions, and as reported, nine two
thousand pound bombs in a city 3 1/2 km by 4 km.
Serving for a military not strong enough collectively
to prosecute such lawless criminal barbarity, is
serving for a military not principled in the American
virtues of freedom and democracy. In truth,
serving for such ungodly criminal command is a
cowardly act of treason. George W. Bush is an
enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

## Can I Get a Witness?

"It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. ## Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment, and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law. God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer.

For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

## Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater

reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command.
Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege. So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art

Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy

corporate "celebs", talk freely about their pride in
such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best intentions, for I will perhaps not receive another chance to publish, if as usual, the Internet community at large extends me little support in my UNCHALLENGED assertions on who truly committed the crimes of 9/11. A single bushite corporatist sends a complaint to a Internet provider alleging I talk "spam", therefor, without any hearing, private owners are threatened to lose their privilege to communicate, by an enemy bushite protagonist who exercises his "authority" by stating only, "spam", and not even providing my actual post in it's entirety. One Internet service was shut down for the sole reason that discussing George W. Bush as the 9/11 perpetrator in tx.politics, was against the rules, for such subject material must be confined to only a American nation political forum. I talked to the kid on the phone who made that power decision on behalf of all usenet, and let it be known, he knows what he's doing. But "they" can't do this everywhere. I can not "take over" your big old lonely world that you must work to protect for yourself as an equal citizen sworn to freedom. I have written all I need to say about Justice and Freedom, and if the human race can not still find enough care for themselves to propagate my writings for others to read, or demand Art Bell be removed to allow Johnny Wizard to debate the ungodly dumfuk bushite vermins, there truly is no hope for US continuing.

The People of the world, look, see.. bushites are murderous liars, cheats, and thieves as the enemies of America, who even lie to THEMSELVES on how many have been sacrificed to blood the coffers of the American pension thieving war monger bushite 9/11 cancer. A liar nazi bushite commander would sacrifice his nation, along with own family, before saying a word in defence of our freedoms, our humanity, or our God. COWARDS. American nazi bushite commander gets killed american nazi bushite grunts, in dreams they too, can financially profit off the talentless continuing THEFTS for enslavement to sacrifice themselves as fascist tyrannies. Hmmm. but the nature of American freedom, is to be one as everyone being equal scores. "Gee, maybe some day even you could be Presidential."

Weak intellectually, prone to cuss, the bushite nazi dumfuk, is a worthless piece of crap.

/ / I have the impression that there are no other words except "fuck" and "shit". Each communication, each order is accompanied by a flow of 'fucks', 'shits' and 'bullshits'. I look at Americans with a pity.

Among the "colored-skin" GIs "Latinos" are largest group, then Africans and semi-Africans. The officers are mostly whites but there are also blacks... But I cannot understand at all, why the US Army soldiers speak broken English!! \ \

/ / During the five days, while the count was yet conducted, more than three thousand wounded passed through our hospital. These were the people who lived nearby. The people who could be delivered to us. Nobody knows how many people in the city are dead. \ \

/ / I cannot recognize the city. Only ten days ago it was an Iraqi town with its regular for centuries Arabic life. Boling bazaars, noisy streets. And here I am going through the empty dead city, between the ugly "pyramids" of destroyed buildings, broken streets, whole quarters wiped from the face of earth. \ \

old nazi tricks

/ / The Red Crescent's Falluja coordinator, Jotiar Nafaa, estimates that between 150 and 175 families are left in the city that once had a population of 300,000. \ \

REUTERS up to their old nazi tricks again. Jotiar Nafaa, "coordinator", should surely know, that it is 175 families that had requested for the help of Red Crescent totaled several days previous, (without phones, nor abilities to leave their homes (150?)), NOT, "left in the city". [THINK: how could they possibly know?

(nazi bushite whores were ordered to murder innocents indiscriminately as enemies to God)] Also, is "Jotiar Nafaa", the same woman hater, who LIED in REUTER"S anonymous hand previously, as the Red Cross, that the women held illegally as hostages by the thieving evil nazi bushite forces, didn't really exist? (and who the "sovereign" Justice system of Iraq, along with World opinion, God, and JOHNNY had demanded to be let go for lack of any real criminal charges? (despite CNN and CBC WILLFULLY refusing to report on the issue as important. (You know, INNOCENT women held hostage by bushite goons who acquiesce COWARDLY for rapists and torturers? (Just like Jew killer Ariel Sharon never gets a fair mention by "America", nor Zarqawi, as he was in the second Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175 families stayed in Falluja after the start of the US-led offensive on 8 November \ \

The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands.

(And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in

John's Revelations." Bushite! your false Idol religion
is too stupid to remain for dying spark under the
anti-Christ's evil criminal dictatorship of, wannabe
dumfuks. I'm Your God see, and Your coming and going.
As for Royal King Johnny, he's just standing in for this
time being,..' hey you!, pay no attention to anyone
behind what curtain! Boo!

America is wonderful to truly believe of it as in the
making. So, let's get the work done that needs doing,
so God can get back to trying to enjoy some time at
home. I'm here for a good time, not a long time, and
the sun don't shine every day. So get off your asses,
and demand some real Justice for Christ's sake. Johnny
has awoken, and he's cranky they say.

The word 'jihad' (holy war) from which 'el moudjahid' (fighter for the faith) derives, has always been, because of an anti-Islamic prejudice that dates from the Crusades, taken in the Christian West in a limited and restrictive sense. God is Great

A person accused in our name(s) of a criminal offence, needs to be established somehow to be as such, and the only way to do that, is to present evidence that formed your/our conclusion. Without evidence our accused is ourselves as the innocent, being falsely imprisoned, tortured, or murdered. Murdered, as the Allawi and the bushite nazi forces did to our friends and family in Falluja, to please the demon liar, lawless George Bush Jr. as their central thief system of dishonor and betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without evidence needed to form a conclusion, or when he just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", the bushmob thieves plundered in our "lost" confusion. All the while bush always seeking to close America's on-going criminal investigations, by causing even more have nots among US. So, as a free person, to side for the, bush wars America, God, and Johnny issue, you would seek out to find for Yourself beholding likewise as We all are: bush is actually super fuking evil, like personified or incarnate even, and Johnny's almost like a stranger Messianic figure who just wants to be known as a semi-normal average GUY/god fellow. (Sheesh.. We gotta bring ourselves everywhere we go) I "hate" bush for being so not himself stupid to think there was no actual walking, talking, godly Persons from the outer-reaches coming in to get him for the crimes he has committed ourselves to. Corporate news dictate without a human presence, doesn't rule this world of communication, we do. (Jesus wasn't buying Satan's misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Johnny Wizard

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves

further? That, as bushite nazi grunt, they die for?
Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar George Bush Jr., the vilest contempt for mankind this World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because Saddam wouldn't let inspectors in; the media has treated this as not really a lie because it's so obviously untrue. \ \

This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. And is that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

Johnny Wizard

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of Homeland Security. \ \

MSNBC Covers Voting Problems

He said that all the irregularities in Florida and Ohio have happened in counties using non-paper-trail e-voting from the companies run by Bush's friends. \ \

Praise Jesus! I killed ten lawless bushite disciples of the demon anti-Christ today, and I'm just getting started.. Praise Jesus!

/ / Here is a city, surrounded and cut off, whose male population between the ages of 15 and 50 faces being ``put to the sword'' by the US military, and no one in the media can stir himself to raise an objection. \ \

We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. There is no pleasure greater, than destroying fascist nazi bushite grunts, to save the lives of the innocent they target for pillage and murder. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Bushite commanders responsible for ordering the irrational bombing campaigns in Iraq, (to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,) such as in Samarra and Falluja, I am now offering a ten million dollar bounty on, per. If your organization bags three or more, before December 25th, there will be an extra something under the Christmas tree this year.

Do you Love me now as the Son of Man you'll
ever know?

King Johnny Wizard

P.S.

(to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,)

See? Evil bushite kill "other" bushite to steal our freedoms and money, and US true freedom fighters would kill'em too to defend our innocent families. Like I said, un-principled nazi facist savages is the un-American enemy bushite without contention but for lifeless corporate censorship on our core values. Demand our voices be heard, or die not trying to do any greater. I'm serious this time.

God bless America - Now, let's arrest or kill US some enemy bushite, what do you say People?

Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into
evidence that suggests high-level government officials
may have deliberately allowed the September 11th attacks
to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

Big deal. To the war mongering mass murdering thieves go the stolen spoils., as the bushite's devolving american new century would say.

/ / The American public is told that this butchery is part of keeping up pressure in the war on terror. All these terrorist brides and grooms and terrorist kids rushing round in party clothes ; all the terrorist musicians and the terrorist wedding guests, by God, they have to pay for 9/11 because (as millions of Americans still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the vast majority of those believe Saddam Hussein was behind the Sept. 11 terrorist attacks, and that freedom by justice through understanding is too complicated and wordy, ...yeah. and so corproate news control is lying to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and practically defenseless as betrayers to God, freedom and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes, but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts.

Leaderless degenerates that any real human would destroy to protect their innocent families. Innocent families the bushite bombers commanding from Florida murder for no good reason but get more soulless bushite teens rightly killed, all done so to put more stolen money in the pockets of their ungodly satanic cult. Solution: hunt to kill those left un-arrested who willfully, criminally, ordered the needless bombing of Samara to get killed the bushite grunts for the further thievings of the bush backer traitors who bask in your stolen expenses.

Support calls for open dialog.

Is It Just?

/ / Is it just coincidence that 9/11 is also bush's "acceptable" reason for warring, (planned TOP SECRETLY prior by several days of 9/11, and confessed to US already as fully implemented by the Whitehouse) Afghanistan with a FALSE ALLEGATION [ no-evidence ] to heroin push, [is still leaving] ..the STOLEN American soldier pension money [...] sitting in the Cayman Islands? \ \

I guess perhaps I wasn't so clear previous, but listen: How's bush and rumsfeld's Afghan plan, gonna go down, if there is to be no surprising 9/11, nor any evidence, (not a scintilla,) gathered for public inditement against Laden for shoplifting? (No advisement from Tenent, nor Richard Clark?) Would bush start a war against life itself, by just simply stating, we don't need no evidence of our suffering?, with him demanding an innocent family to be crucified?, to save Enron? Again, bush is the for real antiChrist of all biblical folklore, hated this entire timeless universe more over than anything else Johnny cares to mention. George bush's naked treason as an enemy of Humanity is hidden from no one. A true soulless degenerate George W. Bush is, whom is purposefully attempting to destroy Your freedom as humanity with his utter contempt for our flying fricken flag. If a person has no evidence to substantiate an allegation as personal opinion on the advocation of perpetrating senseless bushite barbarity against those understood as US innocent, then your blind faith in evil bush as bushite, not lies with your God, your nation, your family, your neighbor, OR YOURSELF, but as the willing to be sacrificed for the ungodly bushite war crimes as enemy of everyone. Listen: Jesus..., KILL BUSH INSTEAD.

Kill un-arrested bush and rumsfeld for murdering the good American People thought left undefended by corporate edict as the still unjustly dying and near forgotten, and you'll be respected by this universe as truly honorable and courageous, in these of God and Humanity's, most troubling of times under the criminal dictates of Our evil Mr. bush Jr..

Those evil brethren of the bushite clan intend, through censorship, to allow the demon bush cabal our rights to leave, but where does the brethren of the bushite clan think bush is a gonna flee himself from, eh? We, The People are a' coming to get you George W. Bush for almost escaping our police protections. For, when the bush brethren clan wake up to the plan, that they'a have'a been'a deceived, the last think anyone would want, is to be without police protection... (Can you believe, the war monger thief and liar, Our Mr. bush Jr. actually banks for Christian fundamentalism, thinking he's gonna ride them bible belting for all he's worth?)

Again, America needs to wake up, load up, and go out to freely bag US some un-American bush and rumsfeld, all to save the lives of the leaderless dumfukked bush-teens, who are prodded criminally as cowards to die for the enemy. Those who would murder innocent Americans as bushite, then further publicly advocate as enemies to freedom, the victimization of God as the innocent elsewhere, should be turned against instead, questioned, arrested granted full legal rights through public due process, or hunted down to be destroyed by US real Patriots of this world as God's great believers. I'd destroyed any un-arrested proud bushite for warring America by indiscriminately dropping toxic cluster bombs on our friends and family, to get rightly killed more leaderless cowardly soldiers with Grand parents they leave undefended in bush's evil amerka. Who doesn't hate bushite I ask you to think as you should?

You kill bush because, we had unrestricted access to do anything bush pleased throughout Iraq, prior to sacrificing any good for nothing, cowardly bushite nazi dumfuk whore.

Now, because truly, the Iraq bushite war is illegitimately premised without any actual cause, the humans are faced with two questions that have no legitimate answer.

1: What can the ungodly and evil demon bushites do now in Iraq, that they couldn't prior to murdering one child, but for to rob from America by towing his bushwhore nazi coward soldiers to commit criminal acts to rob freedom from all of US as Humanity?

(Kill an proud to be evil bushite, and all day long you'll have the thanks of every surviving American police officer, and a nod from all the American pensioners who are promised that maybe bush's america can learn for next time while the bushites just walk away with the stolen loot laughing.)

2: What could Saddam do, that he wasn't asked for?, to stop the senseless first degree murder of our friends and family?

Saddam provided the sites where all bremer's WMD was destroyed, the documents, the personnel, and so on, but corporate america won't let the facts be delivered without their bias of, who cares neutrality. A refusal to report for American interests regarding the sacrifice of American lives for the un-arrested criminals hiding inside Enron, Dutch-Shell, five dollar a day Bechtel, or double billers, commi Halliburton. Example: soldiers could have more effectively went into Iraq unarmed to search wherever, for there were no restrictions placed upon rational behavior, but just no money for the bushites to steal from America. The proud dumbfuk bushite soldier is coward and betrayer to America and God, by not, for America's America, killing bush and rumsfeld for near escaping the murder scene of 9/11 in New York City. Instead, they attack the defenseless and innocent with cluster bombs laced with toxic waste they happily eat themselves to die as the ungodly soulless bushite traitors. You get your gun Patriot, and instead of punishing a town, city, or state, bag yourself some individual evil bushite, and be respected by all true loyal Americans as a real freedom fighter. With the God of every religion by your side rooting you on for the home team, You'll be loved by all. At least until, we or me, can make the national news programs to communicate. Again, the management and news desk staff of CBC and CNN know, that the American FBI contend: bush's business partner, the un-arrested in retirement General Ahmad, funded Atta, the 9/11 mastermind. (While no evidence was established against bin as connected, to justify the Afghanistan war crimes. Nothing.)

CNN and CBC, in our names, are with malicious intent, refusing to allow justice to be our interest in protecting always.

# New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

snpd

Again, none of any words world wide bare contention against the facts we've brought to our attention. The traitors to America, Our Mr. bush Jr. and rotten rumsfeld don't mention the willingness of American Soldiers to aprehend general Ahmad as the principle terrorist funder of Atta, because this general is also responsible for developing the bushmob strategy of killing Americans in New York City from Washington. A strategy of blaming bin Laden without any evidence to bomb Afghanistan for Enron. (The Dahbol Working Group.) Then closing criminal investigations, as it's not important to know who personally was responsible for the insider trades, or the contacting of only Odigo. Never mentioned by CNN as top priority to American soldier concerns, who are expected by Blitzer and Hemmer to throw away their lives in sacrifice unthinking to bush, america's false deity, super evil anti-Christ. While bush and cheney threaten to murder more dumb Americans who would dare to articulate the demand for Justice as our own, like Laden has, while demanding American Patriots coware in fear of the sadistic savage mass murdering death squad leader, tommy franks, or the anti-Christ going out to kill their family too as not represented by corporate policy, while American soldier families are continually disrespected as unworthy. (Generally, they are pretty damn stoopid, but certainly, if they're not knowingly commiting first degree murders for the anti-Christ as pure nazi filth, they should be allowed to learn, instead of having their own undefended families robbed then slaughtered for American traitor, nazi puke terrorist, tommy franks, or for Monsanto's rotten rumsfeld. Do you notice corporate America continues to show outdated footage of those two demons standing near smiling armed American soldiers, who as a mass of dumfuks, aren't intelligent enough to destroy them instantly as established ememies of America as terrorists? Well, that is going to change. I have yet to find ANY American Soldier who is literate, who disagrees WE have some very important questions that need immediate answers before the bushmob murders more Americans in Our name. See for yourself through Google if you don't believe in Christ as the Redeemer.

As for the doubting American Soldier, LOOK, CNN will continue as cult members in their dying madness of just even lamer excuses, to convince US, we are alone in our concerns for Freedom as Justice instills for US all. This moment of History requires you to stand strong for only yourself to be represented truly among the stars. Evil stupid people can't make heads or tails of this, but, as evil bush does truly from his dark shallow existence, will continue by open piracy, to publicly advocate in Our names the further robbing and murder of your own family American Patriot, so too, will more american nazi dumfuks die to the tune of their own cowardice to protect themselves as garnered fairly. This is why rotten rumsfeld forbids the death tally of American soldiers to be made public to the ready for enlistment as the too dumb to know better. Life is life, and sorry to say american dumfuks, Christ on the cross is you too as a true dying American Patriot, and your already politically sitting in the position of hatred and injustice against Humanity, and myself honestly as.. THE SON OF MAN! (The god of God's life/death guy, with a score to settle on behalf of the infinite Universe and True brave Soldiers everywhere. KILL AMERICAN COP KILLER BUSH NOW BEFORE HE MURDERS MORE IN OUR NAME AS THE INNOCENT COWARDS!)

CNN is not interested in working for American interests by asking why, as there is little of any money in just doing good for your neighbor, like saving a living, as we would wish to be helped for ourselves, if we were bound just the same to be equals at being. Mr. Blitzer and Bill Hemmer, as americans, wouldn't give a dollar of your time, to speak on human rights to be of their own concern, (they're rich!) or to save the life of an innocent poor victim, if it meant they would therefor, be compelled to honestly report on their false deity bush, the super evil criminal to ourselves as Humanity, the unelected dictator, American cop killing anti-Christ in person!, that they so leave to see Americans sacrificed as ignored to be robbed from as their profit margin increases. Do less for America, The People, and get payed more in collateral damages paid for by doubting Patriots, too slow to stand for the American flag in protection for their own living as lost to the wind. Mr. bush, tommy, rumsfeld, cheney and blair give no evidence, but for to show themselves as the criminals who openly harbor terrorist activity against our communities, and WE, as Humanity, according to CNN, are expected to go out and kill our friends in cowardice, instead of standing up to destroy the demon bush instead to save our own selves.

God, or no God, I hate that murderer bush as much as any real man would to care for his own life as family.

thanks for the insight, in my case they delivered the package and LATER
mailed the bill !

I will be calling purolator tomorrow and putting the pressure on them. I
will mention they are illegally collecting customs and fraudulently trying
to collect excesssive fees.

Neither of those is completely true actually.

I would concentrate on the fact that you did not approve it if you want to get
results.

I'll know more about customs in a day or two, as I've got a telescope
arriving from Germany tomorrow or Wednesday.

The German courier charged $200 for insured shipping and it weighs just
over 30 pounds.

It'll be delivered by Fedex, and they required me to fill out a CBP Form
5106 before they could get it released from customs, but my impression
is the only thing I'll be billed for is the actual duty imposed by customs.

I remember one seller saying something to the effect you'd think we were
at war when it comes to importing radios between the USA and Canada.

I've also noticed some Canadian radio sellers hand carry radios across
the border to ship to US customers.

MM,
.
Blame it on the Canadian Seller.
.
For 'used' electronic equipment that are bought at Auction.
There is no US Customs Duty for items costing less than $800.
However, if the Canadian Seller does not specifically Declare
(Write Down) that the item is 'used' electronic equipment; or
Declares that the the Item is NEW Electronic Equipment then
you, the Buyer, are stuck with paying the Bill for their mistake.

MSH,
 .
I have had two Canadian Sellers that wanted regular
USPS Money Orders to Cash at the USPS Post Office
on the US Side of the Border and Mailed the Radio and
the Antenna at the same USPS Post Office in the USA.
 .
They both claimed that this process saved them 22%
Combined Canadian Sales Taxes; and eliminated the
Canadian / US Customs hassles and fees.
 .
it worked for me ~ RHF

I have heard many stories from Canadian Hams who have been charged these kind of fees by the courier companies.  UPS has come in for strong criticism from this group.

Canada Post/Customs charges a $5.00 handling fee on shipment sent via US Post plus whatever Sales taxes apply.  Some Canadian Hams who live near the border rent Post Office boxes in US border towns.  They take their radio purchases through the Customs shack at the border, pay

the proper customs charge (if any) and avoid the extortion mentioned
above.

I've gotten stuff from Germany, England, Portugal, Canada and Latvia and
NEVER have I been charged a customs fee. This includes several ham rigs and
never even HEARD of an FCC filing fee.

No kidding.  Why is it, just about anywhere you go, there's some old hick
who just has to act like he's two on the radio?

Very wise words, from someone who understands human interaction. Too often one person or the other in a couple thinks they can "reform" the other person's bad habits. This only leads to misery and an eventual breakup. When you sign up to the "for better or worse" deal, that means you take the whole package, not just the parts you like. My wife had to deal with my radios, and I had to deal with her smoking (Which fortunately she gave up when she was pregnant). That's is the nature of compromise. You compromise because underneath those surface differences, there is a greater bond of affection which should transcend those surface differences. But it should be everything in moderation. If important things in life are being postponed to address a specific hobby, then it's time for a little introspection.

Just remember that life is uncertain.
You do your best, but still...
Some men marry women,
hoping they won't change.
Some women marry men,
hoping they will.

I've seen advertisements for several magazines -- popular
communications and another US one as well as some UK magazines.

Is it worthwhile to get a subscription to one of these?  If so, which
is best?

I'm kinda fond of Monitoring Times<grin>...

Seriously, it depends to some degree on what your listening interests
are.  I think Monitoring Times offers a pretty good shortwave program
guide and a variety of interesting feature articles.  Plus you get a
bunch of regular columns on other aspects of radio - scanning, building
& repairing equipment, utility/domestic BC/pirate stations, etc..

If you have a radio store in your town you should be able to find single
copies of some or all of these you can check out before making a decision.

On a $200.00 radio?  Doesn't make sense.  I bought one watch from
Canada for $250.00 and the customs broker fee was around $30.00 from
UPS.  Call them...I think they made a mistake.

I am listening to RCI on 9515Khz this morning, (02/08/2005) at about
9am.  There is a regular crunching sound comming across every 10
```

seconds or so.  Almost sounds like an arcing in the transmitter.
Checked dual freq 13.655Khz.  Same thing.  Moved off freq and the sound
went away.  Never heard that type of thing before.

KYSTRE51,
 .
Reference - TV Parts Shortwave Listener's Antenna for
the Sony ICF-SW7600GR AM/FM/SW Radio
http://groups.yahoo.com/group/7600GR/message/762
*  TV Parts Shortwave Listener's Antenna for 'portable'
AM/FM Shortwave Radios
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/2184
 .
Consider buying some simple TV Antenna Parts to use in
making a Low Noise Shortwave Listener (SWL) Antenna to
use with your Sony ICF-SW7600GR AM/FM Shortwave Radio.
 .
First with many 'portable' AM/FM Shortwave Radios that
have an External Antenna Input; a very long (really long)
so called Longwire {Random} Antenna of 80 Feet to 100
Feet or more is not the best choice.
 .
TIP - The better 'choice' is a medium length, 35 Feet
to 75 Feet long, Random Wire Antenna for an External
Shortwave Listener (SWL) to use with a 'portable'

AM/FM Shortwave Radio.

.

HOW TO DO IT - The basic layout of this Shortwave Listener's Antenna made from TV Parts is:

.

1. A Horizontal [Flat] Antenna Wire Element : This can be a piece of Insulated Copper Stranded "Hook-Up Wire" that is about 35 Feet to 75 Feet long that is strung between two points; and about 10 Feet to 25 Feet High off-the-ground. -Or- An Inverted "L" Antenna that starts at ground level and goes up Vertically 10 Feet to 25 Feet and then out Horizontally 35 Feet to 75 Feet.

.

2. The Grounding Point : Find an 'outside' Cold Water Pipe that is coming out of the ground. Clean about One Inch all around the Surface of the Pipe near Ground Level with some Steel Wool. Strip about One Foot of Insulation from a piece of Hook-Up Wire. Fold the 'bare' Wire over in One Inch Sections to give you 12 Sections of exposed Copper Wire. Use a Stainless Steel Hose Clamp to compress the spread-out 'bare' Wire folds against the Cold Water Pipe and form a solid Electro-Mechanical Connection.
-Or- Install a Ground Rod and Ground Wire Clamp with a Ground Wire.

.

3. The Matching Transformer : The TV 'type' Matching Transformer has two Wire Terminal Leads on one end and an "F" Connector on the other end. Connect (Solder) the Wire Antenna Element to one of the Wire Terminal Leads. Next Connect (Solder) the Ground Wire to the other of the Wire Terminal Leads. Then Connect one end of the Coax Cable using and "F" Connector to the "F" Connector end of Matching Transformer.

.

4. The Coax Cable Feed-in-Line : Use 75 Ohm TV 'type' Coax Cable as the Antenna's Feed-in-Line from the Matching Transformer to your a 'portable' AM/FM Shortwave Radio.

.

5. The External Antenna Input Connection :
Most 'portable' AM/FM Shortwave Radios use a 1/8" Mono Jack for their External Antenna Input. Using a Standard Right-Angle "F" Adapter and "F" Jack to 1/8" Plug Adapter will make the 'connection' and provide "Strain-Relief" for the Radio's 1/8" External Antenna Input Jack.

.

NOTE - Use the TV type 3.5" Wood Screw Standoffs with insulators to Rig and Route the Antenna Wire Element and the Coax Cable.

.

Toward the end of its run, the HF-150 was manufactured not by Lowe but
by South Midlands Communications. Does anyone know if South Midlands
Communications manufactured *both* the standard HF-150 and the HF-150E?
I know they manufactured the former, but am not sure whether they
produced any Europa units.

They've had some problems with their feed from Montreal lately. They're working on it.

Perfect example of how easily a moron can be misled by a flashy
headline.  The rating went from 2.4 to 2.2.

Not at all.  I am a patriot in the spirit of Paine, Franklin and
everyone else with the cajones to say something's wrong.

You people who defend the criminals and hide behind the flag are
traitors, because you refuse to defend the Constitution and the
Revolution.

Exactly right, dimwit -- the rating DID go from 2.4 (miniscule) to 2.2
(microscopic) for a 15% DROP to 24th.

They LOST 15% of their already TINY audience in NYC.

So, where on earth could they have gone?

Uh oh -- Rush found 'em!

Youth Audiences Help Rush Limbaugh's Ratings Grow!
Wednesday January 12, 5:37 pm ET
New York City Adults 18-49 Years Old, Up More Than 50% in Arbitron

LOS ANGELES, Jan. 12 /PRNewswire/ -- Rush Limbaugh received a great birthday gift today from his New York City listeners -- Arbitron, the official monitoring service of broadcast radio, reports that listening Adults 18-49 years old grew more than 50 percent over the last year. As the ratings roll out nationally from city to city, New York's WABC-AM numbers are out first, demonstrating the following overall gains for The Rush Limbaugh Show: Adults 18-34 are up 25 percent, Persons 12+ are up 35 percent, and Adults 25-54 are up 47 percent. (source: Arbitron MSA)

Read it and weep, shit-for-brains.

Same thing here. I reduced the AGC delay setting and it then is heard as a quick noise without any blanking of the receiver as happens with the longer time constant setting.

The KWZ30 was rated highly in terms of SSB intelligibility, better than the AR7030. Not that surprising with phase linear filters. (No ringing in CW.) The interface generally got less good marks (too few keys for the number of functions), but the rx is said to be built like the proverbial tank - you do notice that K&D makes industry electronics. It's too bad there still is no successor, apparently there has been little time for this hobby project.

It was awkward sentence construction - I was tired.

The package arrived with a sticker saying they'll bill me for any import duty.

The form I had to fill out seemed to be designed for a business, so even though
I included a cover note indicating it's a personally owned scope, I expect I'll
be getting a bill.

I thought so too, but the box was about 5 cubic feet, and I know a friend paid
about $275 to send an 8 cubic foot box with a 60 pound radio worth about 1/3 of
the value of the scope to England.

So I'm guessing it's volume, weight, and then value.

If you frequently use the rx on batteries and/or receive stuff on 60,
definitely do that. My 7600G is weaker than the old SW7600 sensitivity
wise on a number of bands when run off batteries, and the AN-LP1 will
help signal levels significantly. Due to its band filters it also
reduces the effect of images from 49m on 60m (which had been annoying me
in the past) to the point where they become insignificant vs. real
signals. And last but not least, it's a very portable antenna solution
for what it does, and it works with a number of portables out of the box
without needing any fancy adapters.

In my opinion, Montoring Times is far better than Popular Communications.  I
started reading Pop'Comm back in the early 1990's and it was a fine
publication, however after about 10 years it really started going downhill.

It's still an OK magazine, but a few years ago I began subscribing to
Monitoring Times and found it to be superior.

If the UK magazine you're referring to is Shortwave Magazine, it's also a
very good publication.  I haven't read it in a long time but back when I was
in England I used to read it often.

If you're interested in reading about ham radio, Worldradio is a good
publication.

Finally it exists!!  IF YOU PLAY GUITAR, YOU NEED THIS BOOK!!  Listen to my story:

In the process of teaching myself guitar, I went looking for a book that simply had the all the chords, scales and modes, and nothing else. I was totally surprised to find that such a book didn't exist.  There are plenty of places to find this information, but it tends to be spread out over the coarse of a long book or in a poorly organized workbook.  I found some of it on the web in the form of calculators and such, but that wasn't helpful since I wanted to practice away from my computer.  That is why I created THE ULTIMATE GUITAR RESOURCE, which has LITERALLY EVERY CHORD, SCALE and MODE in an easy to download and print document.  Its a full 37 pages for only $3.99! (hardcover is available)

What makes this guide even better is that you don't need to read music to use it, so it can help every player at any level. I guarantee you'll use this guide for years!

For way less than you spent on lunch, you'll learn:
    -EVERY CHORD (in every position)
    -EVERY SCALE, including the jazz and blues scales
    -ALL THE MODES
    -LITERALLY EVERYTHING YOU NEED TO KNOW - solo and play chords without reading music       today.

A free sample is available at:

Good luck and God Bless!

p.s. I apologize if this message annoys, aggravates, miffs, disturbs, bugs or angers you.  I'm actually just a dude who wrote a book that hundreds of people are using and apparently liking very much.  While this may fall into a spam-like category, (since I am selling something, and you didn't ask for this message), I think that its not totally over that line since I'm not pitching a porn site, a refinance loan or a cock enlargement.

No, Big Radio Media was big, but not that big.

It's worth remembering that the 50kW clear channel stations were broadcasting to a large part of the country during the evenings  If the government was actually interested in discouraging a national radio media, they never would have developed the clear channels.

'Monitoring Times' is good for beginners but eventually you'll out grow
the magazine by using the Net for more detailed information.

I payed about $25 for customs and brokerage on a 'boatanchor' from Vancouver. I think you got taken on those other charges.

I once had this problem when I bought an item from seller in the US. After I emailed him and told him what happened he just faxed the courier and told them that the selling price was much lower eg. $20 and he put a higher value for insurance purposes. After they received his fax they delivered the product with no additional charges

Well, the fact that contributors to monitoring times and the handbook
(which I already bought) use these forums has to be worth something.
Guess I'm going to subscribe to monitoring times!  Anyone know of any
good subscription deals?

Well, these were not 'company' specs, and that combined with the price = no go.

I remember them being rather spendy too and reviews kind of iffy. I think
the Germans were trying to pull a fast one again :)

Here's some info on the KWZ30 for you:

http://www.rnw.nl/realradio/kwz30.html

A successor to this radio is supposed to appear...one day.

What's simple is -you-. The question went clean over your head.

I don't need to be told the answers. I want to know if HE can explain it, or is he sycophant 100% of the time. And I know the answer to that as well.

Not only that, your answer is pure, unadulterated bullshit. I can just see some G.I. over in Iraq being asked that question by one of the locals, and him giving the answer that you just gave. He'd deserve the time in the stockade that he'd hopefully get. Yeah, that's a great way to drum up support and win people over. Take your sanctimony, and shove it up your ass. You think you're a true patriot; you're nothing of the kind.

I bought a radio for $215 from someone in canada a few weeks ago and today I got a bill from the carrier (purolator) company.

the main items were:

estimated customs $15
brokerage fee $18
surety bond fee $30
disbursement of funds $5
FCC filing $15

total was $85 on a $215 radio

for those that have experience with this matter, or actually KNOW what they are talking about, I have some questions.

Am I being taken for a ride ?
I didn't sign anything so why should I pay over $50 in fees to these crumbs ?
Is there a way to fight this ?

thanks

Yes. I remember some being on eBay, can't recall the price they fetched, but it was high. They seem to be a rarity.

This sounds awful smelly to me.  I've bought and sold radios from Canada with no problems at all other than filling out the standard customs slip when shipping from here.  My advice would be to just not pay it.

Sheesh,if that woman wayyyy over yonder across the big pond locates a
Lowe radio for me,it probally wouldn't cost much more than that to ship
it all the way over here from England.

Did they phone you and get your approval in advance for the amount?   Verbal authorization is just as good as written.

If not, I would tell them you did not authorize them and ask for their instructions on how to return the radio and get a full refund of all charges.

If they did phone you and got you to approve the amount, then it is partly your own fault for agreeing.

Contact the shipper and ask them to help sort it out.

For future reference, Fed Ex does not charge for customs brokerage betwen the U.S. and Canada (but please double check).

I think Purolater is terible for this kind of thing.

Or ask the shipper to use the Post Office (it can still be shipped express).

I have bought radios Canada and from Jacky's in the UAE  and never paid a cent of duty.

I just bought my first SW radio and I've been having fun.  I've been
reading that it would really serve me well to purchase an external
antenna, though i don't want a big, permanently mounted one.

Is this the antenna I want for my 7600GR?

usual republican misdirection
the -economy- doesnt have to send children to school
the -economy- doesnt have to put food on the table
the -economy- doesnt have to put gas in the car
the -economy- doesnt have to try to pay higher medical costs each month

almost all the profits are going to a very small number of people
they are doing very well

the vast majority of people are getting no share of the profits
and are instead facing increasing prices and costs
they are doing poorly

guess what happens when they give up and stop consuming?

The problem is in Purolater's U.S. operations, not in Canada (except that the shipper should not have shipped by Purolater as they are terrible for this kind of thing.

Purolator did not ask for my permission to process customs
the seller shipped purolator because he said FedEx wanted $150 when
purolator wanted $30 to ship to the US.

the seller did not seem to know anything about purolator going to charge me.

Excellent - then they were not authorized to represent you and I would call them and tell them that you are refusing the shipment now taht you have found out about the unathorized charges.

The customs broker represents you, not the shipper, for the import,

>the seller shipped purolator because he said FedEx wanted $150 when
>purolator wanted $30 to ship to the US.

>the seller did not seem to know anything about purolator going to charge me.

If it is a store then they should have known and maybe they can get Purolator to rescind  the charges.

If ii its a private individual it will be tougher.

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

Paris "And then what if you saw, all of the things thats wrong, would you stand tall and strong? Or would you turn and walk away?"

## Jew Boy Johnny and the anti-Semites

- or -

## "The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

John.

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means. Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter. Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

John.

We Israeli Military Reservists REFUSE To Abuse, Starve, Maim And Kill Palestininians

--------

http://radio.indymedia.org/uploads/benderman.mp3

The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American

Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America to the last bush supporter praised if need be. I fight the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N.. Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to negotiate with anyone, (because as so was openly confessed, Sattler had no evidence that Zaqari was in Fallujah) then leveled the city to kill all it's inhabitants, estimated at that time near 300,000 people. Using a napalm type WMD, cluster dud land mine munitions, and as reported, nine two thousand pound bombs in a city 3 1/2 km by 4 km. Serving for a military not strong enough collectively to prosecute such lawless criminal barbarity, is serving for a military not principled in the American virtues of freedom and democracy. In truth, serving for such ungodly criminal command is a cowardly act of treason. George W. Bush is an enemy of our Humanity.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment, and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law.
God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience?
I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to

have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

## Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege. So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy corporate "celebs", talk freely about their pride in such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best intentions, for I will perhaps not receive another chance to publish, if as usual, the Internet community at large extends me little support in my UNCHALLENGED assertions on who truly committed the crimes of 9/11. A single bushite corporatist sends a complaint to a Internet provider alleging I talk "spam", therefor, without any hearing, private owners are threatened to lose their privilege to communicate, by an enemy bushite protagonist who exercises his "authority" by stating only, "spam", and not even providing my actual post in it's entirety. One Internet service was shut down for the sole reason that discussing George W. Bush as the 9/11 perpetrator in tx.politics, was against the rules, for such subject material must be confined to only a American nation political forum. I talked to the kid on

the phone who made that power decision on behalf of all

## Bush Lies to Canada

Demon bush spew "I made some decisions obviously that some in Canada, didn't agree with. Like for example removing Saddam Hussein, and enforcing the demands of the UN security council."

Saddam was not found in violation of 1441, so the war criminal anti-Christ's demands were not our world's, nor that of the UN Security Council. How does thieving our assets, destroying our infrastructure, and indiscriminately murdering more than a hundred thousand innocent people, (in turn to sacrifice more worthless bushite nazi teens) bring about their closer fraudster bushite "Freedom"? Again, CNN, and CBC let the demon liar spew his hatred of our liberties, without factually challenging his lies with our un-debatable established truths. CNN and CBC would "sell" seeing our dimmer youths sacrificed as bushmob thieves through blatant bushite lies, to truly, steal our freedoms and liberty with further murders by proxy.

Sattler openly lies to the lives of America with this insult, and the bushite nazi dumfuk, is too stupid or evil to frag him as enemy proudly for it. The People of the world, look, see.. bushites are murderous liars, cheats, and thieves as the enemies of America, who even lie to THEMSELVES on how many have been sacrificed to blood the coffers of the American pension thieving war monger bushite 9/11 cancer. A liar nazi bushite commander would sacrifice his nation, along with own family, before saying a word in defence of our freedoms, our humanity, or our God. COWARDS. American nazi bushite commander gets killed american nazi bushite grunts, in dreams they too, can financially profit off the talentless continuing THEFTS for enslavement to sacrifice themselves as fascist tyrannies. Hmmm. but the nature of American freedom, is to be one as everyone being equal scores. "Gee, maybe some day even you could be Presidential."

old nazi tricks

REUTERS up to their old nazi tricks again. Jotiar Nafaa, "coordinator", should surely know, that it is 175 families that had requested for the help of Red Crescent totaled several days previous, (without phones, nor abilities to leave their homes (150?)), NOT, "left in the city". [THINK: how could they possibly know? (nazi bushite whores were ordered to murder innocents indiscriminately as enemies to God)] Also, is "Jotiar Nafaa", the same woman hater, who LIED in REUTER"S anonymous hand previously, as the Red Cross, that the women held illegally as hostages by the thieving evil nazi bushite forces, didn't really exist? (and who the "sovereign" Justice system of Iraq, along with World opinion, God, and JOHNNY had demanded to be let go for lack of any real criminal charges? (despite CNN and CBC WILLFULLY refusing to report on the issue as important. (You know, INNOCENT women held hostage by bushite goons who acquiesce COWARDLY for rapists and torturers? (Just like Jew killer Ariel Sharon never gets a fair mention by "America", nor Zarqawi, as he was in the second Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175 families stayed in Falluja after the start of the US-led offensive on 8 November \ \

The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

Israeli Soldiers Going In For The Kill: A 13 year
old Palestinian JEWISH school girl is about to die

/ / "It's a little girl. She's running defensively
eastwards, a girl of about 10. She's behind the
embankment, scared to death."

"Anyone who's mobile, moving in the zone, even if
it's a three-year-old, needs to be killed.

..soldiers in the company, [...] Givati Brigade,
complained that they had been "besmirched"

The soldiers said that the commander had fired
two shots at the girl from close range as she
lay on the ground.. \ \

Will all Jews join me in calling for the public World
trial of crimes against God's Humanity, done by these
truly godless fascist nazi enemies of the Holy Jewish
faith? Or, will the anti-Jewish Ariel Sharon crowd
again, march more Jews silently to their graves,
refusing to speak for the Bible's Word that all people
are created in God's loving image?

Victimizing the innocent to steal from, is not acts
becoming of a religious person or a truly "democratic"
government.

"if the USA's honor can go along with these tactics . . . then the USA is a country without honor." [...]

The word 'jihad' (holy war) from which 'el moudjahid' (fighter for the faith) derives, has always been, because of an anti-Islamic prejudice that dates from the Crusades, taken in the Christian West in a limited and restrictive sense. It is taken as a symbol of religious aggressiveness. This interpretation is rendered absurd by the very fact that Islam is tolerant, and the respect of religions, in particular Judaism and Christianity, is one of its fundamental precepts, something which, in fact, has been in practice over the centuries. \ \

God is Great

A person accused in our name(s) of a criminal offence, needs to be established somehow to be as such, and the only way to do that, is to present evidence that formed your/our conclusion. Without evidence our accused is ourselves as the innocent, being falsely imprisoned, tortured, or murdered. Murdered, as the Allawi and the bushite nazi forces did to our friends and family in Falluja, to please the demon liar, lawless George Bush Jr. as their central thief system of dishonor and betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without evidence needed to form a conclusion, or when he just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", the bushmob thieves plundered in our "lost" confusion. All the while bush always seeking to close America's on-going criminal investigations, by causing even more have nots among US. So, as a free person, to side for the, bush wars America, God, and Johnny issue, you would seek out to find for Yourself beholding likewise as We all are: bush is actually super fuking evil, like personified or incarnate even, and Johnny's almost like a stranger Messianic figure who just wants to be known as a semi-normal average GUY/god fellow. (Sheesh.. We gotta bring ourselves everywhere we go) I "hate" bush for being so not himself stupid to think there was no actual walking, talking, godly Persons from the outer-reaches coming in to get him for the crimes he has committed ourselves to. Corporate news dictate without a human presence, doesn't rule this world of communication, we do. (Jesus wasn't buying Satan's misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Johnny Wizard

## Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committting the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves further? That, as bushite nazi grunt, they die for? Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar George Bush Jr., the vilest contempt for mankind this World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because Saddam wouldn't let inspectors in; the media has treated this as not really a lie because it's so obviously untrue. \ \

The King Commands

/ / Rumsfeld replied to a direct question yesterday as to whether he knew Zarqawi was in Fallujah with the answer: ``I have no idea if he is there.'' \ \

So, America! there is your reason for dying America's sons and daughters, Johnny's brothers and sisters. "No idea" rumsfeld states while his private partners cash in the blood checks for everything but the funeral services. I ask sacrificing soldiers to help grant me space to debate bush and rumsfeld on international radio. We gotta take away Art Bell's turn off button to thank him for all the enlightenment he has been a part of in America, but that these life death top priority issues of ours, he hasn't the right to censor communication on. This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. Demand the arrest or execution of Allawi for the bombing campaign of Samara, along with bushite military commanders who organized the satanic attack. Why would America do this? To free the dying lives of their bushite nazi whored, dying grunt savage slave population. .or perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas: ``We're ready to go. I'm just ready to get this done. I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

Johnny Wizard

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of Homeland Security. \ \

Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Nor for sabotaging the ORHA for franks and rumsfeld to rob the pro-Iraqi central bank. It's just more American deaths as dumfuk sacrifices for the evil anti-Christ, like bush and rumsfeld committed as stolen from America on 9/11. Who cares about America Limbaugh would quietly trumpet, he's making a killing like Art Bell and O'Reilly do, keeping US masses PORTRAYED uninformed and ignorant beyond belief. Did you hear? Mr. bush is the most popular President ever ellected!

Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

/ / Wednesday on the campaign trail, responding for the first time to the Al-Qaqaa story, President Bush said that John Kerry, in using the story as he has, was ``denigrating the actions of our troops and commanders in the field.'' \ \

Big deal. To the war mongering mass murdering thieves go the stolen spoils., as the bushite's devolving american new century would say.

/ / The American public is told that this butchery is part of keeping up pressure in the war on terror. All these terrorist brides and grooms and terrorist kids rushing round in party clothes ; all the terrorist musicians and the terrorist wedding guests, by God, they have to pay for 9/11 because (as millions of Americans still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the vast majority of those believe Saddam Hussein was behind the Sept. 11 terrorist attacks, and that freedom by justice through understanding is too complicated and wordy, ...yeah. and so corproate news control is lying to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and practically defenseless as betrayers to God, freedom and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes, but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts. Leaderless degenerates that any real human would destroy to protect their innocent families. Innocent families the bushite bombers commanding from Florida murder for no good reason but get more soulless bushite teens rightly killed, all done so to put more stolen money in the pockets of their ungodly satanic cult. Solution: hunt to kill those left un-arrested who willfully, criminally, ordered the needless bombing of Samara to get killed the bushite grunts for the further thievings of the bush backer traitors who bask in your stolen expenses.

Support calls for open dialog.

Is It Just?

/ / Is it just coincidence that 9/11 is also bush's "acceptable" reason for warring, (planned TOP SECRETLY prior by several days of 9/11, and confessed to US already as fully implemented by the Whitehouse) Afghanistan with a FALSE ALLEGATION [ no-evidence ] to heroin push, [is still leaving] ..the STOLEN American soldier pension money [...] sitting in the Cayman Islands? \ \

I guess perhaps I wasn't so clear previous, but listen: How's bush and rumsfeld's Afghan plan, gonna go down, if there is to be no surprising 9/11, nor any evidence, (not a scintilla,) gathered for public inditement against Laden for shoplifting? (No advisement from Tenent, nor Richard Clark?) Would bush start a war against life itself, by just simply stating, we don't need no evidence of our suffering?, with him demanding an innocent family to be crucified?, to save Enron? Again, bush is the for real antiChrist of all biblical folklore, hated this entire timeless universe more over than anything else Johnny cares to mention. George bush's naked treason as an enemy of Humanity is hidden from no one. A true soulless degenerate George W. Bush is, whom is purposefully attempting to destroy Your freedom as humanity with his utter contempt for our flying fricken flag. If a person has no evidence to substantiate an allegation as personal opinion on the advocation of perpetrating senseless bushite barbarity against those understood as US innocent, then your blind faith in evil bush as bushite, not lies with your God, your nation, your family, your neighbor, OR YOURSELF, but as the willing to be sacrificed for the ungodly bushite war crimes as enemy of everyone. Listen: Jesus..., KILL BUSH INSTEAD.

Kill un-arrested bush and rumsfeld for murdering the good American People thought left undefended by corporate edict as the still unjustly dying and near forgotten, and you'll be respected by this universe as truly honorable and courageous, in these of God and Humanity's, most troubling of times under the criminal dictates of Our evil Mr. bush Jr..

Those evil brethren of the bushite clan intend, through censorship, to allow the demon bush cabal our rights to leave, but where does the brethren of the bushite clan think bush is a gonna flee himself from, eh? We, The People are a' coming to get you George W. Bush for almost escaping our police protections. For, when the bush brethren clan wake up to the plan, that they'a have'a been'a deceived, the last think anyone would want, is to be without police protection... (Can you believe, the war monger thief and liar, Our Mr. bush Jr. actually banks for Christian fundamentalism, thinking he's gonna ride them bible belting for all he's worth?)

Again, America needs to wake up, load up, and go out to freely bag US some un-American bush and rumsfeld, all to save the lives of the leaderless dumfukked bush-teens, who are prodded criminally as cowards to die for the enemy. Those who would murder innocent Americans as bushite, then further publicly advocate as enemies to freedom, the victimization of God as the innocent elsewhere, should be turned against instead, questioned, arrested granted full legal rights through public due process, or hunted down to be destroyed by US real Patriots of this world as God's great believers. I'd destroyed any un-arrested proud bushite for warring America by indiscriminately dropping toxic cluster bombs on our friends and family, to get rightly killed more leaderless cowardly soldiers with Grand parents they leave undefended in bush's evil amerka. Who doesn't hate bushite I ask you to think as you should?

You kill bush because, we had unrestricted access to do anything bush pleased throughout Iraq, prior to sacrificing any good for nothing, cowardly bushite nazi dumfuk whore.

Now, because truly, the Iraq bushite war is illegitimately premised without any actual cause, the humans are faced with two questions that have no legitimate answer.

1: What can the ungodly and evil demon bushites do now in Iraq, that they couldn't prior to murdering one child, but for to rob from America by towing his bushwhore nazi coward soldiers to commit criminal acts to rob freedom from all of US as Humanity?

(Kill an proud to be evil bushite, and all day long you'll have the thanks of every surviving American police officer, and a nod from all the American pensioners who are promised that maybe bush's america can learn for next time while the bushites just walk away with the stolen loot laughing.)

2: What could Saddam do, that he wasn't asked for?, to stop the senseless first degree murder of our friends and family?

Saddam provided the sites where all bremer's WMD was destroyed, the documents, the personnel, and so on, but corporate america won't let the facts be delivered without their bias of, who cares neutrality. A refusal to report for American interests regarding the sacrifice of American lives for the un-arrested criminals hiding inside Enron, Dutch-Shell, five dollar a day Bechtel, or double billers, commi Halliburton. Example: soldiers could have more effectively went into Iraq unarmed to search wherever, for there were no restrictions placed upon rational behavior, but just no money for the bushites to steal from America. The proud dumbfuk bushite soldier is coward and betrayer to America and God, by not, for America's America, killing bush and rumsfeld for near escaping the murder scene of 9/11 in New York City. Instead, they attack the defenseless and innocent with cluster bombs laced with toxic waste they happily eat themselves to die as the ungodly soulless bushite traitors. You get your gun Patriot, and instead of punishing a town, city, or state, bag yourself some individual evil bushite, and be respected by all true loyal Americans as a real freedom fighter. With the God of every religion by your side rooting you on for the home team, You'll be loved by all. At least until, we or me, can make the national news programs to communicate. Again, the management and news desk staff of CBC and CNN know, that the American FBI contend: bush's business partner, the un-arrested in retirement General Ahmad, funded Atta, the 9/11 mastermind. (While no evidence was established against bin as connected, to justify the Afghanistan war crimes. Nothing.)

CNN and CBC, in our names, are with malicious intent, refusing to allow justice to be our interest in protecting always.

## New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

snpd

Again, none of any words world wide bare contention against the facts we've brought to our attention. The traitors to America, Our Mr. bush Jr. and rotten rumsfeld don't mention the willingness of American Soldiers to aprehend general Ahmad as the principle terrorist funder of Atta, because this general is also responsible for developing the bushmob strategy of killing Americans in New York City from Washington. A strategy of blaming bin Laden without any evidence to bomb Afghanistan for Enron. (The Dahbol Working Group.) Then closing criminal investigations, as it's not important to know who personally was responsible for the insider trades, or the contacting of only Odigo. Never mentioned by CNN as top priority to American soldier concerns, who are expected by Blitzer and Hemmer to throw away their lives in sacrifice unthinking to bush, america's false deity, super evil anti-Christ. While bush and cheney threaten to murder more dumb Americans who would dare to articulate the demand for Justice as our own, like Laden has, while demanding American Patriots coware in fear of the sadistic savage mass murdering death squad leader, tommy franks, or the anti-Christ going out to kill their family too as not represented by corporate policy, while American soldier families are continually disrespected as unworthy. (Generally, they are pretty damn stoopid, but certainly, if they're not knowingly commiting first degree murders for the anti-Christ as pure nazi filth, they should be allowed to learn, instead of having their own undefended families robbed then slaughtered for American traitor, nazi puke terrorist, tommy franks, or for Monsanto's rotten rumsfeld. Do you notice corporate America continues to show outdated footage of those two demons standing near smiling armed American soldiers, who as a mass of dumfuks, aren't intelligent enough to destroy them instantly as established ememies of America as terrorists? Well, that is going to change. I have yet to find ANY American Soldier who is literate, who disagrees WE have some very important questions that need immediate answers before the bushmob murders more Americans in Our name. See for yourself through Google if you don't believe in Christ as the Redeemer.

As for the doubting American Soldier, LOOK, CNN will continue as cult members in their dying madness of just even lamer excuses, to convince US, we are alone in our concerns for Freedom as Justice instills for US all. This moment of History requires you to stand strong for only yourself to be represented truly among the stars. Evil stupid people can't make heads or tails of this, but, as evil bush does truly from his dark shallow existence, will continue by open piracy, to publicly advocate in Our names the further robbing and murder of your own family American Patriot, so too, will more american nazi dumfuks die to the tune of their own cowardice to protect themselves as garnered fairly. This is why rotten rumsfeld forbids the death tally of American soldiers to be made public to the ready for enlistment as the too dumb to know better. Life is life, and sorry to say american dumfuks, Christ on the cross is you too as a true dying American Patriot, and your already politically sitting in the position of hatred and injustice against Humanity, and myself honestly as.. THE SON OF MAN! (The god of God's life/death guy, with a score to settle on behalf of the infinite Universe and True brave Soldiers everywhere. KILL AMERICAN COP KILLER BUSH NOW BEFORE HE MURDERS MORE IN OUR NAME AS THE INNOCENT COWARDS!)

CNN is not interested in working for American interests by asking why, as there is little of any money in just doing good for your neighbor, like saving a living, as we would wish to be helped for ourselves, if we were bound just the same to be equals at being. Mr. Blitzer and Bill Hemmer, as americans, wouldn't give a dollar of your time, to speak on human rights to be of their own concern, (they're rich!) or to save the life of an innocent poor victim, if it meant they would therefor, be compelled to honestly report on their false deity bush, the super evil criminal to ourselves as Humanity, the unelected dictator, American cop killing anti-Christ in person!, that they so leave to see Americans sacrificed as ignored to be robbed from as their profit margin increases. Do less for America, The People, and get payed more in collateral damages paid for by doubting Patriots, too slow to stand for the American flag in protection for their own living as lost to the wind. Mr. bush, tommy, rumsfeld, cheney and blair give

no evidence, but for to show themselves as the criminals
who openly harbor terrorist activity against our
communities, and WE, as Humanity, according to CNN, are
expected to go out and kill our friends in cowardice,
instead of standing up to destroy the demon bush instead
to save our own selves.

God, or no God, I hate that murderer bush as much as any
real man would to care for his own life as family.

The Sony AN-LP1 is a good portable antenna from reports I have read in the news group.  I own a SW7600G but not that antenna. I have been thinking about picking one of these up though.

I have no idea about Canada to the US, but many a times people have complained of ordering something from the US, and getting stuck with a brokerage fee.  It has everything to do with the the courrier company.

The complaints in the local "consumer action" column usually eventually resulted in the charges being dropped, but that was likely a goodwill thing. I don't think this is ever spelled out, and the only way you know it will happen is because you've heard of it happening before.

Not that I order much from the US, but I'd always check how they ship. Regular post office shipping never gets those brokerage fees.

I believe you are being hosed (to use the Cdn expression). NAFTA (N. Amer free trade agreement) says you can be charged sales tax on locale where you take charge of the package but radios (amateur, SW) are customs exempt b/n the 2 countries. Period. I had a fight with UPS from the USA to Canada where they thought I should pay a brokerage fee. To get delivery I had to pay it and then appealed through Canada customs. I was refunded the amount. UPS threatened me several times before the appeal went through. I just ignored them and forwarded their correspondence to customs. I only buy things now shipped by postal service, which frankly takes usually only an extra day or two and avoids this sort of extortion. The US and Cdn postal services do an excellent job of cross border shipping in my experience doing this with 4 radios, 3 computers and various other things like books and parts. And they are cheaper for basic shipping costs.

I think the shyster courier companies think they can make a buck from you by standing there with the package and saying they won't deliver unless you fork out. I don't do business with any company who won't ship the way I want it.

So hold your ground and complain. Refuse to pay. If you never use purolator again, they can't hold a package for future extortion.

The Sony AN-LP1 works much better than the wind-up antenna
that comes with the 7600GR.  For limited space and portability
the AN-LP1 is perfect for the 7600GR.  Just keep in mind that
it is designed for frequencies above 3.5MHz.  It does little to nil
for any frequencies below 3.5 MHz.  In which case the wind-up
antenna will be better suited from 1.7 - 3.5 MHz if that band is of
interest to you.

Go for it!

There are 5 pins per side. The ground and signal lines are obvious, but

Billions of people on this planet, millions of people probably have access to this group, but only 30 or so people ever post here. Of the 30 or so, most of the posters obviously have an idiotic bend, and are determined to appease the others in their genre by posting uncritical material for the "yuks".

Odd how we have so accepted being programmed over the years, just like Pavlov's Dogs. (look it up, do the research for once on your own, Pavlov is spelled correctly, go to Google, enter (without the quotes) "Pavlov's Dogs", and read. I know that it's somewhat harder (pardon the pun) than looking at pictures of nude women (and for a few of you guys, I would guess that it should read "pictures of nude men").

Below are some quotes concerning the gullibility of a previous generation of people:

The size of the lie is a definite factor in causing it to be believed, for the vast masses of a nation are in the depths of their hearts more easily deceived than they are consciously and intentionally bad. The primitive simplicity of their minds renders them a more easy prey to a big lie than a small one, for they themselves often tell little lies, but would be ashamed to tell big lies.
--Adolf Hitler

"Of course the people don't want war. But after all, it's the leaders of the country who determine the policy, and it's always a simple matter to drag the people along whether it's a democracy, a fascist dictatorship, or a parliament, or a communist dictatorship. Voice or no voice, the people can always be brought to the bidding of the leaders. That is easy. All you have to do is tell them they are being attacked, and denounce the pacifists for lack of patriotism, and exposing the country to greater danger."
-- Herman Goering at the Nuremberg trials

What do you think the quotes should be from the current U.S. administration, something similar?

Stalin knew about the ineffectiveness of elections:

"Those who cast the votes decide nothing. Those who count the votes
decide everything."
- Joseph Stalin

Always remember the following:

They that give up essential liberty to obtain a little temporary safety
deserve neither liberty nor safety.
Benjamin Franklin

Soliloquy.

(I won't read responses to this, in the spirit of "Soliloquy", I need not
know your feelings).

"Main Entry: so�lil�o�quy
Pronunciation: s&-'li-l&-kwE
Function: noun
Inflected Form(s): plural -quies
Etymology: Late Latin soliloquium, from Latin solus alone + loqui to

1 : the act of talking to oneself

It's still open to debate if Rap is actually music -- last I heard it
was still classed as the missing link between music and noise.

Anyone know of any "complete beginner" tutorials?  I have the 7600gr,
so I'm also looking for an SSB tutorial (everyone says I need to "learn
how to work with SSB".

I personally think it makes no sense and just holds black culture back from
moving forward. It promotes violence, drug use and lack of respect for
women. Even the rappers own mothers are put down.

Considering their offspring, maybe they've got it coming.

It helps in the sense that I now know the impedance is 2000 ohms,
assuming the InRad filters are the same impedance as the other
kenwoods.  With equal impedances (sort of what I expected), I assume
that input and output can be interchanged..

# Leading Shiite cleric says new Iraq must embrace Islamic law

By Steven Komarow, USA TODAY

BAGHDAD � A high-ranking Shiite cleric who helped a coalition of religious parties to apparent victory in Iraq's elections eight days ago said Sunday that the new constitution must embody Islamic law.

Iraqi Shiite Muslims chant religous slogans as they celebrate their preliminary success in the country�s historic elections.
Wathiq Khuzaie, Getty Images

"We will accept no compromise," said a statement by Grand Ayatollah Mohammed Ishaq al-Fayad, one of the three top Shiite clerics who serve beneath the most senior religious leader, Grand Ayatollah Ali al-Sistani. Al-Fayad said separation of religion and state must be "completely rejected."

Vice President Cheney, on Fox News Sunday, cautioned against jumping to conclusions about what kind of document Iraq's Transitional National Assembly will write. He indicated the United States plans a hands-off approach. "We need to step back a bit now," Cheney said. "The bottom line for everybody to remember here is, this is not going to be, you know, an Iraqi version of America. This is going to be Iraqi."

Cheney predicted Iraqis would try to avoid recreating what they've seen next door in Iran: "a religious theocracy that has been a dismal failure."

Ballot counting is expected to take several more days. Partial tallies show a coalition of Sistani-backed political parties will be the largest bloc and could capture a majority in Iraq's new assembly. The 275-member assembly is to appoint a temporary government and write a constitution.

Leaders of the coalition stressed during the campaign that the Shiites would seek a broad-based government including members of the rival Sunni Muslim sect that ruled under Saddam Hussein. Despite Shiite assurances, fear of an Iranian-style theocracy has been a factor driving the insurgency by Arab Sunnis.

Sixty percent of Iraq's 26 million people are Shiites. Many Arab Sunnis, 20% of the population, boycotted the vote. Kurds, who are mostly Sunni, represent nearly 20% but were enthusiastic about voting.

The Iraqi Islamic Party, the largest Sunni political group, said it will play no role in the new government or assembly but said Saturday that it still plans to help draft the constitution. Also Sunday:

� Insurgents attacked a police station south of Baghdad under cover of darkness, killing 22 Iraqi police officers and soldiers. Fourteen attackers also died.

� The main group monitoring the election in Iraq said its observers had found irregularities, including voter intimidation in some districts. Overall, it said, the election was well run. The group did not rule on whether the vote was fair.

� Four Egyptian telephone workers were abducted. Also, a statement on the Web signed by the Jihad Organization said an Italian journalist seized last week in Baghdad was facing possible execution.

� The U.S. military said one soldier was killed and two seriously injured Sunday by a roadside bomb just north of Baghdad. It also reported that a Marine was killed Saturday in fighting south of Baghdad. No details of either incident were released.

� The interim Iraqi government said it had arrested a Saddam-era general, Khamis Masin Farhan Ugaydi, 51, on Dec. 20 in the oil refinery town of Beiji, an insurgent stronghold. He was helping finance insurgent attacks, a government statement said.

� Defense Secretary Donald Rumsfeld, on CNN's Late Edition, said he doubted Iraq would become an Islamic government. "But look, Iraq is for the Iraqis. It's not for Americans. We're not going to decide what kind of a country they're going to have."

Iraq's ayatollahs have pressed for Islamic law. Early in the U.S. occupation, they demanded that all women be required to wear head coverings. The U.S.-appointed interim government ignored the demand and said women would have equal rights.

I should have been more specific. I need the pinouts. I was hoping to find a datasheet. I'm not going to use the filter in a Kenwood radio. Basically, it's a flea market find.

Do a search for International Radio or InRad. They might be able to help you out.

Er um what does this have to do with a Jean Shepherd marathon/begathon on WBAI?

True WBAI/Pacifica followers probably would have gone for Nader or someone further left.

But if someone posts something about Jean Shepherd on WBCQ is the follow-up going to be about some of the dubious programming WBCQ has?

The leading sports station in the NYC area (WFAN) is the originating station for Imus in the morning. (who has survived a few changes of ownership and format from the WFAN days)

Do you think the averages sports fan listening to WFAN gives a used piece of toilet paper about arguments over Imus?

A quick Google search says it's a 250hz cw filter for radios with a 455khz IF.

I didn't see any an indication of if it's a crystal or mechanical filter, or
what the shape factor should be.

From <http://www.washtimes.com/upi-breaking/20050203-051616-5199r.htm>:

Gabe Hobbs, Clear Channel Radio vice president of programming, news/talk/sports, told United Press International progressive talk is experiencing vigorous growth, largely because the recent round of the format's expansion took place during the contentious election year of 2004.

"People had a heightened interest in electoral politics," he said, "and we used that opportunity to fill a need and launch a new format."

Hobbs said talk stations typically take 18 months to two years to become established, but progressive talk is connecting considerably faster for Clear Channel.

"Our stations are getting there in 30 to 90 days," he said. "That's remarkable considering most of the talent, no one knows who they are."

There a good way to check propagation. After 25 years in the hobby I just
started paying attention to those little beeps. I've never messed around
with LF and VLF etc.. until recently and I find it interesting also.

I was at Oakland Army Terminal for four days and nights waiting on going to Vietnam,January 1964.Some guys and myself used to catch a bus going across Treasure Island to San Franciso to see the sights.We once stopped at a restaurant by the name of Snow White And The Seven Drawfs on San Pablo Blvd in Oakland for lunch.The manager/owner of the restaurant would not let us pay for our meals when he discovered we were going to Vietnam.

This guy is being paid by academia to speak. <

This does not take away from what Brenda Ann said at all.  She is
absolutely right.

Intelligent people will look at both sides, carefully consider what
they say and do, do their best to separate truth from fiction, and then
write letters and vote accordingly.  With such polarity and gross
misinformation out there, it is hard, I believe for the average
American to decide how to cast his/her vote...but it is our obligation
to try.  This last election, I saw no good candidate.  I almost didn't
vote in protest.  I am not represented by any candidate anymore...but I
did what I had to do anyway.

Isn't that what the Sunni Moslems in Iraq are trying to do? They boycott the vote,
then demand representation.

That's extremely interesting to me.

Has anyone heard anything at all about the successor to the Kneisner and Doering KWZ30? I wrote to them about eight months ago and they suggested that the successor might be ready sometime in 2005, but since then I've not heard a peep about it. At the time I wrote to them, they said it would probably already have appeared were it not for more urgent things that kept demanding their attention.

The good news, I guess, is that they do appear to mean business about a successor. My sense is that they're in it for the passion, not the bucks.

Wow, Betz -- you're even stupider than I thought -- and that's really saying
something!

Perhaps this audio link from what is sure to be a trusted source for you
(NPR), entitled "Money Woes for the Air America Radio Network" will give you
a reality check:
http://www.npr.org/templates/story/story.php?storyId=1911057

As for the "demographics" that Rush and Hannity can't touch, that would mean
what?  Academia?  Mental Hospital Inpatients?  Ha!

They've been 'meaning business' for a number of years. I was interested in a KWZ30 at one time, but then when I checked out the specs I dropped the idea.

You don't expect that idiot Bushite sheep to keep in touch with reality,
do you?  Reality is against his religion.  No, he'd rather cling to
someothing somebody told him a long time ago that made him feel good
about himself, like a hillbilly heroin addict who just can't recapture
that beautiful first high again, no matter how big a dose he snorts.

I'm almost ashamed of the schadenfreude I experience watching these
sheeple make fools of themselves over and over and over again, as they
continue to bang their heads against reality.

Not sure where you're going with this exactly, and I don't think the analogy is a close one, but it seems safe to say that the situation here in the US is quite different than it is in Iraq. As much as we here in the US point out the polarization between the two leading sides, it is an order of magnitude less than that in Iraq, where a lot more is at stake.

In Iraq, you have three basic factions and many other fragments thrown together in one nation cobbled together from feudal states around a century ago - and the ethnic groups still inhabit their original territories and still do not get along. The Sunni alomost certainly think they should have their own nation and government; likewise the Shiites and Kurds. Frankly, it may better that way *for them*, and I probably don't have to explain why that could be so. At the same time, where the Sunni felt as though an election in the lopsided Shiite stronghold would not help them no matter how they voted (and that might be correct), they still feel as though they deserve not to be treated as dirt (and they're right - people deserve to be treated with respect provided the treatment is mutual).

If they don't get representation, whether they voted or not, internal conflict may soon come about. That's just the way the world works. The pragmatic leader of any party, who is interested in peace and national well-being, will sit down and talk with the other party to find common ground and ways to reconcile differences before it comes to this.

This situation doesn't really exist in the US, first off. No matter who is in power, most people are going to be able to function fairly well and be able to make a living without fear of reprisals from government extremists. Second, we have a pragmatic form of government as an institution, contained in the "balance of power" inherent in the Constitution - and except for the U.S. Civil War, it has served fairly well over the decades.

Third, a protest vote of "no confidence in either major candidate" does not make a voter a nonparticipant or less engaged - it makes him an active withholder of support. That does not take away his or her right to be represented.

Whether my guy in Congress is a Republican, a Democrat, or a Whig, he still represents my District - and me. If I were in that position, no matter what I ran as and gained office as, I would be obliged to consider the needs and positions of all of my people, even the ones that did not vote. I would still be their servant. This is not to say that I would oppose the majority position (presumably upon which I was elected, as long as it is basically ethical), but I would also work to be certain that nobody else's rights were being trounced. It is unfortunate that so few in government see that relationship these days.

And as you may have noted in my original post, I implied that I voted for a President anyway, and it was with strong misgivings. Despite my vote, as I said, it wouldn't matter much which gained power, because neither candidate fairly represented my views. If I can't gain representation by voting, then why vote? Being a sheep is certainly no better than trying to register an opinion by withholding a vote.

Bruce Jensen

Get your tooth replaced, move out of that hillbilly state and learn to quote
the messages you reply to you inbred goober!

You can't afford to pay attention, much less buy a good receiver.

That WJ HF-1000 was a piece of crap, get over it.

Interestingly, this Guayaquil station was booming in here in California on 3810 early AM (UTC) on February 6.  First time I'd heard it (I used to hear another, I believe, Ecuadorian on 60 meters a few years back). *Very potent signal* for (apparently) 1 kW.  Oddly, it seemed to function much as CHU does, in which it is audible on AM and LSB but not USB (broadcast in LSB with carrier reinserted for AM reception).

I miss VNG :-(

Hi, folks - used to hear Faro del Caribe regularly on 5054.6 kHz local
evenings here in California, but not lately.  I try for them, but they
just aren't there.  Anybody heard this station lately?

My, my -- we've got the condescending tone down to a science now, don't we?
How DARE someone refute MY opinion, huh?  (Which is ironically, basically
the same problem with the asinine content at Air America, too)

Well, how's this for up-to-date AND real?  Let's see how it's doing in the
ratings in NEW YORK CITY!  (That would be the flagship lib spot on the map,
wouldn't it?)  I quote:

" AIR AMERICA' RATINGS TURBULENCE IN NY CITY: Surprising many observers who
expected it to shine during election season, all-liberal upstart WLIB (1190
AM) -- base station for Al Franken and Janeane Garofalo -- actually headed
south, shedding 15% of its summer audience to finish fall at 24th place in

just-released ARBITRONS... "

Schadenfreude that, you condescending liberal twits!

A couple of years back I talked with an AAC radioman at Horsetraders in New Hampshire who'd spent some time as an unwilling guest of the third reich in a POW camp near the Polish border. He'd built a two tube regen RCVR with tubes he bought from a Polish radioman in another section of the camp.  The price of a radio tube was three full sized rats...captured, dressed, cooked and ready to eat. Guys in his barracks made a real game of getting the rats cuz they'd rather have the radio than eat the "money" themselves.

I rather doubt that a simple terrestrial storm would influence propagation,
other than the static from thunderstorms.

Like Stewart, I'm in So Cal too and have been noticing excellent reception
over the last couple days, but I thought it was due to a better random wire
that I installed on Saturday. I'm getting AIR on 9425 at S9, which has
never happened before.

Just to be sure I've got this straight, N8WWM (Doug Adair) is forging the

I don't know if it's applicable here, but some high end companies are VERY
conservative with specs.

Folks who have the KWZ30 seem to rave about it's performance.

I wouldn't hold my breath for the new model they've been talking about though -
the first time I heard of it, it was supposed to be out in 2001.

Their real business is making stuff for cars.  The radio is apparently something
they'd like to do when they have time.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

I have pretty good teeth,if you have ever been to Mississippi before you
should know Mississippi is not known as a hillbilly State,not much in
the way of hills here.There isn't anything inbred about me or any of my

relatives or kinfolks.I am Scotch on my mom's side of the family and
Irish on my dad's side of the family and I am mighty damn proud of that
too.

Importance: Low

This was from a grunt whose date unwittingly asked him to cook for her.
Anyone who has had to eat MREs--or for we graybeards, C-Rats--for months
during deployments will appreciate this.

```

The last 24 hours have featured the best reception for quite a while. Very
clear RA, BBC-Africa, Taiwan, Japan, China, a few others.  And these from
source not Sackville etc.  R-75 w/100m wire on the house, 102W 53N.

I made a typo on the title,what I have is the 400 professional.
what I could find on it was not readable after translation.
anyway,sync or no sync on this model?

The World Ends Tomorrow and YOU MAY DIE!!!

Well, no, probably not...but whatever you do, just keep reading!

ARE WE CONTROLLED BY SECRET FORCES?
ARE ALIEN SPACE MONSTERS BRINGING A STARTLING NEW WORLD?
DO PEOPLE THINK YOU'RE STRANGE?
DO YOU??
...THEN YOU MAY BE ON THE RIGHT TRACK!

"Unpredictables" are not alone and possess amazing hidden powers of their own!
Are You Abnormal?
YES! YOUR KIND SHALL TRIUMPH!

If you are what they call "different" --
If you think we're entering a new Dark Ages --
If you see the universe as one vast morbid sense of humor --
If you are looking for an inherently bogus religion that will condone superior degeneracy and tell you that you are "above" everyone else --
If you can help us with a donation --

could save your sanity!

"You'd PAY to know what you REALLY think." --Dobbs 1961
FEELING LIKE THERE'S JUST NO SLACK?
You may have 'Snapped' already from the information disease! ("The

sleep of reason begets monsters.")
The Church of the SubGenius recognizes the programming!
Look to the High Unpredictables of the Church of the SubGenius for pancultural deprogramming and resynchronization!
Perfect your subliminal vision -- edit your memory -- relive your reincarnality! SYNC UP!

This is the original Time Control program that has helped thousands to fear no longer the STARK FIST of REMOVAL.

Become PHYSICALLY ATTRACTIVE -- overnight!

Now you, too, can speak to benevolent aliens at the Alter of X-ist Contact. Learn Frame Straightening, Body Repair, Gripe Elaboration, FunKQu, Frenzy Techniques, Excremeditation, the Essentials of Survival and TIME CONTROL. Attettd End O' The World Drills and Chance Labs. Learn to 'Tenlike. Evaluate the so-called "accidents" and "coincidences" in your timestream. Perform long, complicated rites of initiation and rituals of Communionication. Accullate yourself to the Church, where you will be isolated, given a new diet, a new set of habits, and an altered label and appearance. The new void in your bran-pan will be refilled with corrected info and subconsciously implanted ritual experiences. Follow your FOLLIES and COMPULSIONS and become rich like us.
Explore the "Zen" of stupidity! Channel chronic procrastination into life-saving paranoia and precise anatityl MAKE WASTE!!
Find out who your Personal Saviors may be and who are the False Prophets in your life!

YES, YOU MAY BE THE SUBGENIUS, MASTER OF THE STOOGLEY ARTS! Perform the Salute!

The most 'NO WAY' new wage religion of them all!!
Brain-trust of our species!!

Using SubGenius secrets of BULLDADA and MOREALISM you can now MIRACULOUSLY ELIMINATE COMPULSIVE URGES such as smoking, lethargizing, overeating, insomnia, the inability to take drugs, constipation, old age, sex and money problems, baldness, illness, the Work Instinct, assouliness, and painful shortage of SLACK!

This is a certified religion of scorn and vengeance directed at all of THEM, the enemies of us Outsiders. It is "self-help" thorugh scoffing and blaspheming, frenzied fornication and the Tumping of Graven Images. The Church provides answers and miracles in the service of SUREAVOLUTION.
"Ignore the man behind the curtain" -- Oz
The Church of the SubGenius is the ultimate secret order, the superior

brain cult for those who "know better" but who demand in the LUST for GRINS a spectacular, special-effects-laden belief system -- a 'stuporstition.'

This religion, devised by precise mathematical formulae, weirder than the most obscure UFO/Atlantis cults, is invaluable to all superior renegades who, at any time, are justifiably on the edge of insanity and can be made whole only by developing a seventh sense of BLUDGEON HUMOR.

Perhaps the only poster to date who noticed it - when I saw that I
figured he opened himself up to what he got.  I may not know how to
sustain a good relationship ........ but I sure know how to make one
fail 8-}

You found out the secret!

How the hell else are you going to last a long time with someone if they
are not your friend. Besides being friends the only other thing required
is that you both share the expectations of the marriage like kids, money
and who does what.

Maybe yes and maybe no.

In the good old days of analog that could be true as long as you did not use someone's specifically patented circuitry. There were other ways of building circuits to perform the same operation.

No one has had to worry about that for a long time since all the basic patents have long expired but now through the magic digital encoding the method becomes intellectual property again. Even if you design a different circuit that performs the same decoding the decoding itself is part of the property and so you will violate it.

Yes it was pretty good today. I had some fading on the usually excellent signal from Radio Netherlands from both the antilles and Sackville. Signal levels throughout the 2 hours moved from +20 to S6, which is about 40 dB.

They had a very good program on aging trends in different countries and the social programs that take care of them. The real shock was the indication from them that Bush was doing the right thing by making changes in social security now rather than later where the Democrats want to do nothing.

Another very good program was on the chinese "Art of War" book. If you did not hear them this weekend maybe these will be repeated this week.

Sure, the law was put over before even I was born (though they did still make Packards in 1956). But the big networks were well in place by the 1930s.

> The sole purpose was to PREVENT large media
> from controlling the airwaves. It was thought that it would be far more

I doubt your assertion. That's the argument that was made, of course, but like practically everything else that comes from the mouth of a bought politician, it was just a screen for the real reason.

The presence of regional stations on shortwave programmed for a domestic audience would have had essentially zero impact on people wanting to hear local programs about the doings in Punkin Holler or Peoria. And the local advertisers would have known that and kept their dollars flowing to the small local stations.

But domestic shortwave would definitely have reduced the revenues of the big networks. It would have let low-expense competition cut in on the national accounts. _That_ was intolerable. Hence the law.

The goal of the law wasn't to freeze out the mom-and-pop AM stations. That would have been too blatant -- and really bad PR, too. Mom and Pop posed little threat to the big chains -- in fact, in time they would almost be forced to join them in one way or another.

The law's real goal was to squelch the possibility of new entrepreneurs with big ideas popping up and challenging the big networks, which looked awful easy to do as the incredible propagation of shortwave began to be understood and exploited.

The money-men got their way. The law was enacted. So anyone wanting to start a national chain had to go the very expensive and difficult route of buying or signing up hundreds of stations -- a very high bar to competition. The big guys like it behind that kind of bar.

They _hate_ leveling the playing field. That's why they like IBOC.

It's a parallel situation to big corporations, their "foundations," and the tax system.

The super-rich love the "progressive" tax system that is sold to the boobs as "soaking the rich."

Why? Because 1) their bought "liberal" and kosher "conservative" politicians make them so many exemptions and writeoffs that it takes volumes the size of the _Encyclopaedia Britannica_ merely to record them (probably no one person has even read them all); 2) a tax system that ratchets up the rates the higher your income (a so-called "progressive" system) makes it harder -- and this is the key -- for new people (who can't yet play the fancy accounting and writeoff games) to rise into the ranks of the super-wealthy and powerful; and 3) a complex tax system that requires the serfs to report all their economic activity to Big Brother makes people easier to control -- and easier to indict and jail if they miss some jot or tittle of the law, as practically everyone has.

What they _don't want_ is too many people (there will always be some who succeed nevertheless, of course) who own a few million and a factory or business or two to be able to rise the next step up the ladder to the level of the super-rich and powerful. That might be bad for "stability."

And they certainly don't want the old American upper middle class, which once had a degree of real financial independence and the ability to create and fund new political movements, to regain that independence. (Now this class has been reduced mainly to being glorified employees of the corporations.)

> It is the same reason that you need federal approval to buy a media outlet such as radio stations, TV stations and newspapers. It was thought, and they were correct, that diversity of views was a good thing and having a few giant companies controlling the media would be counterproductive. You are right in that the FCC seems to be more and more attracted to the money but that is a relatively recent thing, counter to the old rules under discussion.
>

[...]

And exactly how would keeping religious zealots and Timtron and me off U.S. shortwave stations help "diversity of views" on the airwaves?

With every good wish,

Kevin.

    Yep - but I'd buy tickets if that was the case - watching Niagra
Falls flow backwards would be worth it!

Okay, lumps have been taken - knew the location but totally blew it on
the direction of the waterflow... lesson learned.  Glad I could
provide you some entertainment.  Speaking of which - regarding the
Amish this link might be entertaining, though some of you may have
seen it before.

Hey, at night with the colored lights shining on the falls it would
truly be a psychedelic experience.

NBC was formed in 1926, which certainly predates the FCC and probably
predates the FRC.  When was this presumed law enacted?  If it's actually a
FCC regulation, when did the FCC enact it?

There was only a small fraction of the stations on the air before WW2 as
there are now.  In the 30s and 40s, radio was centered in the big cities.
Nearly all stations had to run network programming in order to survive.

There was very little local radio programming before WW2.  Local
programming, such as it was, developed in the 50s, after the networks turned
their interest to television.

Giant companies such as NBC, CBS and Mutual controlled radio.  Well, they
did split NBC.

Then why did the network backed stations get the best frequencies, the clear channels and the highest power limits?

Why were the school affiliated stations ghettoized?

3. I don't watch TV or listen to domestic radio
4. I agree with the majority of posts that say one accepts thier wife/gf's hobby and they accept yours
5. If this guy lost all his baseball (perhaps he should play cricket) stuff and it came to this he never really had a true relationship with his wife.
6. It's a sad world today, where most guys my age in VK, make sure they have assets listed with lawyers in thier own right before they ever move in with a girl, hence the reason that all-without exception-my mates still live at home with thier parents.
7. He obviously never read the Amateur's Code "never place hobby above work, family and other commitments"

Is that little Sony radio really all that good for AM band? And
WalGreens sells them too? There are a bunch of WalGreens stores in my

area and two of them are about five miles or less from me.I think today
I will drive over to one of the stores and see if they have the radios
in stock and I will buy one.If I really like the radio,I just might go
back later on and buy another one too.As for as FM is concerned,all of
the FM stations around here come in loud and clear on my radios.

And how about that Radio Shack Loop Antenna? Are they worthwhile and how much do they cost? There is a Radio Shack store across the highway from me at the mall.   www.metromalljackson.com    Lots of pretty wimmins over to flirt with too :{) I am going to find a Windows-Me upgrade CD for one of my old tower computers (I own about 14 old computers I bought at places such as Goodwill and Salvation Army thrift stores about two years ago and two of them have Windows 98 in them) and I am going to the Waldensbooks store anyway for a Windows-Me For Dummies book.

Well it only makes sense. Why live with someone you don't like. Theres got
to be some passion. Even when their your friend it's hard work, raising kids
and everything else.

I did catch part of the program on aging and it was very interesting.

Don't know if anyone heard it, but Radio Ukraine also had an excellent
program on a jazz acapella group based in Kiev. Not the sort of music I
typically listen to, but they were really good! They did a version of
"Sometimes I Feel Like a Motherless Child" that was second to none.
Also did some Georgian and of course Ukrainian folk songs.

Most of the time Canadian beacons transmit a long dash after their ID (sometimes called DAID) as opposed to long silence as in the US beacons. QG carrier transmits on 353kHz with a tone of 400Hz that's why it appears to be near 353.5kHz. QG with a DAID sounds like QG long T.

Listening to beacons can be a form of DX in itself. So far I have 489 beacons logged consisting of 30 US states, 46 Canadian, and a total of 17 countries. My furthest beacon is IPA, Isla de Pascua (Easter Island), Chile on 280kHz, 3,990 miles away. They have a 3kW transmitter so they are a rather easy copy. Most NDBs (non directional beacons) are under 25 watts of power.

Don't get sucked into listening for NDBs or you will be up all night listening to, as my wife calls it, strange beep beeps.

Amendment 1: "Congress shall pass no law... respecting an establishment of religion, nor prohibiting the free exercise thereof."

This and some of the Founding Fathers' intentions has been upheld by the US Supreme Court as being a separation of church and state. Without separation of church & state, you have a theocracy. If we didn't have a separation of church & state, it would be possible for any religious group to take control of the government and pass laws requiring everyone to follow that particular religion. You cannot have freedom of religion without having a separation of church and state.

If you want to practice your religion, then fine, do it. Just don't require anyone else to do it to. This is what the Founding Fathers wanted and this is what the First Amendment states, and has been upheld by our highest court.

The only country on earth that's farther to the right than the US is
Iran and you're talking about Americans being in touch with reality?
Most of the world is liberal and nonreligious while Americans
overwhelmingly believe that the Biblical account of Creation is the
literal truth. Hell, not even the *JEWS* believe that anymore, and
they're the ones who came up with it! Social programs are being expanded
in Europe while they're being eliminated in the US. You want to talk
numbers? More people live in Europe than the US, and those Europeans are

overwhelmingly social democrat and atheist, while Americans are overwhelmingly far, far right, almost to the point of fascist, and evangelical Christian. Europeans work less and get more from their paycheck than Americans, who are increasingly forced to work for $8 an hour and pay exorbitant costs of living on their meager wages. Europe may be expensive, but Europeans can afford it. Americans, OTOH, face a chronic shortage of housing, driving up rent while their paychecks go down. Fuel costs are higher in Europe, but most Europeans don't have to drive two hours one way to work in a gas guzzling SUV. In fact, Europe is so compact that most Europeans don't have a need for a car, and when they do need a car they have many fuel efficient alternatives to choose from. Americans, however, have a choice between Gas Guzzling SUV #1 or Gas Guzzling SUV #2.

Newspapers have been reduced to editorializing about safely banal subjects, like the weather or clean socks, or resorting to metaphor to make their case.

Don't think it couldn't happen here in America. All that's needed is another terrorist attack on the scale of 9-11, maybe even bigger, and Americans would practically be BEGGING Bush to take all their freedoms, take all their liberty, as long as it would save them from the evil terrorists. The problem is that trading freedom for security is a bargain with the devil, metaphorically speaking-you lose your freedom yet are no safer. Benjamin Franklin realized this when he said that those who trade essential liberty for temporary safety get neither liberty nor safety. Americans seem to have forgotten that-they'd willingly trade the Constitution for a police state in order to be saved from Osama, yet the terrorists would still attack and the only thing free about the US would be its rhetoric about preserving freedom. Coming soon to a newspaper in your town: editorials about clean socks.

Good News!

Do you know how simple it is to go to Heaven after this

life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

That's just plain dumb, unless you have a woody for 'liberal politicians' whatever the horse feathers you think they are. It was a profit-oriented corporation - you know the kind of rich conservatives that Bush calls "my base" (that's Al Quaeda in Arabic just to tie in an equally silly connection). I think these sorts of fees are more likely to give those sort of Scrooge McDuck types of folks tingles in their naughty bits.

> The Iraqi Islamic Party, the largest Sunni political group, said it will play no role in the new government or assembly but said Saturday that it still plans to help draft the constitution. Also Sunday:
>
> � Insurgents attacked a police station south of Baghdad under cover of darkness, killing 22 Iraqi police officers and soldiers. Fourteen attackers also died.
>
> � The main group monitoring the election in Iraq said its observers had found irregularities, including voter intimidation in some districts. Overall, it said, the election was well run. The group did not rule on whether the vote was fair.
>
> � Four Egyptian telephone workers were abducted. Also, a statement on the Web signed by the Jihad Organization said an Italian journalist seized last week in Baghdad was facing possible execution.
>
> � The U.S. military said one soldier was killed and two seriously injured Sunday by a roadside bomb just north of Baghdad. It also reported that a Marine was killed Saturday in fighting south of Baghdad. No details of either incident were released.

Actually, WBAI's transmitter has always been on the ESB, though their studios are in an overpriced space on the ass end of Wall Street.

But I'm really posting to let Shep fans know that I just finished posting a five-file copy of the fairly low-fi 2600.COM MP3 stream of the above-mentioned program (minus the inevitable begging segments -- trimming a six-hour program down to 4:54:09) in alt.binaries.sounds.radio.misc.

Go right to the series labeled [repost] -- during my initial attempt at a single-file post, my PC rebooted for still-mysterious reasons, aborting the process before its completion.

Enjoy.

George Bush's War of Choice on Iraq is a totally unnecessary war.
Every life lost, every limb lost, every disfigurement, every
disability caused there is more blood on George W. Bush's hands,
and on the hands of everyone who voted for George W. Bush.
The more you know, the less likely you were to vote for Bush.
